## GLENN GETS OUT OF G. O. P. RACE FOR U. S. SENATE

### Shakeup Threatened in Alignments.

BY PARKE BROWN.

Otis F. Glenn formally announced yesterday that he will not be a candidate for the Republican nomination for United States senator in the Illinois primaries April 9. His withdrawal threatened to shake up the whole Republican picture in the state.

Otis F. Glenn.

Glenn's statement follows:

"The present political situation is such that I have concluded that an intense and costly Republican primary contest for the two year senate vacancy would not be justified from my personal standpoint. I have decided not to file as a candidate.

"I thank those who have so faithfully supported me, and I shall loyally support the Republican party and its nominees."

**Declines to Add to Statement.**

The former senator asked to be excused from an interview going beyond the limits of the tersely worded announcement and particularly going into the question of whether the lack of a generally expected teaming up of his candidacy with the candidacy of Dwight H. Green for governor was an important factor in his decision.

The immediate conclusion of political observers was that Glenn's stepping aside would have a sweeping effect, the full extent of which could not be forecast. Glenn's only announced opponent is Wayland Brooks, but Brooks' nomination without a contest is not conceded, because it is considered certain that one or more additional candidates now will jump into the race.

**Church May Enter Race.**

Several possible entrants have been watching developments closely with a hope that an inviting situation would arise. Possibly the most widely discussed of these is Congressman Ralph E. Church [10th] of Evanston, who several weeks ago broadcast form letters to party leaders thruout the state asking their opinions whether he should run for the senate. The response has not been disclosed, because Church promised secrecy for the replies he received.

Others considered as possible entrants are Charles S. Dewey, who recently announced he will make a second race for congress in the 9th district, but now might possibly change his plans, and Robert M. Adams, another north sider who ran for congressman-at-large in 1936.

**Governor Race Affected.**

Observers also held that in addition to altering the outlook in the senatorial contest, Glenn's step may have an important influence on the Republican race for the nomination for governor. Brooks, the only man in the senatorial race at the moment, has been considered as being on the brink of a complete alliance with Richard J. Lyons, candidate for governor.

The politicians now want to know whether the plan for the two to team up will be carried thru immediately.

At his home in Libertyville, Lyons immediately gave a statement over the telephone.

**"Disappointment," Says Lyons.**

"As he was one of America's foremost senators in a trying period and is one of Illinois' leading statesmen," said Lyons, "Senator Glenn's withdrawal will be a great disappointment to his thousands of friends and admirers.

"Whether he was motivated by his recognized anxiety for harmony in the Republican party or by disloyalty closely affecting him, Senator Glenn's voluntary self-elimination has greatly weakened if not disrupted our opposition.

"It has paved the way for further withdrawals, which I am confident the senator's friends and others will insist upon in order to insure party harmony and the conservation of our energies and resources so that they may be reserved for use against the common enemy in November."

Brooks was found at his farm in

## U. S. Holds 18 in Plot to Set Up a Dictator

BY WILLIAM FULTON.
[Chicago Tribune Press Service.]
*(Picture on back page.)*

New York, Jan. 14.—Federal agents today announced the arrest of 18 men on charges of engaging in a fantastic plot to overthrow the United States government and set up a dictatorship patterned after the one in Germany. With their prisoners the G-men seized 18 cans of explosives, 12 rifles, and 3,500 rounds of ammunition.

John F. Cassidy [top] and William Bishop. [A. P. Wirephotos.]

J. Edgar Hoover, chief of the Federal Bureau of Investigation, came to New York City and personally announced the roundup of the "revolutionaries" in this vicinity. More than half the prisoners were enrolled in the New York National Guard or had served in other armed forces of this country, either actively or as reservists.

**Planned to Plunder Armories.**

According to Hoover, the plotters had discussed plans for recruiting a larger force and adding to their stock of arms and ammunition by plundering National Guard armories. The ammunition in their possession was said to have been stolen from the National Guard and an investigation was started to see whether the rifles came from the same source.

Next on the program after their forces had expanded, as Hoover outlined it, the men planned a campaign of terrorism. They schemed, he declared, to bomb the Jewish Daily Forward, published in New York; the Daily Worker, official newspaper of the communist party; a theater showing soviet films, and the office of the American League for Peace and Democracy.

**Gold Stocks to Be Seized.**

Further steps included seizure of all power plants, telegraph and telephone facilities, docks and railway terminals. Bridges were to be blasted. Finally, the putsch was to have reached a grand climax with the seizure of the United States custom house, postoffice, and federal reserve bank in order to obtain control of the gold supply.

Beyond this point details were lacking on how the scheme was to be carried out by 18 men with 12 rifles and 18 bombs against a New York City police force of 18,000 men and several regiments of United States army regulars in the metropolitan area.

Hoover said his agents had captured the two principals in the undertaking. They were named as William Gerald Bishop, head of a secret group known as the Sports club within the Christian Front organization, and John F. Cassidy, head of the Brooklyn branch of the Christian Front.

**12 Congressmen in Peril.**

Hoover attributed to Cassidy statements that bombs would be used to blow up the whole police department and a plan to assassinate 12 congressmen who voted for repeal of the arms embargo.

One activity of the Christian Front's Sports club, Hoover said, was a training camp at Narrowsburg, N. Y. There the plotters were reported to have practiced on a rifle range and were scheduled to start courses in the technique of bomb throwing on the 20th of this month.

## ELMER'S WIFE, BURNED UP AT ELMER, BURNS UP ELMER'S TROUSERS

Every one in the apartment building at 2309 North Lamon avenue early yesterday knew that Mrs. Marie Breckheimer was burned up at her husband, Elmer, the janitor.

"If you don't behave," the police later were told she shouted, "I'll burn up your clothes."

Breckheimer stalked out in a huff. When he returned his basement flat was thick with smoke. Mrs. Breckheimer was gone. From the furnace door dangled the singed remains of his best suit.

Mrs. Breckheimer was arrested later in the home of friends at 4456 North Maplewood, and admitted, police said, that she stuffed her husband's pants into the fire. She will be arraigned today in the Shakespeare avenue court for disorderly conduct.

## *NINE DAY HEAT WAVE KILLS 29 IN ARGENTINA*

BUENOS AIRES, Argentina, Jan. 14 (AP).—Thirty-three additional cases of sunstroke, three of which resulted in death, today brought to 29 the fatalities caused by a heat wave now in its ninth day. Approximately 250 have been treated in hospitals. An ice shortage, accompanied by profiteering, made the situation more acute as the mercury hovered around 92 degrees, Fahrenheit.

## *City Escapes Full Force of Storm's Fury*

*(Diagram on page 12.)*

A storm which was accompanied by lashing winds heaped snow over roads in Illinois and much of the middle west yesterday but abated last night in Chicago after two inches of snow had fallen.

The weather bureau predicted fair and colder weather for the city today, with a maximum temperature in the low 20s. A cold wave arriving tonight and lasting thru tomorrow was forecast.

Streets in Chicago were glazed from the snow and from Saturday night's rain, a condition which made driving hazardous. The city, however, escaped the paralysis of communication which the storm caused in outlying sections and in neighboring states.

**Storm Stalls Snow Plows.**

The state highway department reported that some of its plows were stalled in drifts and that difficulty was experienced in keeping roads open in central and northwestern Illinois. Many roads were open only to one way traffic in the central part of the state. Reports to the Chicago Motor club indicated that 75 miles out of Chicago roads were impassable to the west, northwest, and north.

The snowfall was heavier outside of Chicago than in the city. Twelve inches fell in Madison, Wis. Dubuque, Davenport, and Keokuk, Ia., reported the same amount. There was four inches in Milwaukee, Wis., and in Springfield and Peoria.

High winds were general thruout the storm area and contributed to highway blockades by piling snowdrifts across roads. In Chicago the wind reached a sustained velocity of 33 miles an hour last night, but at times was 55 miles an hour.

**Three Cities Close Schools.**

In Moline the storm was the worst in 10 years. Schools there and in Rock Island and Davenport, Ia., were ordered closed today. Moline feared a milk shortage.

Bus service in many parts of the middle west was canceled. Hundreds of cars were stalled on the roads.

Only one Florida bound airplane left Chicago airport during the day. Flights to the west, northwest, and southeast were resumed last night.

The precipitation in Chicago has amounted to 3.34 inches since Nov. 1, .38 of an inch more than during the corresponding period in 1938-'39. Precipitation since Jan. 1 totaled 1.12 inches.

## BELGIANS FLEE BORDER ZONES; MOBILIZE ARMY

### 600,000 Under Arms; Fear Nazi Drive.

***Germans Scoff***

BERLIN, Jan. 14 (AP).—Partial mobilization in Belgium and cancellation of army leaves in the Netherlands were characterized here tonight as "another fear epidemic based on false reports." Informed quarters said the reports of German military preparations were "so much nonsense that it is doubtful if an official denial will be issued." The high command communique charged that a Dutch plane violated German territory yesterday.

[*Dutch officials said that an investigation had failed to substantiate the German charge.*]

*(Picture and map on back page.)*

BRUSSELS, Belgium, Jan. 14 (AP).—The Belgian government ordered almost complete mobilization, bringing her armed strength up to about 600,000 men, and civilians began an exodus from border provinces tonight as disturbing reports were received of new concentrations of German attack troops.

The Netherlands simultaneously took new defense measures, canceling all army leaves because of "less favorable symptoms in the international situation."

[*The British war office yesterday suspended leaves for the British army in France. The Belgian and Dutch moves caused uneasiness in Rome, where Italian officials were working to prevent the spread of the war.*]

Some military experts said the reported German troop concentrations might be only a bluff to keep the British and French from sending aid to Finland, but declared that Belgium could take no chances.

**Planes Take Pictures.**

It was known, they said, that German planes had been taking photographs along the frontier, and that German attack units were massed near the border.

The first trainload of 500 refugees from the border zones reached Brussels en route to the coast. All were French speaking residents of Eupen and Malmedy, provinces Belgium won from Germany in the world war.

Months ago the government promised to move them at the first sign of danger to prevent German reprisals if Belgium were invaded. Trucks loaded with soldiers and supplies rumbled thru the capital all day toward the frontier while men reported to mobilization centers.

**See Lessening of Tension.**

As the mobilization progressed, official circles expressed the opinion that there was a "slight lessening of tension in the international situation."

One official declared "the danger appears to have passed but every one remains on guard."

A reliable informant said German air activity at the end of last week included photographing of important Belgian industrial and defense areas. A German pilot who was forced down in Belgium by motor trouble was said to have carried such photographs.

While officials in the Netherlands made no mention of German troop concentrations, Premier Dirk Jan de Geer summoned the cabinet into special session out of which came the decision to cancel army leaves.

**Communique Tells of Decision.**

This action was announced in a communique saying:

"In view of certain less favorable symptoms in the international situation the government has, in order to be fully prepared for all happenings, decided not to give periodic leaves until further notice."

The decision to grant no more leaves, officials said, will bring the Netherlands army, navy, and air force up to the full strength of 400,000 men within the next two days. Normally the soldiers are granted two days' leave each fortnight.

The Belgian defense ministry ordered phase "D" of the little country's mobilization plan carried out. This left only phase "E" of the plan to be ordered for total mobilization. There was no announcement of how many men would be affected by the order, but last November Belgium called 350,000 men to the colors for a "state of active defense."

The mobilization order followed by

## BLOCKADE RULES OF BRITAIN CURB SWISS BUSINESS

BY E. R. NODERER.
[Chicago Tribune Press Service.]

GENEVA Switzerland, Jan. 14.—The British government virtually is taking over the management of Swiss firms in order to insure that they do not sell anything to Germany, THE TRIBUNE learned today.

Blockade authorities are forcing concerns of neutral countries to install representatives of a British accounting company in their offices to check all sales of goods. This has been done not only since war was declared but in some cases for the last six or 12 months.

**British Audit Company Books.**

Four representatives of the Zurich office of Price, Waterhouse & Co., a British firm, today left Basel after spending two weeks investigating accounts of a tire concern near the German border.

This firm, in which an Akron, O., company [Firestone] has a substantial interest, has not been able to get any crude rubber thru the British blockade despite strenuous efforts to comply with British requirements. Officials of the company insist they have not been selling to Germany.

The company has informed the British it will not sell to Germany and will not permit any of its dealers in Switzerland to do so, but still it cannot get raw rubber. The company has been operating with a skeleton force since Christmas, using rubber it is able to borrow from other firms in Switzerland.

**Empires' Firms Ship in Tires.**

This firm owns rubber that is held in Trieste, Italy, and British contraband control ports and will not be released until the British receive the Price, Waterhouse & Co. report.

Not only did British accountants check the books of this firm; the company has been forced to agree to permit them to be at the factory one week a month to check the books. A copy of this monthly report is to be submitted to the British.

This firm, altho it has only Swiss and American money in it, must operate according to the dictates of the British. If it does not, the British will not permit raw rubber to pass thru the blockade.

Meanwhile a British firm [Dunlop] and a French firm [Michelin] are shipping tires to Switzerland and offering them for sale on easy terms.

**Other Firms Hit.**

Other firms are receiving similar treatment. A branch office of an American firm was told that it will have to submit its books for the last 12 months to British auditors before anything is permitted to pass thru the blockade from the United States. This firm [Underwood Typewriter] has a branch in Germany thru which all German business is done.

Numerous other firms, mostly Swiss, are forced to open their books to the British if they expect to get anything thru the blockade. Most of these cannot operate without imports.

The full cost of the accountants falls on the firms being investigated.

The Swiss government, which is trying to preserve its neutrality, is supposed to know nothing of the British practice. Officially the British, too, say they know nothing, but the swinging of the blockade club goes on.

## *GERMANY EASES LOT OF TROOPS AND WORKERS*

[Chicago Tribune Press Service.]

BERLIN, Jan. 14.—Germany is trying to ease the lot of soldiers and workers alike in these war days. Storm troopers have issued an invitation to 50,000 men who have been at the western front and who have no relatives, to spend their leaves with them. Workers have been told that they henceforth would be entitled to their vacations, which were abolished at the outbreak of the war.

Hanover has requisitioned one of its big hotels for use during train waits by men returning from the front. Special loud speakers have been installed to announce the time of train departures because the war coal shortage has disrupted German train service and only a few trains are running.

To end overcrowding of trains, resulting from the few now running, the railroad administration has announced it will sell only as many tickets as there are seats. It also has abolished low rate tickets for weekends and vacations.

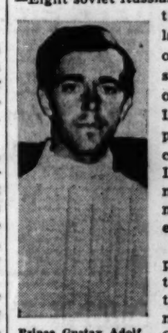
## *Nobel Prize Winner Gives Her Gold Medal to Finns*

STOCKHOLM, Sweden, Jan. 14 (AP).—Selma Lagerloef, winner of the Nobel literary prize in 1909, contributed her Nobel gold medal tonight to the national collection for Finland. The medal's gold was said to be worth $1,500.

## FALL ON ISLAND 60 MILES FROM FINNISH SHORES

### Other Planes Cross Norwegian Border.

STOCKHOLM, Sweden, Jan. 14 (AP).—Eight soviet Russian planes bombed the Swedish island of Kallaks, on the western side of the Gulf of Bothnia, near Lulea, it was reported to the capital tonight. Lulea is a port near Swedish ore mines in northern Sweden.



Prince Gustav Adolf, son of crown prince.

The Russian planes were said to have dropped their bombs at noon. Prince Gustav Adolf, son of Sweden's crown prince, investigated and was shown bomb fragments on which there were Russian letters. Residents said one bomb struck on land and eight on ice near the shore.

The islet is about 100 kilometers [about 60 miles] from the nearest Finnish territory, causing investigators to wonder whether the bombing could have been a mistake.

**Norwegians Open Fire.**

Simultaneously reports originating at Kirkenes, Norway, on the Finnish-Norwegian border in the far north said Norwegian antiaircraft batteries fired on Russian planes crossing the ill-defined border above Norwegian territory.

The Finnish armed yacht Aura, en route from Finland to Stockholm, was torpedoed and sunk by a Russian submarine.

Observers said at least 30 Russian bombers flew southward from Finland's Petsamo region.

## REDS WARN OF DANGER

MOSCOW, Jan. 15, Monday (AP).—Soviet Russia, warning of concealed danger, charged today that Norway "and especially Sweden" had failed to give assurances of their neutrality in answer to her protests against pro-Finnish, anti-soviet activity.

Tass, official soviet news agency, published summaries both of Russian representations in Norway and Sweden and those nations' answers, concluding that "they cannot be regarded as entirely satisfactory."

Neither, it said, denied "all the facts proving violations by them of the policy of neutrality" and warned "such a position . . . conceals danger."

Disclosure of the exchange of correspondence began with Tass' publication of emphatic Russian protests in the two Scandinavian capitals and warnings of the consequences if anti-soviet press campaigns, recruiting of volunteers for Finland and transit of war materials for the Finns are permitted to continue.

**Assail Outright Appeals.**

The soviet declaration charged that the Swedish press carried outright appeals for armed intervention of Sweden in the war on the side of the Ryti government in Finland. [Moscow does not recognize the Ryti government.]

This, the statement said, was calculated to provoke complications between Russia and Sweden and met no resistance on the part of the Swedish government.

The statement also commented on the formation of "volunteer detachments" with the alleged assistance of Swedish authorities. It said that action was supplemented by the direct supplying of arms from Sweden to the Ryti government "and the permission for the transit of war material of every description across Sweden to Finland."

[*The Swedish foreign office in Stockholm took cognizance of Russia's criticism of Swedish aid to Finland, stating the Russian publication of diplomatic correspondence was contrary to international custom. The foreign office said it would publish an official declaration on the question later today.*]

## BOMBS SET MANY FIRES

HELSINGFORS, Finland, Jan. 14 (AP).—Fires raged tonight in almost a dozen Finnish cities after soviet air raids which officials described as the heaviest of the war.

# RUSSIANS BOMB SWEDISH ISLE 60 MI. OFF FINLAND

## Other Planes Fly Across Norwegian Border.

[Continued from first page.]

in many places as bombers roared over in unprecedented numbers.

Several communities near Helsingfors sent urgent appeals for fire fighting help.

Cities bombed were the southwest coast port of Hango, Tammisaari, Riihimaki, Karjaa, Lohja, Lappvik, and a dozen others.

Casualties were believed to be heavy.

Three hundred bombs were reported to have been dropped on Rajamaki, and 150 were said to have rained on Karjaa. Both cities are in southern Finland.

**Twenty Houses Destroyed.**

Twenty houses were destroyed in Tammisaari, coastal city about 60 miles west of Helsingfors, and fires were burning there and in Hango.

Helsingfors residents were twice driven to cover by air raid warnings. During the second the villa of the American minister near Grankulla was bombed.

More than 100 planes were said to have passed over Porvoo, situated on the coast about 30 miles east of Helsingfors, within a half hour.

Approximately 100 bombers concentrated their attention on the Turku-Helsingfors railroad, at which dozens of bombs were aimed. None of the bombs struck the railroad, altho the planes frequently dived to a height of about 4,000 feet. Some of the raiders machine gunned civilians along the railroad.

**Attacked Five Times.**

Tammisaari was attacked five times by 20 planes, which used machine guns as well as bombs. One raider was unofficially reported shot down at Riihimaki, about 40 miles north of Helsingfors.

It was reported that some of the larger cities in Finland, such as the ports of Turku and Vaasa also were raided, altho the Russian planes concentrated their attack on smaller towns where the antiaircraft defenses are not so strong.

Several hundred small bombs were dropped in the immediate vicinity of Helsingfors, but the damage appeared to be slight.

The Finnish army communique today reported 15 persons were killed in yesterday's air raids and "several dozen" were wounded. Deaths were listed as follows: At Helsingfors, three; Lahti, one; Hyvinkaa, one, and Haemeenlinna, ten.

Quiet was reported on most of the front except on the eastern frontier near Ilomantsi where the Russians attacked, but were reported thrown back to their starting positions.

"Seven tanks were destroyed and two antitank guns fell into our hands," the communique said.

Reports from the Salla front above the arctic circle told of lively patrol action and said that Russian artillery was keeping up a sporadic fire.

In the far north, the Finns reported that they still held their positions south of Hoyhenjarvi, about 60 miles southwest of Petsamo, and that there was little activity by the Russians.

*[The Russian military communique yesterday said: "In the Murmansk, Ukhta and Repola sectors rifle and machine gun fire not of an intensive nature took place. In the Petrozavolsk sector clashes of infantry units continued. (All these sectors are on Finland's eastern frontier.) On the Karelian isthmus there was artillery fire, not of an intensive nature, and patrol activities. Soviet planes made several reconnaissance flights."]*

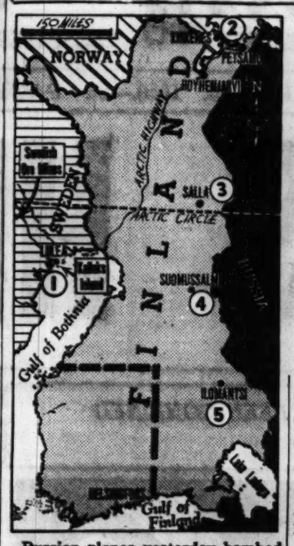
**Battle Near Suomussalmi.**

WITH THE FINNISH ARMY IN EASTERN FINLAND, Jan. 14 (AP).—Heavy fighting broke out today on the Suomussalmi front at the soviet frontier to which the Finns advanced after wiping out the 44th and 163d Red army divisions last week.

The Russians were reported bringing up reinforcements in a new effort to cut Finland in half by driving to the Bothnian gulf, and used their air force in the revived operations. Various points behind the Finnish lines were bombed. The Finns said their lines were holding firmly.

Prisoners taken in last week's battle told of Russian efforts to reënforce the trapped 44th and 163d divisions by bringing fresh troops in big air transports. But the troops were captured upon landing near Suomussalmi.

## *Developments in Finnish War*



Russian planes yesterday bombed the Swedish island of Kallaks (1). Other Red planes appeared over Norwegian territory (2). A Russian attack was repulsed on the northern front (3), while Red troops began another attack (4) apparently aimed at a drive to the Bothnian gulf. At Ilomantsi (5) the Finns drove back advancing Russian forces. Area inclosed in broken lines above corresponds to area of map at right.

Finnish cities hit in two days of bombing by Red planes. Porvoo was not bombed, but planes were sighted over the city.

## BOMB AMERICAN'S VILLA

BY DONALD DAY.
[Chicago Tribune Press Service.]

HELSINGFORS, Finland, Jan. 14.—The fondness of H. F. Arthur Schoenfeld, American minister to Finland, for skiing parties got his summer villa into difficulties today when a soviet squadron of eight planes dropped about 20 bombs of assorted sizes on the place. One incendiary bomb smashed thru the living room and into the cellar, but failed to ignite.

Schoenfeld rented the villa a year ago as a week-end home and moved there when soviet troops crossed the Finnish frontier. The villa is situated on a lonely little hill several safe miles from Grankulla, a resort town, west of Helsingfors, where the remainder of the diplomatic corps is housed. The nearest house is a quarter of a mile away thru the forest.

Most of the bombs landed on the villa grounds, three of them blasting six foot craters. Windows were smashed and some splinters penetrated the walls.

During two raids over Helsingfors and the other over Grankulla today the only damage accomplished was to the minister's villa. One soviet plane was downed by antiaircraft batteries just outside Helsingfors.

Schoenfeld has had frequent skiing parties during which a number of diplomatic automobiles would park at the villa. It was believed the soviet pilots suspected this was the headquarters of some local staff.

Maj. Frank Hayne, American military attaché and the first American officer ever assigned to make Helsingfors his residence, was one of a group of American skiers approaching the villa to meet another party when the planes arrived. Hayne said they were flying at about 2,000 feet under the clouds and circled twice before unloading their bombs. There were no casualties among the legation staff.

Tonight the diplomats were debating whether to move back to Helsingfors or farther into the country.

**Sees Helsingfors Raiders.**

I watched a visit of Russian bombers to Helsingfors yesterday, viewing the action from the tower of the Hotel Torni, the highest point in the capital.

Taking cover behind scattered clouds, seven Russian machines with their motors idling then swooped low over the factory district, dropping bombs. One machine was seen to release its entire cargo of bombs at once. They failed to strike their objective, but demolished a small wooden house which blazed like a bonfire.

Fire engines raced thru the streets toward the blaze without once sounding their bells or sirens.

Walking thru the bombed district, I saw a large section of the street in front of a hospital covered with yellow powder from an incendiary bomb which had exploded but failed to ignite anything.

## *Massmeeting Protests Actions of the Dictators*

A massmeeting protesting the actions of European dictators was held last night in the Chicago Coliseum under the auspices of the Chicago All-American committee for the defense of human rights. Ald. Paul Douglas [5th] was chairman. Organizations which took part were the Czecho-Slovak American National council, the Polish National council, the Slovak American National alliance, the American Jewish congress, and the Jewish labor committee.

# REAL WAR NEAR ON WEST FRONT, BERLINERS FEAR

## Point to Increased Air Scouting by Germans.

BY SIGRID SCHULTZ.
[Chicago Tribune Press Service.]

BERLIN, Jan. 14.—The steadily increasing number of German reconnoitering flights over England and France, involving the use of more and more planes, is keeping alive the belief that the day is nearing when the war on the western front will emerge from the preparatory stage which has kept the population in suspense for four months.

Authorities tonight admitted that British planes flew over Germany on Friday night.

"But they did this at night, when reconnoitering flights have no practical value," they said. "German observation posts followed the flights of these English planes, which flew very high. They turned back west of Vienna and Prague. If the Britons are satisfied with the meager results of night flights it is merely because they know such night flights are not dangerous."

**British Flyers Challenged.**

Germans challenge the British to fly over their country in daytime, "the way Germans flew far into France, to Nantes, Bordeaux, and Paris, and to the Shetland and Orkney Islands, Edinburgh, Glasgow, and London."

In tonight's communique, covering yesterday's developments, the German high command said antiaircraft guns shot down an enemy plane near St. Ingbert [Germany] and that an English plane attempted a night attack on the north Frisian Islands. "Its bombs fell into the water without doing any damage," the communique said.

**French Doubt German Smash.**

PARIS, Jan. 14 (AP).—Vigilant watch for possible new war developments was maintained tonight by the French high command following the sudden decision of Belgium and the Netherlands to take new preparedness measures.

Semiofficial sources, however, said there was no reason to confirm "that a German offensive is on the point of being unleashed and that it is only a question of days or hours."

A semiofficial statement earlier reported the Germans had completed certain regroupings along the frontiers of Belgium and the Netherlands.

**Two German Planes Downed.**

French reconnaissance planes, heavily flanked by pursuit planes, flew deep into Germany yesterday without incident. Similar German maneuvers over northern France were said to have resulted in two German planes being brought down. The crew of three on a reconnaissance plane is said to have been captured after the craft was forced down in a battle with two French planes.

The high command's communique tonight said: "Nothing of importance to report during the day."

*MYRA BRATTON.*

Las Vegas, Nev., Jan. 12 (AP).—Myra Bratton, 24 years old, actress proclaimed by Dave Gould, studio dance director, as "The girl with the most beautiful figure in the United States," was married here yesterday to Truman Bradley, 34, Los Angeles radio announcer.

# BELGIAN, DUTCH MOVES CREATE A STIR IN ITALY

ROME, Jan. 14.—Defensive measures taken by Belgium and the Netherlands kept the foreign ministry here in a ferment all day. It is regarded certain that if any moves are being taken by Italy in this new crisis it is to urge a peaceful attitude on all concerned, including Germany.

Italy, authoritative circles say, does not want to see the conflict spread. They hold it certain that if Germany violated Belgium's or Holland's neutrality it would considerably disturb relations between Rome and Berlin.

When the possibility of an attack on the low countries came to the fore several months ago Italians took the attitude that Germany did not mean business with her concentrations on the Netherlands' frontier, and all evidence still points to them believing the reich does not intend to make any vital moves in the west.

# FINNISH RELIEF HEADS OUTLINE 3 WAYS TO HELP

Finnish relief headquarters yesterday outlined three methods by which Americans could contribute to the aid of Finland.

Officials said all contributions intended for the general relief of the civilian population should be sent to the Finnish Relief Fund, Inc., 200 South La Salle street. Yesterday the contributions passed $90,000.

"Contributions intended for medical and hospital relief in Finland," a statement said, "should be given to the American Red Cross. Gifts of clothing and other material donations will, as hitherto, be gratefully accepted at the Finnish consulate general, 44 Whitehall street, New York City, and shipped without further charge."

# BELGIANS FLEE BORDER ZONES; MOBILIZE ARMY

## 600,000 Are Under Arms; Fear German Drive.

[Continued from first page.]

only a few hours a hurried cancellation of all army leaves last night. Messengers sped thru Belgian cities summoning officers and men from cafés, theaters, night clubs, and homes. Recall orders also were broadcast thruout the night.

Increased air activity was noticeable and the Belgian radio stations ceased broadcasting weather news on the grounds it might be of use to any invader.

Government buildings were placed under military guard this morning. Guards have been doubled on roads and communication centers. Factories and important buildings were being protected with sandbags by mobilized civilians.

**Automobiles Requisitioned.**

A number of private automobiles and horses were requisitioned.

The capital was quiet but people showed evidence of uneasiness and gathered to read conspicuous blue posters announcing the new mobilization order. Cafés which were closed from 2 to 5:30 p.m. reopened but were comparatively empty. Newspapers sold quickly and were read with gravity.

**AIR BASE ADVANTAGES.**

Neutral observers frequently have pointed out that if Germany could establish air bases in Belgium or the Netherlands she could cut the flying distance to England by hundreds of miles. This would permit lightning air attacks by bombers accompanied and protected by small fighting planes with short cruising ranges.

Belgians believe a German attempt to invade their little country would not meet with the success it did in 1914. Military men say the Albert canal, the Liege fortification system, and the defense works to the northeast would give the Belgian army a chance to hold back a German invasion, should it come. Backbone of the defense is the canal, which runs 75 miles from the Ardennes mountains to the sea at Antwerp. It is 250 feet wide and from 15 to 20 feet deep—a formidable water hazard.

**First Line of Defense.**

The first line of defense is along the 55 miles of Belgium's common frontier with Germany. Fortresses at Eupen and Malmedy have been linked and extended by a system of trenches, blockhouses, and reinforced concrete machine gun nests. Behind this is a stronger line of fortifications fashioned after the French Maginot line and then comes the canal.

Despite a formidable system of water defenses, military observers say the Netherlands is not as well equipped defensively.

# SENATORS ASK STATE DEPARTMENT RULING ON LOAN TO FINLAND

Washington, D. C., Jan. 14 (AP).—Republican members of the senate banking and currency committee served notice today they would attempt to block action on a proposal to lend $60,000,000 to Finland until the state department has made a clear statement of its views on neutrality as affected by such a loan.

Sen. Tom Connally.

A bill by Senator Prentiss M. Brown [D., Mich.] to authorize the loan from the Reconstruction Finance corporation is pending before the committee. Senator Charles W. Tobey [R., N. H.] said he would demand at Tuesday's committee meeting that the state department be queried. Senator Robert A. Taft [R., O.] also wants advice from the state department.

Senator Tom Connally [D., Tex.], an influential member of the senate foreign relations committee, sounded sentiments expressed privately by many of his colleagues when he asserted: "We have no right to commit the government of the United States of America and the funds of the United States of America in a loan to a nation at war, even tho we sympathize deeply with Finland."

# REPORT SPY CASE SUSPECT SEIZED IN GERMAN CREW

New York, Jan. 15 (AP). — Karl Schlueter, long sought fugitive defendant in the government spy case of 1938, is reported to have been seized by G-men after he entered this country as one of the crew members of the scuttled German liner Columbus.

As the 413 other crewmen and officers from the Columbus entrained for the west coast, bound for home by way of Japan and Russia, it was said that Schlueter was being questioned by J. Edgar Hoover, chief of the Federal Bureau of Investigation. Neither FBI agents nor immigration officials would admit that a spy suspect had been taken in custody.

Schlueter was one of 18 persons indicted by a federal grand jury in June, 1938, on charges of conspiring to sell American military defense secrets to a foreign power. He escaped to Germany.

## *Ecuador Rebel Leader Freed; Flies for Colombia*

QUITO, Ecuador, Jan. 14 (AP).—José Maria Velasco Ibarra, accused of leading an unsuccessful revolt against the government after his defeat in last Thursday's presidential elections, was freed from prison today on condition that he leave the country at once. Velasco Ibarra and his wife then boarded a government chartered plane for Cali, Colombia.

# BRITAIN CANCELS ALL LEAVES FOR ARMY IN FRANCE

## *Action Parallels Steps by Low Countries.*

LONDON, Jan. 14 (AP).—The British war office tonight announced that all leaves for the British expeditionary force in France were temporarily suspended. Official sources explained that men already on leave would not be recalled, but that no further leaves would be granted for the time being.

Large numbers of troops of the British army in France had been permitted to come home for the Christmas and New Year's holidays. Today's order will not affect those soldiers who still are in England.

**Parallels Dutch Action.**

Observers noted that the cancellation of leaves was decreed simultaneously with similar action by the Netherlands and almost complete mobilization by Belgium. The two low countries appeared to be alarmed by reports of a concentration of German attack units near their frontiers and German aviation activity.

Authoritative sources in London, however, said that they knew of no reason for nervousness on the part of Belgium and the Netherlands.

**Pledged to Aid Belgium.**

Britain is pledged to uphold Belgian neutrality and has a defensive interest in keeping a hostile force out of the low countries, which, if occupied by the Germans, would afford good jumping off places for aerial and naval attacks against Britain.

# VAST HOSPITAL UNITS IN FRANCE AWAIT WOUNDED

## Ready for Day When War Becomes Serious.

BY ALEX SMALL.
[Chicago Tribune Press Service.]

AT THE REAR OF A SECTION OF THE FRENCH ARMY ZONE, Jan. 14.—Today I obtained a good idea of the efforts that French military authorities have made to build up a medical organization adequate to the gigantic and horrible war they expect.

It was clear that they were determined to avoid one of the greatest horrors of the world war, which was the sufferings of the wounded thru inadequate medical equipment and organization.

The scene was a little town in the mountains well known to summer vacationists. It was an ideal spot in which to establish a second line medical base. The buildings were there in the form of summer hotels, of which 20 were requisitioned. Within three weeks they were filled with army cots and all medical and surgical necessities.

**Army Installs Heating Units.**

The only serious problem has been the heating. These hotels were unheated, being closed during the winter. Emergency boilers were installed by the army and today are supplying enough heat for the operating rooms where stoves cannot be used.

The wards and small rooms are heated by stoves to the point that Frenchmen consider adequate in these mountains, where the winter temperature is low and the weather sharp like a windless December day in Wisconsin. Here, too, I saw how this war is turning out entirely different from expectations. This big plant now is ready. Actually it houses soldiers whose most serious trouble is a bad cold or a touch of influenza.

Hence this place is like an immense factory ready for large scale production, but getting only a few orders. Some of the doctors who were mobilized and grouped here have been sent away. Even so, there are 220, many of whom, it is admitted, have little or nothing to do.

**Auto Is Deadliest Weapon.**

The most lethal weapon in this war so far, judging from conversations I had here, has been the motor car. There have been a number of broken legs and arms, a surgeon told me, most of them caused by accidents resulting from driving in heavy traffic with dimmed lights or no lights at all.

The next most frequent cause of hospitalization is frozen feet. This can be classified as "wounds incurred in the face of the enemy," since the victims are soldiers from advance posts who were forced to remain immobile with their feet in freezing water and mud. Especial care is exercised, I was told, to get these cases early and have the men transported to this center.

"They respond well to treatment," a doctor told me as I was looking at a swarthy North African whose right foot was swathed in bandages. This doctor said he had not practiced a single amputation for frozen feet. In another pavilion a surgeon admitted he had had two patients who lost some of their toes.

**Faces Made to Order.**

Foresight is being used here to avoid even one postwar horror—the pitiful spectacle often seen in the last 20 years of men who belong to the veterans' association called "Gueules Cassees," which, since it is hardly elegant French, might be translated as "busted pans."

So here one entire department is devoted to surgery and treatment of face wounds. The idea is to treat them from the start so that a man's face will show minimum mutilation. There will be no more painful operations after the wound is healed in order to better a man's appearance.

France's medical service will have one war aim: To get the patient with all possible speed to a place where he may have proper surgery and nursing. To accomplish this there are speedy hospital trains, improved ambulances, mobile surgical units fitted to operate on a patient in the field, and medical airplanes.

## *2 YEARS' FORCED LABOR ORDERED FOR POLISH JEWS*

BERLIN, Jan. 14 (AP).—Two years of compulsory labor was ordered today for all Jews between the ages of 14 and 60 in the German-ruled section of Poland which has not been incorporated in the reich.

Hans Frank.

The order, issued by police and military authorities in the name of Governor General Hans Frank, said the time could be prolonged "if the instructive object of the service is not attained in the two year period."

Jews were ordered to appear at specified meeting places with tools or hand machinery, if they owned any, and food supplies for two days.

*PRINCESS OLGA.*

ZAGREB, Jugo-Slavia, Jan. 14.—Regent Prince Paul came to this capital of Croatia today on the first official visit made by a chief of the state since 1933. The prince, accompanied by Princess Olga, will stay at the palace of the provincial governor for three days.

Vice Premier Vladimir Matchek, chief of the Croatian Peasant party, and Gov. Wan Shubashich met the royal visitors. At a church service a Te Deum was sung in celebration of the agreement by which the Serbs last August granted the Croats autonomous rights.

The prince then reviewed 15,000 peasant guards wearing black cocked hats whose organization was illegal only a year ago. The parade was led by volunteer cavalry wearing sheepskin jackets and homespun breeches and mounted on mountain ponies. They saluted the prince.

## *8 Injured When Broken Wheel Derails U. P. Train*

Gilcrest, Colo., Jan. 14 (AP).—Eight persons were injured today in the derailment of four passenger cars of the Union Pacific railroad's Denver bound City of Cheyenne train. A broken wheel was blamed for the accident. One coach, a chair car, turned on its side. Mose seriously injured were two railroad employés, both Negroes. The injured were taken to a Greeley hospital.

# ADMIRAL NAMED JAP PREMIER IN SURPRISE MOVE

## Relations with America Factor in Choice.

TOKIO, Jan. 15, Monday (AP).—Admiral Mitsumasa Yonai, a handsome, aristocratic naval chieftain, became premier of Japan tonight after one of the strangest political dramas in the nation's history. Newspapers and radio stations already had announced the appointment of Gen. Shunroku Hata, retiring war minister, and his home was thronged with friends extending their congratulations when Yonai's designation was disclosed in an official announcement.

Admiral Mitsumasa Yonai.

The news astounded circles close to the government, where the appointment of an army leader was regarded as a virtual certainty.

**Friend of America.**

The actual circumstances of Yonai's appointment were not revealed, but authoritative sources said that Prince Kinmochi Saionji, who is 90 years old and the last of Japan's elder statesmen, had made the final selection.

The fact that Yonai has long been known as a strong advocate of closer relations with the United States and has a wide acquaintance in American navy circles was believed to have influenced his appointment.

Relations with the United States, complicated by a naval building race, imminent termination of the Japanese-American trade treaty, 11 days hence, and the war in China were important factors in the fall of the government headed by Premier Nobuyuki Abe, which resigned yesterday after a stormy tenure of four and one-half months.

**To Retain Navy Post.**

While no announcement was made concerning the composition of the new cabinet, it was understood that Yonai, who is 59 years old, would retain the post of navy minister which he occupied in the Abe government.

Hachiro Arita, a veteran career diplomat, was said to have accepted tentatively an invitation to become foreign minister, an office which he held early in 1939 under Premier Baron Kiichiro Hiranuma.

Toyotaro Yuki, 63 year old banker, was reported slated for finance minister, a position he held in 1937.

## *American Volunteers to Have Own Unit in Finland*

ROVANIEMI, Northern Finland, Jan. 14 (AP).—American volunteers, who have been arriving in Finland by the hundreds since the war with soviet Russia began, are being organized into a separate legion, an official bulletin announced today.

# GERMANY WORKS DAY AND NIGHT TO BUILD UP ITS NAVY

## Two 35,000 Ton Warships to Be Ready Soon.

BY SIGRID SCHULTZ.
[Chicago Tribune Press Service.]

BERLIN, Jan. 14.—With German shipyards working day and night, Nazi officials expect that within a few months Germany will have new superbattleships with which they can "challenge British claims of naval supremacy" in open battle.

Two of three superbattleships under construction, the Bismarck and the Von Tirpitz, both of 35,000 tons, will be completed soon. It is expected one will be ready for action in two months and the second by midsummer.

They were laid down in 1936 and 1937. Naturally, secrecy shrouds news about the third battleship which was first claimed to be of 35,000 tons, but which later was enlarged. Germans fondly hope that it will surpass in size and power England's biggest warship, the battle cruiser Hood, of 42,100 tons.

**Conservative on Speed.**

These new additions to the German navy probably will have engines of between 150,000 and 200,000 horse power and a speed of 27 knots. This is less than the official speed of the Hood, which does 31 knots, but German ship builders frequently forecast less speed than that actually obtained by their ships.

Seamen in Hamburg and Bremen, who are superstitious, as most seafaring men are, insist that this is sound policy because, "it is better to be agreeably surprised by trial runs of a new ship than disappointed."

Armament of both ships will be eight 15-inch guns with secondary batteries of 6-inch weapons and an exceptionally large number of anti-aircraft weapons. It is expected the ships will have 16 heavy antiaircraft guns and 14 light defensive weapons. This surpasses the air protection guns of most modern dreadnaughts, indicating how seriously Germany takes the rôle of aircraft in modern sea battles.

**Other Battleships.**

The battleships Gneisenau and Scharnhorst of 26,000 tons are small in comparison with the ships nearing completion. The heaviest in Germany's naval forces, the Gneisenau and Scharnhorst, have 9 11-inch guns, 12 6-inch guns, 11 4.1-inch guns, and 16 3.7-caliber weapons. These vessels have a speed of less than 27 knots.

Changes are being made in the construction of the Prinz Eugen, which was launched by the wife of Admiral Nicholas Horthy, regent of Hungary, last summer. It will become a heavy 10,000 ton cruiser with heavier armament than the pocket battleships which Germany evolved when its naval building activities were restricted by the Versailles treaty.

To hasten the completion of warships, Germany is speeding ships down the ways to make room for the laying of new vessels. Ordinarily, unless an outfitting pier is near, ships remain on the ways until the heavy turrets and barbettes are installed, but under the present program the war vessels are waterborne as soon as the hull is watertight.

No startling new developments in design or improvements are expected in Germany's latest naval units.

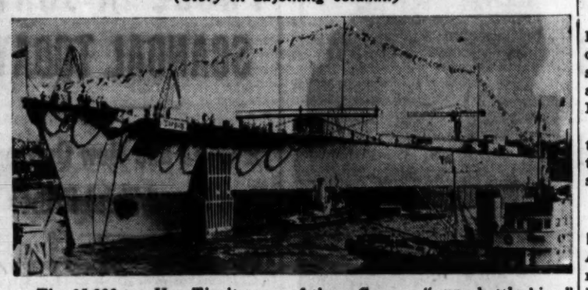
German laymen boast of the strength of the new explosive in torpedoes and mines, but experts are reticent. The dilemma of chemists now is how to produce a more powerful explosive without endangering the safety of ships carrying superdestructive weapons.

Germans assert that the lack of new imports of raw materials needed to manufacture explosives no longer is a problem for them because their chemists have succeeded in manufacturing substitutes from materials available in Germany.

Chemists say it is possible to manufacture excellent powder and explosives by using the ordinary chemical process in which wood pulp is made into paper. Germans claim they can use coal as a base for the manufacture of powder but they must use an extremely complicated process for this purpose.

## New German "Superbattleship"

(Story in adjoining column.)



The 35,000 ton Von Tirpitz, one of three German "superbattleships" under construction at German shipyards. Officials believe the ships will be launched within a few months and will be a challenge to British naval supremacy.

## Frenchmen in Nicaragua Ordered Home by Consul

MANAGUA, Nicaragua, Jan. 14.—French citizens of military age living in Nicaragua are embarking for France at the request of the French consul.

## NORWEGIAN SHIP IS SUNK BY MINE IN NORTH SEA

OSLO, Norway, Jan. 14 (AP).—The landing of five survivors today disclosed that the 1,150 ton Norwegian steamer Fredville sank after striking a mine in the North sea on Thursday. Eleven persons were missing.

A German steamer, believed to be the 6,418 ton Trautenfels, was in distress today off Folla Fjord in a heavy sea.

**Collision Sinks British Ship.**

LONDON, Jan. 14 (AP).—A Reuters [British news agency] dispatch from Amsterdam said the 409 ton British motorship Hullgate sank near Flushing today after a collision with the British freighter Moyle.

Loss of the British steamer Atlantic Scout, 4,575 tons, also was reported tonight. The Atlantic Scout's crew, who arrived ashore, said their ship went aground off the French coast six days ago. The ship was beached on a sandbank, they said, but finally slipped off and sank.

## New Envoy of Panama Starts for Washington

PANAMA CITY, Jan. 14.—Dr. Jorge Eduardo Boyd, Panama's newly appointed ambassador to the United States, left by airplane today, bound for California, to join his family. He plans to motor to Washington, D. C., to present his credentials to President Roosevelt. Boyd is a brother of President Augusto S. Boyd, former ambassador to Washington.

## Norway Sets Up Council to Run Medical Services

OSLO, Norway, Jan. 14 (AP).—Establishment of a national council to administrate all hospitals and coördinate Norway's medical services in event of "extraordinary conditions" was announced today. A further preparedness measure was a decision to register all women for voluntary work if men should be called to the colors.

# GARAGE OWNER'S WIDOW APPEALS FOR WITNESSES

## Hopes to Aid Solution of Slaying by Goons.

### Murder Background

**THE CRIME**—Marinus Hvid, a garage owner, was beaten fatally by labor sluggers 19 days ago. No clew to the identity of the slayers has been found.

**THE RECORD** — Hvid's murder was the 32d labor slaying in Chicago in the last nine years. There has been a conviction in only one case.

Mrs. Dagmar Hvid, whose husband was beaten to death by two labor goons 19 days ago, appealed yesterday for witness to the killing to make themselves known.

Mrs. Dagmar Hvid.

Her husband was Marinus Hvid, north side garage owner, whose place had been picketed by the Auto Livery Chauffeurs, Taxicab Drivers, and Garage Helpers union since a few days after Hvid was expelled by the Affiliated Garages of Chicago, an owners' organization. He was slugged with baseball bats in front of 655 Buckingham place on Dec. 27.

**Secrecy Is Promised.**

Mrs. Hvid asked that the witnesses report either to her or to Capt. Patrick O'Connell of the Town Hall police. She said relatives had advised her to leave the city and forget the murder. She asserted, however, that she will stay here until the case is solved.

"If this case is solved," she said, "I will be satisfied that my husband did not give up his life in vain in fighting the racketeers. If my husband's murder prevents similar slayings, then I will know that he was right in his fight."

Capt. O'Connell asserted that if such a witness will come to him the police will keep his identity secret. The hunt for the slayers has been handicapped because no person has been found who saw the two men who slugged the garage owner. Capt. O'Connell said he is satisfied there is some such person.

**Witnesses Essential, He Says.**

"Several labor sluggers, whom we suspect may be involved in the case, are being investigated, but it is essential that we have a witness to identify them," he said.

Meanwhile, the grand jury will resume its inquiry into the killing today. The jurors are expected to study an alleged agreement between the garage owners' organization and the union, which is an affiliate of the American Federation of Labor.

Assistant State's Attorney William Crawford and Capt. O'Connell said they have evidence to show a close working agreement between the union and the owners' organization.

**KILLS HIMSELF IN HOME.**

Frank Smrs, 35 years old, 1447 West 17th street, committed suicide yesterday by slashing his throat with a razor in his home.

## Romances in Air

MRS. STEPHEN HAWES.

[TRIBUNE Photos.]
LEAH GILBRIDE.

Two romances along the airways were disclosed yesterday with announcements of the marriage of one air line stewardess and the coming marriage of another.

The bride is the former Miss Betty Seay, former TWA hostess. She was married to Pilot Stephen Hawes, according to the company's Chicago office. They first met on the western division of the line's coast to coast route. She is a native of Indianapolis. They will make their home in Glendale, Cal.

The bride-to-be is Miss Leah Gilbride of 6139 Kenwood avenue, a United Air Lines stewardess since March, 1938. She will be married to Raymond J. Keough in St. Edmund's church, Oak Park, today. He is a Chicago radio engineer.

## 50 YEARS' WORK AHEAD OF CCC, REPORT STATES

Washington, D. C., Jan. 14 (AP).—The Civilian Conservation corps reported to President Roosevelt today that it has in prospect enough public work to justify its existence until the year 1990. [Unless congress renews it, life of the CCC will expire on June 30, 1943.]

Robert Fechner, who directed the CCC from its inception in 1933 until his death last month, prepared the annual report. He said that a continued CCC is necessary because prospective increases in private employment will not be sufficient to absorb all the idle youth of the country.

James J. McEntee, acting director, in transmitting the report to the White House, said: "A survey conducted during the year indicates that work projects already suggested by federal and state departments would keep a CCC of 1,500 camps busy for 30 to 50 years."

# COURTNEY OPENS PROBE IN JURY SCANDAL TODAY

## 12 Will Face New Quiz on Vote Fraud Trial Bribes.

State's Attorney Courtney returned to Chicago yesterday to begin a general investigation of an alleged jury fixing plot said to have been engineered by Capone gangsters who still operate as "the syndicate." Ten persons have been implicated in the plot, according to Courtney's assistants. The matter came to light thru the acquittal Dec. 20 of two defendants in a vote fraud trial.

Courtney cut short a vacation in Florida on receipt of a telephone report of confessions in the bribing of two of the jurors who acquitted the two defendants, Sam Orlando, Democratic precinct captain of the 52d precinct of the 11th ward, and Joseph Vinci, assistant precinct captain.

Wilbert F. Crowley, first assistant state's attorney, said Marvin Olson, an ex-convict who admitted arranging the bribery, said he was told that "the syndicate" was interested in the vote fraud trial. Crowley said that one of the Orlando-Vinci jurors had served on a handbook trial jury which also voted an acquittal.

**General Plot Reported.**

Other assistants reported to Courtney that the bribery in the Orlando-Vinci case appeared to be part of a general program to bribe juries in a number of future vote fraud and gambling trials. Crowley said he did not wish to make a statement at this time regarding the extent of the operations of the plotters, but he regarded the revelations as important enough to bring Courtney back from Florida.

"We want to strike every possible blow at the Capone syndicate," Courtney said. "We'll stop them before they get very far."

Courtney and Crowley arranged for a conference this morning with the lawyers who have been handling the vote fraud and gambling cases. The bribery confessions regarding the one trial are to go before the grand jury today and for several days to come.

**Jury Faces New Quiz.**

All members of the jury are to be questioned again, Crowley said, and will be taken before the grand jury. Several have been questioned privately and one juror, Mrs. Mary C. White, 7607 South Honore street, was given a lie detector test. Her husband, Park Policeman Robert White, also was questioned. Both were told to report to the prosecutor's office today.

The jurors named by Olson were Mrs. Lillian Conners, 51, of 7833 Evans avenue, and Mrs. Martha Aumond, 36, of 6234 Blackstone avenue. The prosecutors said Mrs. Conners admitted having received a bribe. Mrs. Aumond denied receiving any money.

## Rapist Drags Woman Under a Porch and Attacks Her

A young married woman was raped by a Negro last night in the 1500 block in Grenshaw street. The victim, who is 21 years old, was on her way home from a movie when the rapist seized her and dragged her under a porch. She was taken to the County hospital. Maxwell street police said he probably is the Negro who raped another white woman in the 1100 block in Washburne avenue on Jan. 5.

## TROOPER FREED BY JURY IN FATAL SHOOTING OF GIRL

Mauch Chunk, Pa., Jan. 14 (AP).—Benjamin Franklin, suspended state police corporal, was acquitted today of murder and manslaughter charges in the fatal shooting last June 5 of Joan Stevens, 14 year old Nesquehoning school girl.

Franklin stood with his attorneys as the verdict was announced. John Stevens, father of the slain girl, was in the courtroom, but his wife, who collapsed yesterday in the closing hours of the trial, was not present.

The husky, 30 year old trooper pleaded self-defense contending he shot the slender daughter of a mine worker when she threatened him and a subordinate with what looked like an automatic pistol, but turned out to be a toy. Eight bullets pierced her body.

Franklin testified the shooting took place in a police car moving slowly along a darkened street in the girl's home town.

The troopers were questioning the girl concerning a bank robbery plot, about which they said she had volunteered information.

## Mrs. Lyon, Widow of Music Dealer, Breaks Hip in Fall

Mrs. Emily S. Lyon, 89 years old, widow of George W. Lyon, founder of Lyon & Healy, Inc., musical instrument dealers, incurred a broken hip yesterday in a fall in her apartment at 5100 Cornell avenue. She was taken to Jackson Park hospital. Mrs. Lyon has been a Chicago resident since before the great fire of 1871.

## DEAF MUTE GIVES HIMSELF UP AS A PAL OF PRISONER

Into the Central station yesterday walked Charles R. Anderson, 35 years old, of 58 West Ontario street, a deaf mute. Why, he wanted to know, was his good friend, Harry Luft, locked up?

He wrote the question on a sheet of paper. Detective Ben Bazarek wrote back that Luft, who is 36, and lives in a South Wabash avenue hotel, was being held because he tried to pass a bogus check for $48 on a loop store.

Then Anderson wrote another note. Two minutes later he was locked up in a cell next to Luft. This is what he wrote: "If Luft is locked up for passing bum checks, I ought to be locked up, too, because I helped him."

# BOOKIES GIVE UP; DECIDE TO CLOSE 900 SHOPS TODAY

## Word Gets Around That the Heat Is On.

BY JAMES DOHERTY.

Gloom pervaded the loop yesterday as bookmakers met to discuss the outlook for their industry. Word came from their meeting that they would not be open for business today.

The bookies admitted that United States Attorney William J. Campbell has them down and almost out, that State's Attorney Courtney has deprived them of their telephones, and that the police have made life miserable for them. It was so, too, in other cities, according to telegraph reports.

Additional pressure was reported to have been put on the books Saturday by Police Commissioner Allman, who, however, would not admit it. Allman's version is that the police have always been under orders to suppress horse race betting in the city.

**Decides to Police Itself.**

But whatever Allman's order, the industry decided to police itself, a bookie remarked. Late Saturday the leading takers of horse race bets had got together in the loop, and before morning every corner newsboy knew that a decision hung in the balance regarding the resumption of the bookie business today. If the books are closed, the newsboys and cigar store clerks take bets and pass them on to some one "in the racket," a news vender explained.

Yesterday it was said some of the bigger dealers in race bets would attempt to operate "sneak joints"—places used by them when their main betting parlors are closed. But the understanding was that nearly all would just lock their doors and send their employés to the movies.

**A Depressing Effect.**

Explanations given were to the effect that the federal grand jury investigations of gambling and gamblers' incomes had at least a depressing effect on the business. The political situation—primary approaching, slate making now under way—has a bearing, and the attitude of the police was said to be convincing that the future is dark indeed for the gambling fraternity.

The first blow against the racket was delivered by United States Prosecutor Campbell.

Campbell's drive, authorized by United States Attorney General Murphy, was and is against the interstate transmission of racing news, commonly called racing service. Under prosecution by Campbell in Chicago, M. L. Annenberg liquidated his Nationwide News service, which had supplied the bookies with all the information they needed to do business. This left the race betting business flat as a pancake.

**Network Suspends.**

The Nationwide had operated a network of leased wires which brought an up-to-the-second broadcast from every race track in the country into the parlors of 99 per cent of all betting agents in the country. Annenberg's withdrawal supposedly left these service arteries without a heart to supply them. But Prosecutor Campbell did not accept this supposition as true. He sent Samuel Klaus, special assistant attorney general, to California, and then into Ohio, to investigate.

Until Saturday, Chicago's 900 handbooks kept going, and the police raided a dozen or so of them every day. Court prosecutions were at the rate of two trials a week before jurors, with not guilty verdicts usually following.

**Descriptions Delayed.**

The books were giving some kind of service—relayed descriptions of the races several minutes late. They were using the names of horses, not numbers, because "Campbell said the use of numbers makes the racket a lottery." Most had lost their telephones and they were limping along, hoping for better days to come.

From other cities came reports that the shutdown of Annenberg's service has not closed the bookies down. For instance, in Los Angeles, reduction in use of communication facilities for transmitting horse race results to bookmakers is hampering but not as yet halting bookmaking activities.

New York's bookmakers have been inconvenienced, but not seriously so.

Since the service was abolished, bookmakers in the New York metropolitan area have turned to the radio. Two stations are on the air thruout the afternoon broadcasting scratches, post positions, starting times, results, prices and other data.

The radio service is operated under the sponsorship of two widely circulated scratch sheets, which benefit from the advertising they get over the air.

In addition, there are also a number of bookmakers who are obtaining a "flash" service, which appears to operate in the same manner as did Nationwide.

**Indianapolis Attempt Ends.**

In Indianapolis, seven or eight former Annenberg employés from Chicago, headed by John J. Gorman, former manager of Nationwide, tried to set up a new national headquarters there, according to County Prosecutor David Lewis. The arrival of Klaus, Prosecutor Campbell's assistant, ended the attempt.

In Cleveland, the big bookie joints and payoff places were crippled for about 10 days in November, during which time they used the Teleflash News service, which had been used previously only by small-timers. After 10 days, however, the same service they had been getting from Nationwide was restored.

In Cincinnati, service to handbooks was disrupted only a few hours when Annenberg quit. For many years the manager of the Annenberg service there was R. C. Cullen. He quickly formed a new service company, getting his information until recently from Cleveland. His headquarters was raided a few days ago and now he is operating from some secret place, but he is able to disseminate some kind of race news to the books.

*INGRED BERGMAN.*

New York, Jan. 14 [Special].—Ingred Bergman, Swedish film star will leave this week for Hollywood to make another film. Miss Bergman, who arrived here from Stockholm Friday night on the Rex, made her American debut in "Intermezzo, a Love Story," opposite Leslie Howard. She also starred in the Swedish version of the same film. It is expected that she will next appear in a production of Joan of Arc.

# ENGINEERS URGE BIG PROGRAM ON FLOOD CONTROL

Washington, D. C., Jan. 14 (AP).—Army engineers reported to congress today that $401,444,660 could be "profitably expended" in the next fiscal 12 months on flood control and rivers and harbors. The total more than doubled President Roosevelt's budget recommendation.

Maj. Gen. J. L. Schley.

For more than 150 dams, dikes, reservoirs, levees, and other flood control works in scattered sections—mostly New England and New York state, and the Mississippi and Ohio valleys—Maj. Gen. Julian L. Schley, the chief of engineers, recommended a total outlay of $258,666,000.

Largest of the recommended new flood control expenditures was $63,334,740 for 35 levees systems, reservoirs, and other works in the Ohio river basin.

For the Mississippi and its tributaries, Schley projected a specific outlay of $50,000,000 plus $800,000 for emergency work on the tributaries.

## Congress on Industrial Health to Open Today

## THROUGH TIME'S TELESCOPE

*By CALEB*

LOOKING backward is always an adventure in diminution. Ten, twenty, years from now, problems that today loom big will seem very small. We will smile and say, "Why did we make such a fuss?" And perhaps it was because of this advantage which years bring to age—perspective—that a certain old man inscribed above his fireplace: *I have lived long and had many troubles; but the worst were those that never happened.*

In the minimizing vista from which we can view them today, the worries and wants, the difficulties and solutions, of early Chicago remain faintly amusing—but not, as they were then, important. / And how hard it is to appraise fairly their doll-like dimensions!

To realize, for example, that Chicago's original boundaries were the Chicago River, Lake Michigan, Madison Street, and State Street! That there was no harbor—that vessels anchored in the open lake—that Detroit was distant six days' travel by road. That the house of a Frenchman with an Indian wife was the only stopping-place between Chicago and Michigan City. That a few stores, a butcher-shop, and some taverns comprised the city's "business section." That watermen had their routes then, as milkmen do today, selling Lake water from hogsheads mounted on two-wheeled carts, at ten cents the barrel.

Or that one of the town's first financial obligations, in January, 1834, was for $60—to drain State Street—the loan being secured in the street's name. Or that the first hotel, the Tremont House, on the northeast corner of Lake and Dearborn, was erected in that year—a two-story structure of 20 by 30 feet, painted yellow. Or that that was the year the last bear was shot in Chicago—in the woods where La Salle and Adams now intersect. Or that a hundred years ago wild deer were still seen in the streets—and wolves skulked ominously in the clearings.

Also long ago, yet "no time at all," occurred the official laying out of State Street on June 17, 1839. Act of the Illinois Legislature made it sixty feet wide from Madison to the river—and not until Potter Palmer quietly gave the street twenty-seven additional feet from his own holdings, around 1870, did it acquire its present width. "Potter Palmer's generosity made State Street what it is today," wrote John J. Flinn in 1891, "for if it had not been widened, the retail business would have sought an avenue not far away."

Curious episodes now—even facts forgotten—to that day and generation there were matters of major moment. Our view is through a telescope in reverse. But the Chicagoans of a century ago saw them through Time's eyepiece . . . and fortunate it is for us of 1940 that they did.

# REOPEN BATTLE OVER CONTROL OF G. O. P. FUNDS

## Blackett Acts for Bigger Voice in War Chest.

Springfield, Ill., Dec. 14 [Special.]—At the instance of Hill Blackett, national committeeman elect, the Republican state committee, in session here today, took steps to reopen with the national committee the subject of the collection of party funds in Illinois.

Following a Chicago conference on Nov. 8, at which Congressman Everett M. Dirksen presided in the absence of National Committee Chairman John Hamilton, who was ill, Blackett, Hamilton, National Treasurer C. B. Goodspeed and State Chairman A. K. Stiles signed an agreement whereby the raising of funds for national purposes would be left to the national committee, and Blackett, by authority of the state committee, would raise all state funds.

**Brands Arrangement Unfair.**

Blackett charged today that this arrangement is unfair to Illinois because it fails to provide for the re-allocation to Illinois of a percentage of the funds raised in the state for national purposes. The state committee voted to send a subcommittee to the scheduled meeting of the national committee on Feb. 16 to take up the subject.

The state body also authorized the holding of a Washington day dinner in Chicago on Feb. 22 to raise state funds. Tickets will be $10 each. Chairman Stiles was directed to name a committee to gather platform material for the consideration of the state convention next spring. Stiles said he will name between 50 and 100 persons on the committee.

**2% Collections Condemned.**

Resolutions were adopted condemning the Illinoisans, an organization which collects 2 per cent of state employes' salaries for the Democratic state war chest. They charged that the collections are made illegally and by coercion and demanded that Gov. Henry Horner and the general assembly conduct a nonpartisan investigation to determine the extent of the illegal acts.

## *Hugh W. Cross to Address Evanston G. O. P. Women*

Hugh W. Cross, speaker of the Illinois house of representatives, will address members of the Woman's Republican club of Evanston in the Orrington hotel, Evanston, today. His talk will be on legislative trends. He is a Republican candidate for lieutenant governor. Mrs. Wallace Patterson is president of the Woman's club.

# YOUNG REPUBLICANS OUST MAURICE COWEN AS ILLINOIS CHIEFTAIN

Springfield, Ill., Jan. 14 (AP).—The board of governors of the Young Republican organization of Illinois ousted Maurice L. Cowen of Chicago from the presidency today and installed Clarence Willard, 33 year old village attorney of Oak Park, to fill the unexpired term.

Clarence Willard.

In a stormy session in which Cowen spoke in his own defense, the board voted 33 to 1 to depose him on charges of "causing friction" and failing to coöperate with other organization leaders.

The only vote against the ouster was cast by Thomas Downs of Chicago, who appealed for harmony. Harold Walsh Jr. of Bloomington said the removal proceedings would "have a bad reaction on the party," but voted for the ouster.

# *GLENN DROPS OUT OF REPUBLICAN RACE FOR SENATE*

## *Shakeup Threatened in State Alignments.*

[Continued from first page.]

La Salle county, and over the telephone said:

"The step taken by former Senator Glenn will help to bring about a harmonious primary campaign. It undoubtedly was prompted by patriotic motives."

Green, in response to a request for comment, issued this statement: "It is with sincere regret that I note that Otis F. Glenn has withdrawn from the race as a candidate for the Republican nomination for United States senator.

"During a previous term in the senate, Glenn served this state in an outstanding manner. I am confident that if he had continued in the race and had been successful he would have served this state well, as only a great statesman can."

In Washington, D. C., Congressman Church said that the withdrawal would not affect the situation in any way as far as he is concerned.

**VOTE ON WATER SYSTEM.**

Vermont, Ill., Jan. 14 [Special].—Voters will decide at a special election on Feb. 7 whether to spend $67,000 as the city's share for a new water system. The federal government would contribute $179,347.

# HORNER CONFERS WITH KELLY, BUT NOT ON STELLE

## Talk 4 Hours, Then Issue Joint Statement.

*(Picture on back page.)*

Gov. Horner visited Mayor Kelly for four hours last night. At the end of this long conference a statement authorized by both leaders was issued, declaring that they had not discussed the replacement of any present office holder on the Democratic state ticket.

The governor and the mayor agreed that they will not let themselves be cast in the rôle of party dictators. Slate making will be conducted by the Democratic state central committee, they promised. Another conference between Horner and Kelly will be held after the mayor returns to Chicago from Florida about the end of this month.

**Stelle Problem Unsettled.**

Foremost among the unsettled problems of slate making is that of Lieut. Gov. John Stelle, who has been on bad terms with Horner and on good terms with the mayor.

Stelle has not seen the governor in six months. An appointment Stelle had with Horner for Saturday was broken by the governor, reportedly because party leaders believed harmony would have a better chance after the Horner-Kelly talk.

Stelle has let it be known that he proposes to run for renomination unless Horner decides against seeking a third term. Should the governor drop out of the race, the lieutenant governor will try for top spot on the ticket himself, he has told friends.

Associates of Horner have tossed in the names of State Treasurer Louie E. Lewis, Congressman at Large John C. Martin, and State Chairman Harry Hershey as possibilities to replace Stelle. However, it is entirely possible that the only change in the slate will be that Lewis, who cannot succeed himself as treasurer, might switch places with Congressman Martin.

**First Visit in Months.**

It was the governor's first visit to Chicago in several months. He arrived yesterday on the Alton's "Abraham Lincoln." Altho he has not entirely recovered his health since his long illness following the 1938 election, he was bright and cheerful when he greeted photographers and a few friends at the Union station.

The first stop was at the home of his Chicago physician, Dr. Maurice Rubel, with whom he spent an hour and a half. Then the governor went to Mayor Kelly's home with Charles K. Schwartz, chairman of the state tax commission, who had arranged the conference.

Schwartz issued the following statement with the approval of both principals:

"The governor called on the mayor socially for the purpose of talking over legislative matters and the general good of the Democratic party. He was invited and stayed to supper.

**Controversies Shunned, They Say.**

"There was nothing controversial and no names were mentioned as possible new candidates. They will meet again in 10 days after the mayor returns to the city. [Mr. Kelly will leave for Florida Wednesday.]

"Neither the governor nor the mayor will endeavor to dictate any slate or [attempt] individually to run the party. Their thought is that the state committee should make every effort to select a ticket worthy of the Democratic party. Both gentlemen will abide by the result of the thought coming from the analytical minds of the party. In other words, both indicated they were for the good of the general public welfare."

The governor was accompanied on the trip from Springfield by his traveling secretary, John T. Casey, and his statehouse secretary, Arthur P. O'Brien. Before returning to the capital late this afternoon Horner expected to call on Dewitt C. Billman, executive secretary of the legislative reference bureau, who has been ill in Passavant hospital for several months.

## *Blazing Gas Well Pushes Geyser 100 Feet Into Air*

*(Picture on back page.)*

Los Angeles, Cal., Jan. 14 [Special].—Still pushing a flaming geyser 100 feet into the air, a blazing gas well on the A. S. Gough lease of the Ohio Oil company, near El Segundo, today continued to defy efforts of engineers to extinguish it. The well burst into flames yesterday when escaping gas apparently ignited by friction and static electricity, caused an explosion. Within half an hour the 125 foot derrick fell to the ground when the flames melted the base of the steel tower. The roar of the fire can be heard for miles.

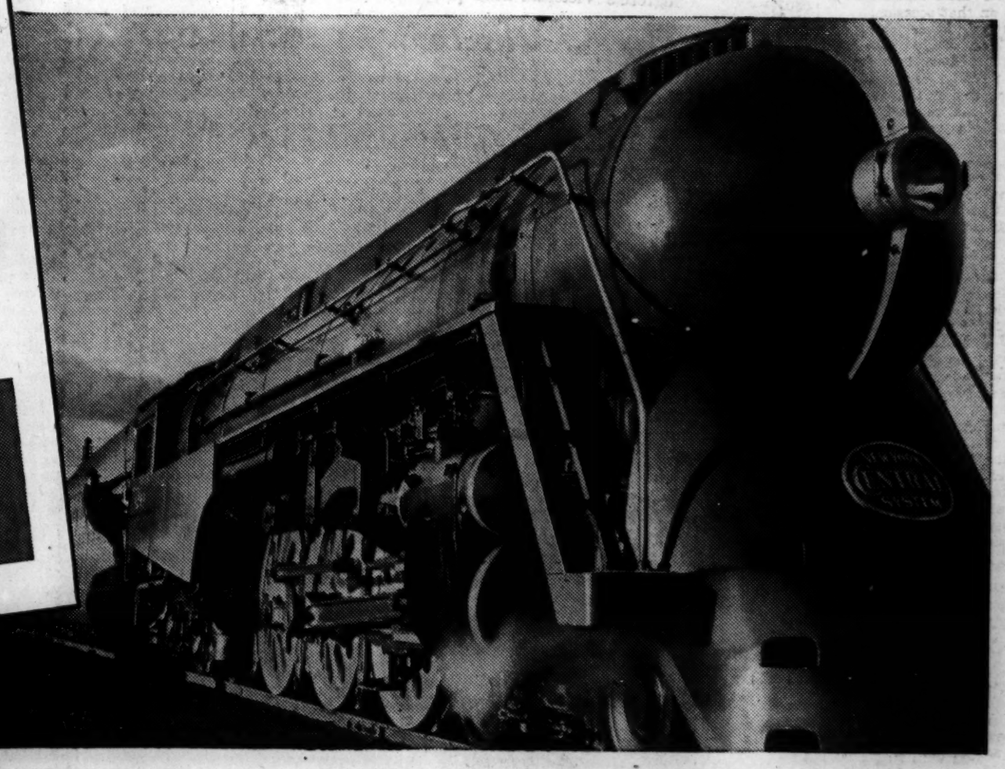
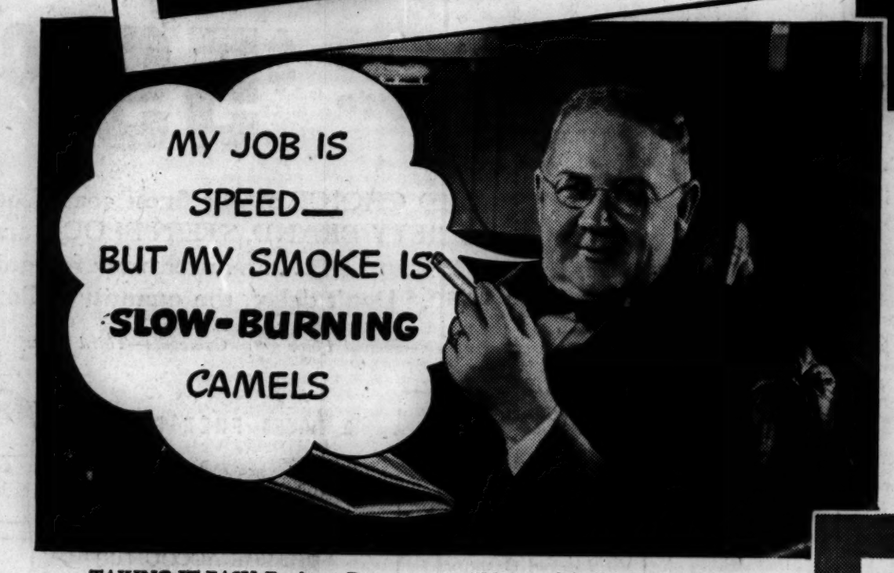
HE PILOTS THE FAST-STEPPING "CENTURY"
but he smokes a slow-burning cigarette for
EXTRA MILDNESS
EXTRA COOLNESS
EXTRA FLAVOR





THE *CENTURY* READY TO "HIGHBALL," as they say in railroading! Engineer Walter L. Bronson (*above*) swings up into the cab of Number 5449, one of the big Hudson type locomotives which flash at 80 miles an hour across the landscape between New York and Chicago in a day-in, day-out epic of modern railroad speed.

TAKING IT EASY, Engineer Bronson says: "No speed for me in my cigarette. That slower-burning feature makes sense to me. I've been a Camel smoker for years. I know Camels are milder and always taste swell. And—on the side—I don't object a bit to getting those extra smokes per pack."

HERE'S EXTRA MILDNESS, EXTRA COOLNESS, AND EXTRA FLAVOR, and here's *why:* Camels are slower-burning. They have thoroughbred quality through and through. Finer, more expensive tobaccos are used, in the first place. And these choice quality tobaccos are combined into a matchless blend. Next time you smoke a Camel, notice how slowly it burns. For that is your clue to true cigarette enjoyment—the "extras" of mildness, coolness, flavor—*and*—extra smoking in every cigarette. Camels burned 25% slower than any other cigarette in recent tests (*full details at right*). You'll always rejoice over the day you switched to Camels!

FAST BURNING—creates hot flat taste in smoke... ruins delicate flavor, aroma...
SLOW BURNING—protects natural qualities that mean *mildness, thrilling taste, fragrance* . . . a cooler smoke...

In recent laboratory tests, CAMELS burned 25% *slower* than the average of the 15 other of the largest-selling brands tested—slower than *any* of them. That means, on the average, a smoking *plus* equal to

# DISPEL DOUBTS THAT PRESIDENT WANTS 3D TERM

## Booms by Aids in Cabinet Cited as Proof.

BY ARTHUR SEARS HENNING.
[Chicago Tribune Press Service.]

Washington, D. C., Jan. 14.—Events of the last week have convinced official Washington that President Roosevelt is a "receptive" candidate for a third term. It is no longer believed that he will wave the crown aside.

Most of the politicians needed no further evidence than was afforded by the Jackson day dinner speeches last Monday night. On that occasion three members of his administration, all enjoying his confidence to an unusual degree—Secretary of Agriculture Henry A. Wallace, Attorney General Designate Robert H. Jackson, and Federal Security Administrator Paul V. McNutt—boomed Mr. Roosevelt for a third term in their respective speeches at Des Moines, Ia.; Cleveland, O., and Raleigh, N. C.

**Not Forbidden, It Appears.**

This teamwork was all that Washington needed to prove that this official administration promotion of the third term movement not only had not been forbidden by the President but was known by its authors to be pleasing to their chief.

Further corroborative evidence was forthcoming from Mr. Roosevelt's concurrent speech at the Washington

Henry Wallace. Paul McNutt. Robert Jackson.

dinner. He wooed the conservative Democrats whom a year ago he sought to read out of the party. He coyly assured his party that so far from being overburdened by the responsibilities of his office he is having a lot of fun.

He suggested that no Democrat can be elected President unless he commands the independent vote and reminded his audience that the 1936 election had demonstrated his preeminent capacity to do that thing.

**No Rebukes Now.**

The White House rebuked Secretary Wallace for boosting the President for a third term last fall while the political truce declared by Mr. Roosevelt was in effect, but the White House stated following the Jackson day dinners that there was no reason to criticize Messrs. Wallace, Jackson, and McNutt for their references to the President on that occasion.

A few days later former Congressman Charles West of Ohio, who used to be the White House lobbyist on Capitol Hill, called on the President to get his consent to the entering of Roosevelt's name in the Ohio primary. Under Ohio law a candidate for President must have consent of the latter in writing.

Mr. Roosevelt would not give his consent, not, however, it appears, because he declines a third term, but because he thinks it too early for him to commit himself on the question of seeking to succeed himself.

On Friday the first formal official move for the renomination of the President took place without remonstrance from Mr. Roosevelt. Rudolph G. Cartier filed his candidacy in the New Hampshire presidential primary for election as a delegate to the Democratic national convention committed to a third term for Mr. Roosevelt.

These events are being interpreted in the light of the word that went forth from the White House on the eve of the Jackson day dinners, which was that Robert Jackson, who had just conferred at length with the President, would sound the keynote of the third term strategy.

**Considered Practical Politics.**

This keynote, it developed in Jackson's speech, was not only a call to the President to stand for renomination but a plea that under no circumstances should he remove himself at this time from consideration. That the President himself dictated this line of procedure is doubted by few.

The President's Fabian tactics are good, practical politics, according to the politicians. He is essaying to run for a third term despite the unwritten law limiting the presidential tenure to eight years and despite the impressive popular prejudice against departure from that tradition. In addition there is the lack of any impressive or spectacular popular demand for an exception to the rule in the case of Mr. Roosevelt.

His own cabinet is divided on the question. The third term movement is being promoted by Secretary of the Interior Harold L. Ickes, Secretary of Commerce Harry L. Hopkins, Secretary of the Navy Charles Edison, Secretary of the Treasury Henry Morgenthau Jr., and Attorney General Frank Murphy. Holding themselves aloof are Secretary of State Cordell Hull, Secretary of War Harry H. Woodring, and Postmaster General J. A. Farley.

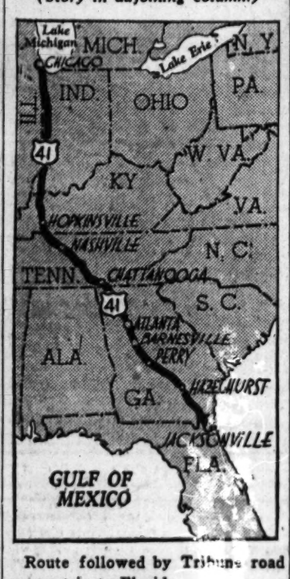
Outside of Washington the principal third term boosters are Gov. Henry Horner of Illinois, Mayor Kelly of Chicago, and Mayor Frank Hague of Jersey City, who is the Democratic boss of New Jersey.

What is worrying the third term boosters most at the moment is the lack of a popular demand for the continuance of the President in office. Conspicuously lacking are resolutions by Democratic legislatures, Democratic clubs, committees and other organizations.

But the third term boosters have not given up hope. The war may yet produce a crisis which could be used as an argument for keeping Mr. Roosevelt in office.

**Route to Florida**

*(Story in adjoining column.)*



Route followed by Tribune road car on trip to Florida.

# FLORIDA BECKONS AND TRIBUNE CAR GOES SOUTHWARD

## Speeds Thru Bad Weather to Warmer Clime.

BY HAL FOUST.
[Chicago Tribune Press Service.]

Jacksonville, Fla., Jan. 14.—The Tribune road car was driven here from Chicago this week-end, its driver becoming one of the two million motorists wheeling to Florida this winter. The entire route—1,108 miles long—was blanketed with disagreeable weather, and the journey was made in 58 elapsed hours without pause to appreciate other parts of the country.

Snow flurries whirled thru headlight beams, leaving a slippery film on the concrete, as we drove south Thursday night on route 41 in Indiana. A bleak Friday thru southern Indiana and Kentucky ended with a foggy night in Nashville, Tenn. Dark clouds scurrying across the skies of southeastern Tennessee turned into a drizzling rain and fog for a Saturday afternoon and night drive across Georgia.

**No Time for the Caves.**

Spurred by the usual impatience of Florida bound tourists, we took no time in Kentucky to see any of the spacious caves where stalagmites and stalactites in a variety of shapes and colors, the products of eons of evaporation, call attention to the patience of nature and the brevity of life.

The hurrying tourist, if he gave any thought to those monuments to the immensity of time, might surmise that they have an undesirable influence on the Kentucky highway department. Route 41 in the hundred miles or so across the state has been under reconstruction for 10 years and still has slow and dangerous sections.

In Tennessee, rushing to get farther south, no time could be spared to read inscriptions on monuments and on tablets marking battle grounds of the civil war. Georgia was crossed in the same manner, with the battle grounds of "Gone with the Wind" receiving little attention.

**Rewarded by 68 Degree Breeze.**

With all of this hurry, we were able to reach this city early today and to awaken shortly before noon with a 68 degree breeze puffing into the hotel room.

The route followed was the one recommended by the Chicago Motor club as the shortest and quickest, not necessarily the most pleasant, informative or interesting. It was route 41 for the entire distance from Chicago to Barnesville, Ga., using the route 41-W optional between Hopkinsville, Ky., and Nashville, Tenn., and Georgia 7, south of Barnesville, to Perry, Ga., by-passing Macon. We took route 341 from Perry to Hazelhurst, thence a short cut on Georgia 15 to pick up route 1 for the run into Jacksonville.

# TOMORROW LAST DAY FOR COUNTRY TOWNS' REGISTRY

Tomorrow will be the last day for voters in the country towns of Cook county to register with the village or town clerks for the April primary, altho registration in the county clerk's office may be made as late as March 12. There are 528 precincts outside of Chicago in Cook county under County Clerk Michael J. Flynn's election department.

The Chicago board of election commissioners, which controls elections in 3,648 precincts of the city and 200 outside the city, will receive registrations in its office in the city hall up to and including March 11. Before that date, neighborhood registration will be conducted either in polling places or fire stations, at a time not yet determined.

Cards showing changes of address of registered voters may be mailed to the election board or the county clerk.

# G. O. P. TO LAUNCH DRIVE IN LINCOLN DAY CELEBRATION

Washington, D. C., Jan. 14 (AP).—The Republican national committee today announced a partial list of the Lincoln day celebrations to be held Feb. 12. "These will constitute the kickoff in the party's fight to restore to the nation a government based on Americanism, sense, and sound finance," the committee asserted.

The meetings will be held in every state, with as many as half a dozen scheduled in some states. John Hamilton, chairman of the committee, will be the principal speaker at a dinner in New York.

Thomas E. Dewey, New York district attorney, will address the Portland, Ore., dinner. Senator Arthur H. Vandenberg of Michigan will speak at St. Paul, Minn., Feb. 10, and will be master of ceremonies at a Grand Rapids, Mich., dinner Feb. 12. Former President Herbert Hoover will speak at Omaha, Neb.

## GEORGE WASHINGTON SAID:

"Europe has a set of primary interests which to us have none or a very remote relation. Hence she must be engaged in frequent controversies, the causes of which are essentially foreign to our concerns. Hence, therefore, it must be unwise in us to implicate ourselves by artificial ties in the ordinary vicissitudes of her politics or the ordinary combinations and collisions of her friendships or enmities."—From the Farewell Address.

## MR. MURPHY'S APOLOGIA.

On Jan. 4 THE TRIBUNE published an editorial discussing Attorney General Murphy's nomination to the Supreme court. Attention was directed to his conduct as governor of Michigan during the sitdown strikes. He was the chief law enforcement officer of his state, but he did not enforce the law. Because he gave this encouragement to men of violence, the editorial said, he was defeated for reëlection by the people of Michigan; and for the same reason he was selected by Mr. Roosevelt to be first his attorney general and then a justice of the Supreme court.

A reader has written us to say that the editorial was unfair to Mr. Murphy and for our enlightenment incloses a transcript of Mr. Murphy's testimony a year ago when the senate was considering his nomination to the attorney generalship. The pamphlet contains a dozen pages, much of it in small type. Mr. Murphy submitted, among other things, commendatory letters from President Roosevelt, Felix Frankfurter, and Newton Baker on the occasion of the conclusion of the General Motors strike. Excerpts in a similar vein from a number of newspapers are included in the record. This material, however, bears only indirectly on the points at issue.

Mr. Murphy's apologia begins with the statement that the General Motors strike had started at Flint on Dec. 30, 1936, two days before he took office. He stresses this point, perhaps to suggest the inference that if he had been in office at the time the open break never would have come, but it is at least equally probable that the leaders of the strike had made an appraisal of Mr. Murphy's character, knew his political leanings and associations, and correctly foresaw that he would be no lion in upholding the law. They may well have chosen the eve of his inauguration as a most propitious moment for opening their campaign of lawlessness.

Mr. Murphy went on to say that the strikers were "peaceful, law abiding, hard working citizens." Of course, he added, their conduct was "unlawful and unjustified," but they thought they were only defending their rights. He did authorize local authorities to swear in additional deputies, he testified; he reinforced them with state police and, in one case, sent a large detachment of the National Guard. He warned the union representatives that he would enforce the law, but, he says, he and they well knew that the literal enforcement of the court's order to the union to clear out of the factories "could not be carried out without the gravest risk of property damage, riot, and even bloodshed which would leave bitterness and ill feeling between the company and the men for years to come."

The essence of the apologia is in the statement, "I conceived it my duty as the governor of the state not only to see that the writs of the courts were executed but also to see that peace and order were maintained." In truth, he did neither.

All thru his argument, Mr. Murphy pretends that the enforcement of the law necessarily would have produced riots and bloodshed, with ensuing ill will and unwholesome labor relations. The assumption is an extravagant one, to say the least. He assumes that his militiamen could have dislodged the strikers only by shooting them down. He did not try the obvious expedient of establishing a blockade against the movement of foodstuffs into the plants. If that had been done the sitdowners would have left of their own accord in a day or two. Instead, the Guardsmen were used to assure a regular supply of food and fuel to the factories. Naturally the illegal occupation continued week after week.

Mr. Murphy gave the senate committee a letter which he had sent to John Lewis and Homer Martin, leaders of the strike. The letter, which had not previously been published, contained a threat that if they did not get their men out of the factories in a hurry force would be used to drive them out. Mr. Murphy naïvely testified that it had not been necessary to make the letter public because "the next day the strike was settled." As soon as the governor showed a trace of backbone the lawless element curled up.

The fears expressed by Mr. Murphy of bad industrial relations which would have resulted from enforcement of the law are difficult to take seriously. What he did not dare do at Flint was done at North Chicago and other places without producing any of the dreadful consequences his imagination had conjured up. In fact, the subsequent record of innumerable stoppages of work in the automobile plants indicates that he did not succeed in promoting good feeling. Rather, he gave encouragement to the irresponsible and communistic elements in the union to which he was and is politically indebted.

The transcript of his testimony plainly shows Mr. Murphy striving to leave the impression that after the strike at Flint sweetness and good temper prevailed thruout his dominions. "I am not saying that later developments were not sometimes disappointing to my hope that industrial peace had been permanently achieved," he confessed with a great show of candor, but he did "feel sure that the sitdown strike has now been thoroly discredited."

Mr. Murphy can take little credit for that. The lawless element had tested him and found him jellyfish. A recent decision of the Interstate Commerce commission, certainly no enemy of the New Deal, contains a succinct account of what was happening in Michigan within a month of the resumption of work at Flint. Says the commission in Chrysler corporation vs. New York Central:

"For several days prior to March 8, 1937, representatives of the United Automobile Workers . . . had been in conference with representatives of the Chrysler corporation for the purpose of negotiating an agreement. Complainant did not immediately accede to the union's demands and the union, between 1:15 and 3 p. m. on March 8, seized the several plants of complainant and locked, barricaded, and guarded the gates. . . .

"This occupation of the plants by the striking employés continued until March 25, altho complainant, within 48 hours after the strike was called, sought and secured a mandatory injunction which directed the strikers to vacate the plants by 9 a. m. on March 17; the strikers refused to comply and on March 19 the court ordered the arrest of those holding the plants. The constituted state authority failed to act under the court's order and on March 25, under an arrangement with the strikers, the Michigan state police took control of the gates and prevented the use of the plants. On April 6 an agreement between complainant and the union was signed, the state police withdrew, and possession of the plants was returned to complainants."

If the sitdown strike is in ill repute today the credit goes not to Mr. Murphy but to other public officials in Michigan and elsewhere, who were not afraid to undertake a sworn duty involving some political risk and did not regard it any less a duty because of the risk. In fact, of course, the officials who had the courage to oppose insurrection have gained in public esteem, while at the first opportunity the people of Michigan expressed their disapproval of Mr. Murphy and the communists he had befriended.

As was noted before, the qualities and associations which discredited him in the eyes of his own people made him a great fellow in Mr. Roosevelt's judgment. He is a nominee to the Supreme bench because he was a conspicuously feeble law enforcement officer.

## NO HAND IN THE WAR AND NO FINGER IN THE PEACE.

Baron Davies, London bank and railroad director and former private secretary to David Lloyd George when war prime minister, writes the Yorkshire Post that inasmuch as America is concerned chiefly about its own safety and its dollar it would be preposterous that it should pretend to leadership in a peace settlement. By what moral right, he asks, does Mr. Roosevelt, who does not lead in the war, try to lead in the peace?

A great many Americans would tell Baron Davies that they don't want leadership of any sort in Europe. Personal ambitions may lead the government to seek it, but American citizens have no use for it. To the declaration that this is not our war they will willingly add the postscript that it is not to be our peace.

Americans have not flattered themselves that their participation in the peace of Versailles did any good to Europe. It seems only to have brought some long lived reproaches on the nation, which tried its hand in European diplomacy to its own regret.

Americans are aware that Mr. Roosevelt, just as Mr. Wilson before him, would like to find an entrance to the peace conference. Mr. Wilson accepted as logical the probability that he couldn't get in on the peace unless he got in on the war. He, therefore, in the end, was not unwilling to get in the war. Mr. Roosevelt's activities for the cause of peace are being watched for symptoms that he also may regard participation in the war as a just price to pay for participation in the peace.

There was altogether too much of America in Europe between 1916 and 1920. There are, even now, too many American nations raising their voices in affairs far from their own shores. Americans have no desire to seek glory again on European battlefields or to spend their money there. Nor have they any desire that any American should seek glory in the peace negotiations.

Lord Beaverbrook, the London publisher, reverts to a previous American experience when he says that Great Britain owes the United States no war debts because this country's money only hired British soldiers to fight this country's war. That was a business experience which we do not care to repeat. We do not want to hire any more British soldiers. We have no work for them to do.

### ALL ABOARD FOR THE SENATE EXPRESS.

[Philadelphia Inquirer.]

The senate is catching up with the times in deciding to streamline the rolling stock of the tiny railroad it operates between its office building and the capitol in Washington, so that the weary solons will not have to endure the exhausting walk of several hundred feet.

Not only is the schedule to be cut from two minutes to one and a half, but the Lilliputian cars are to be made more comfortable by installation of rubber tires.

No one wants to slow the wheels of progress, but has the senate consulted the ICC? For the commission always wants to have a finger in every railroad pie, large or small.

It might be contended that this road is not operated in interstate commerce, but the ICC and numerous other federal agencies have stretched that principle so far that sometimes there seems to be no limit.

The house of representatives has managed to get along without a private railroad, perhaps because its members are younger.

Taxpayers have to put up for the senate railroad, but they have one consolation. The senators don't demand a mileage allowance in addition to put in their pockets. But, perhaps, it's unwise to bring up this subject. They mayn't ever have thought of it.

## A LINE O' TYPE OR TWO

*How to the Line, let the quips fall where they may.*

### SEVEN THEORIES ABOUT "30."

Since the use of "30" for "the end" has spread from newspaper shop-talk to radio programs, as noted last Saturday, we will present various theories that have been advanced to explain the origin of this symbol:

1. When newspaper articles were written by hand and set in type by hand, a period was indicated in the manuscript by an "x," the end of a paragraph by "xx," and the end of the item by "xxx," which looks like the Roman numerals for 30.

2. It came out of India via England. In the Bengali language 80 means "farewell" or "I quit." *[But why?]* An English officer in Calcutta used 80 at the end of a letter to the British East India company, written in 1758. The company published the letter, but a typographical error turned the 80 into 30. *[To this theory we say, in the Bengali language, "Tosh."]*

3. Typesetting machines that cast their type in slug form used to set a maximum length of line known to printers as 30 pica ems, and 30 meant the end of the line. *[Oldtime printers reject this explanation and state that the symbol antedates slug-casting machines by many years.]*

4. During a disaster [not mentioned], information was wired to the newspapers by a telegrapher whose number was 30. He remained at his key until he was drowned, or burned, or blown up, or something. *[This is the inevitable sentimental explanation; we reject it.]*

5. A telegrapher in the wild west, before newspapers had wires into their offices, used to write dispatches in longhand and send them by messenger. His office closed at 3 a. m. and at the bottom of his last sheet he always wrote 3 o'clock, which became corrupted into 3 o'c, 3 o, and 30. *[We doubt it.]*

6. When the Associated Press was established each member was entitled to 30 telegrams every 24 hours. The last message was marked 30.

7. Sparta appointed 30 magistrates to rule over Athens at the close of the Peloponnesian war. They were called the Thirty Tyrants. There was great rejoicing when they were overthrown. *[Nobody will swallow this one.]*

*[Research by Charles W. Harper of the Utica, N. Y., Press; first published in Editor and Publisher, 1932.]*

### *THE HEART STAYS YOUNG.*

If all the self grew old, we would not mind it;
We would not wince when years blanched cheek and hair
And slowed the hand but take age as we find it,
With shawl and cane—and too much time to spare.

Years should fall evenly upon the being.
It is not age by which the breast is wrung
But (strange discrepancy) it is our seeing
The body wither—while the heart stays young.

Adelaide Love.

### A Voice from the Mourners' Bench.

Arthur W. O'Neill lamented [Dec. 27] that the only person of note at the Press Club of Chicago, when it was located above Tom Donnelly's pawnshop, was Wallace Rice. About that time [1913] I returned after a stretch among the towers of Manhattan, and was thrilled by the booming voice of Opie Read, the snores of Stanley Waterloo [whose "Story of Ab" gave me no end of pleasure], and the falsetto of Col. William Lightfoot Visscher declaiming the concluding lines of his "Barbarian Chief":

*Had I been there with fourscore men*
*The Christ would not have died!*

About the same time, or shortly before, one could have met in the Milwaukee Press club: Gen. Charles King, Gen. Douglas MacArthur [the elder], and ex-Gov. George W. Peck, author of "Peck's Bad Boy," who occasionally had as his guest Col. Henry Watterson of Louisville. And down below the club, in Martini's coffee and pastry house, a year or two before, Edna Ferber gathered ideas for "Dawn O'Hara."

If we had a Press club in Chicago today, perhaps one could converse with Carl Sandburg, Lloyd Lewis, Karl Kollinski [can you penetrate the disguise offered as a veil of modesty?] and that monumental work known as Ed Burns. Time marches.

Doc.

### When Chicago Was the "I Will" Girl.

So the old Grant hotel, on the northwest corner of Madison and Dearborn streets, may be razed! Many a small-time player has roosted there, and before that the building was the habitat of the Chicago Inter Ocean. The "I Will" bust, symbolizing Chicago in 1893, was first exhibited in a window on the Madison street side of this corner.

### *THE LINCOLN TOMB.*

*(Springfield, Illinois.)*

Here is a mighty nation's heart,
The Mecca of its pilgrim feet,
In bronze and marble's master art,
Awesome, majestic, silent, sweet!

Men talk in whispers 'round this shrine
As though it were a place of prayer;
For one who was mortal divine,
Time's noblest son, is sleeping there!

The boundless prairies 'round him keep
Eternal vigil, deathless, true,
And stars are sentries o'er his sleep,
In skies and flags of loyal blue!

Frank Earl Herrick.

### The Free Men of 300 Years Ago.

A prevalent three cent postage stamp may have informed you that the year 1939 marked the 300th anniversary of printing in our America, but did you ever wonder what the first printing job was? Well, it was "The Oath of a Free-Man," and altho no copy of the first run exists, its text is fairly well known. It reads in part:

". . . Swear by the great and dreadful name of the Ever-Living God that I will be true and faithful to the same [government] . . . and will also truly endeavor to maintain and preserve all the liberties and privileges thereof. . . . And further, that I will not plot or practise any evil against it. . . . That when I shall be called to give my voice touching any such matter of this State, in which Free-Men are to deal, I will give my voice and suffrage as I shall judge in mine own conscience may best conduce and tend to the public weal. . . ."

This is worth memorizing for repetition on election days.

Our next seminar on the language of journalism will deal with the origin of the term "bulldog edition," if it can be discovered.

### THE TONGUE TELLS A TALE.

IN Proverbs we find mention of a "wholesome tongue." Presumably this reference is to a clean organ, pink to reddish in shade—signifying good health. Most of us are familiar with the dry brown fur or the grayish blotches that may signal "something wrong."

When we realize that the lingual apparatus comes into intimate contact with all liquids and semi-liquids that are swallowed, we have some conception of the punishment it receives. During mastication it is exceedingly active—perhaps equally so in conversation, altho much will depend upon how rapidly the words flow. With certain individuals this region of the body seems never to tire, altho it must be overworked grossly.

Supplied as it is with nerves and muscles, it can move in all directions and this trait may give us real information as to the existence or absence of nervous disease. If paralysis, for example, involves one side it will be protruded toward the affected portion. A tremulous structure, on the other hand, may be merely a sign of nervousness or exhaustion. We observe this now and then among those who overindulge in alcohol or when the thyroid gland is too active.

Then, too, it carries a multitude of taste buds. The delicate cells and nerves of these areas may lose their sensitivity should they become dried or thickly covered. Thus it is that a person may complain that all the dishes on the table taste alike. The power of appreciating the flavor of edibles is lost.

But the purpose of this discussion is to call attention to the significance of a thick fuzz, which is sometimes constant. As a rule most of this material can be scraped away gently and—on examination—is found to consist of numerous cast-off cells, bacteria, plant parasites of various sorts, as well as food débris.

In such a situation the tongue signals that some digestive upset has interfered with nature's self-cleaning process. Occasionally a dietary indiscretion will bring on the trouble—which will last for but a day or two. Thereafter the parts will clear and resume their normal, moist appearance. But one who is "run down" or in actual ill health may exhibit a persistent coating which is heavier in the morning. The mouth is likely to take on the aspect of a fermenting vat in which the odor of decomposition will communicate itself to the breath.

We must not forget, however, that this symptom may be purely local—with little if any relation to the condition of the gastric pouch or the intestinal tube. Bacteria and fungi will grow in this favorable spot, and the minute projections [papillæ] may retain food particles. In such circumstances the remedy is cleanliness. The surface may be gone over with a bit of moist sterile gauze wrapped around a finger—the operation repeated several times daily. A little lemon juice will be helpful in removing adherent fragments. Thereafter should come careful attention to the teeth, lips, and mouth—with the routine use of a mild antiseptic wash.

As we can understand, when anything impedes the normal flow of saliva the tongue is bound to suffer. It may then be hidden beneath thick, ropy secretions. This is what happens in the presence of fever, and unless good hygiene is practiced scrupulously, cracks in the mucous membrane may appear, leading to larger raw surfaces which may be long in healing.

Every one should be kind to his mouth because it is such a busy place and is of so much importance. The tissues should not be irritated with strong flavorings that burn or liquids that scald. When we brush the teeth—look at the tongue. If rinsing or gargling will not remove its cottonlike adornment, employ the gauze covered finger or a soft sponge rubber device.

Oral sanitation is not only conducive to good health but it constitutes a moral uplift as well as a social obligation. If a decorated tongue persists day after day—despite everything that is done—look to the digestive system. The gastric juice may lack its normal quota of hydrochloric acid or the diet may be out of balance.

### NOSE QUIVERS.

Mrs. H. writes: Several times during the day and when I lie down at night, my nostrils quiver—about midway between the tip and bridge of my nose. I have no control over it and it has me curious. Is there any explanation?

REPLY.

Probably a fatigue phenomenon—an illustration of how a tired nerve twig may become irritable. Twitchings of this character may involve an eyelid, a lip, or any area of the face.

### WHO KNOWS A NOSE?

M. F. writes: At what age does the nose stop growing? I am 15 and want to have mine remodeled.

REPLY.

By the time your full physical status has been attained [at age 20] you will find that people pay little, if any, attention to the facial adornments of others. Nasal models are of little consequence or significance in life. If you insist upon a try for Hollywood, that is another matter.

### PUT HIM TO BED.

J. I. L. writes:

1. Is it safe to take a child outdoors while he is teething and has a temperature that varies from 102 to 103 degrees?
2. Does teething always carry temperature?

REPLY.

1. With this degree of fever, all persons, children or adults, should be in bed.
2. No, indeed. Look for some other cause.

## FROM ACROSS THE SEA

BY L. LE GAY BRERETON.
[Chicago Tribune Press Service.]

HONGKONG.—Hongkong treasury officials have been given a task that it not only difficult but impossible, according to many, as a result of the determination of the colony's government to contribute substantially to the British war chest.

New taxes provided in a war budget include an income tax which will be collected for the first time in a community variously estimated at between 1,500,000 and 2,500,000 persons, in which none but about 30,000 foreigners and 2 to 3 per cent of the Chinese are registered.

Increases of 100 per cent in the duty on foreign wines and liquors and a heavy increase in the duty on gasoline will be comparatively easy to collect since the machinery for collecting them has been operating for some time. However, in the case of the income tax the position is different, since not only has Hongkong up to now been practically free of direct taxation [the only direct tax being 17 per cent on rents], but conditions here offer many special difficulties to tax collection.

From the 3 or 4 per cent of the population which is foreign or employed by large foreign firms the collection should be comparatively simple, but in the case of the remainder of the colony's inhabitants who are Chinese difficulties spring up on all sides.

The prime difficulty is to determine who is to pay the tax. At least 75 per cent and possibly as many as 90 per cent of the colony's inhabitants will be exempted because of the meagerness of their incomes. The remainder, to date, are unregistered and unknown except in a few cases.

Simple customs provide almost insurmountable obstacles. For instance, most of the Chinese have at least one alias and use the different names in different businesses. Most Chinese also have names which may be translated into two English spellings. Thus, Mr. Tsui who owns a revenue producing house in one street may be the Mr. Chui who owns a block of houses next door. Now the government must induce such property owners to divulge these interesting facts so the total income may be estimated and taxed.

Chinese business men also have huge turnovers that never appear in their books—which are kept in Chinese and are almost undecipherable to European auditors. Heads of firms and managers of banks often have salaries of only a few hundred a month, the bulk of their incomes coming from other sources.

However, Hongkong's government expects the new tax to raise at least $10,000,000 by an impost of about 10 per cent. About $1,000,000 of this will provide payment for the colony's special war expenditure and about $8,000,000 will be paid directly to the British government as a gift. This is in addition to the $6,000,000 paid annually as a defense contribution in part payment for the upkeep of the colony's garrison and naval protection. The colony's total income barely exceeds $16,000,000, including new revenue from the income tax.

## FRIEND OF THE PEOPLE

*Letters to this department must be signed with names and addresses of writers.*

### PROPERTY PURCHASE.

Chicago, Jan. 10 [Legal Friend of the People].—I recently purchased a three flat building. 1. I was told there were no leases. Just before closing the deal the agent gave a lease to expire October, 1940.

2. Now I need this apartment to live in. That is why I purchased. I am willing to do anything within reason to obtain possession.

3. Can I give a 60 day notice or how may I obtain this flat? I do not wish to inconvenience the tenant. P. D.

1. It is nearly always advisable for a purchaser of real estate to employ an attorney thruout, and we advise you to employ one now.
2. You should have obtained an agreement on the point.
3. Probably not.

If a written contract purports on its face to be a complete expression of the whole agreement, oral understandings incidental to the negotiations are superseded and cannot be proved in court to change the written contract. [See 22 C. J. 980.]

TRIBUNE LAW DEPARTMENT.

### PROBATE COSTS.

Chicago, Jan. 10 [Legal Friend of the People].—1. What would be the average attorney's fee for probating an estate of $12,000 when there is but one heirship, the estate would consist of $7,000 personal property and $5,000 real estate?

2. What are the different fees besides the attorney? E. E. W.

1. The Illinois statute fixes the fee of the personal representative at not over 6 per cent of the personal property. In our opinion the attorney's fee ought to come out of this. There is no other legislation controling the attorney's fee, but if the parties cannot agree, the question can be submitted to the probate judge.
2. A complete answer would be of undue length. You should submit your facts to another attorney if you wish to resist.

TRIBUNE LAW DEPARTMENT.

### VOTING PRIVILEGE.

Cary, Ill., Jan. 10 [Legal Friend of the People].—Can you tell me [1] if a wife has a legal right to vote if she is not a citizen but [2] dead husband was. Wife never had citizenship papers. Remarried to a man not a citizen but wife uses dead husband's name and is able to vote.

3. Is that legal? I would like to know. This has been debated but no one can understand how it can be legal.

MRS. P.

1. No, on your hypothesis.
2. We assume that the facts are such that she did not acquire her husband's citizenship. In other words, that the marriage was after 1922.
3. We cannot advise to advantage without knowing the facts on which you base the original assumption as to her citizenship, and when she contracted the marriage.

### ASSETS.

Chicago, Jan. 8.—Parrish's cartoon this morning was a masterpiece in describing when a debt is not a debt.

A statement in the President's budget message might lead to the belief that any money spent by the government is sanctified and results in the creation of assets. By way of illustration, if a mile of city street were to be paved with glass blocks, the city balance sheet would show a half million dollar asset, altho the value for use would be zero. In this hypothetical case only the pavers and the manufacturers of the glass would benefit from the expenditure of a half million in public funds. In the actual case of Chicago's subway, being built with PWA aid, only contractors and the suppliers of building materials receive the benefit. PWA interference resulted in a design which completely ignores the public interest.

It may be worth while to inquire how many more New Deal assets fit into the same category with the hypothetical glass block pavement. E. F. DOWNS.

### FROM AN ART TEACHER.

Highland Park, Ill., Jan. 7.—May I express my appreciation of the beautiful reproductions of Italian masterpieces?

They are not only a joy to have, but it has awakened the public's attention and appreciation to the color processes which have been so perfected in the last few years.

The color plates have been most helpful in explaining the pictures to art students in my classes, and I wish to express that appreciation.

LUCILE A. WOOD,
Highland Park High school.

### BOTTICELLI'S "BIRTH OF VENUS."

Chicago, Jan. 7.—I am the mother of four young children. This morning the first thing they brought to me was this picture of the "Birth of Venus." You may call it art, but it is a disgrace for children between the ages of 6 and 10 years old. A MOTHER.

### JOSHUA BARNEY'S DECISION.

Chicago, Jan. 6.—In connection with the scuttling of the Graf Spee by its commander, Capt. Langsdorff, it has been brought out that it is a glorious tradition of the United States navy that, regardless of odds, the commander and his ship or ships have gone down fighting.

May I please remind you that in the war of 1812 with Great Britain Commodore Joshua Barney, U. S. N., was in command of an American flotilla which lay off Pig Point in the Patuxent river. He found himself faced with a superior British fleet under the command of Admiral Cockburn. Rather than fight, he destroyed his entire flotilla. Had he sailed out and fought Cockburn, it is likely that Washington would never have been burned by the British troops.

This information may be found in "Pictorial Field Book of the War of 1812," by Benson J. Lossing, published in New York, 1869. LEWIS E. CARTER.

### REFUGEES.

Chicago, Jan. 9.—My ancestors left Europe because they wanted freedom where they could worship God as they chose. They were willing to sacrifice for this freedom. They came to a new country and endured all kinds of hardships for this freedom.

Why do not these European refugees of today go to some new country that is not developed, like Africa, and start from the bottom and build homes, churches, and schools, where they, too, could have this freedom?

EX-SOLDIER.

### WE VOTE.

Chicago, Jan. 4.—Jan. 7 will commemorate the 151st anniversary of our first national election.

Today, when citizens of few nations have the opportunity of selecting their government officials, we of the United States should be ever thankful for our right of suffrage.

May our elections continue and the Stars and Stripes wave forever onward.

JEROME L. GOLDBERG.

### GEN. MANNERHEIM AT 71.

Chicago, Jan. 10.—According to your editorial of today, Admiral James O. Richardson at 61 is too old to fight. What about Gen. Mannerheim of Finland, who is 71 years of age and seems to be doing a pretty good job? It would be interesting to know the age of some of the soviet generals who are fighting against him. P. M. MEADOWS.

### DRIVERS' LICENSES.

Chicago, Jan. 4.—With much interest I read the editorial of Jan. 2 entitled "More Deaths on Our Streets." In it you stated "Those who thought that the introduction of drivers' licenses in this state would be reflected promptly in the saving of life were wrong. We have the licenses, but we also have more automobile killings."

This fall I hired a car in Worcester, Mass., in order to make it more convenient to take a trip to some of the boys' schools in Massachusetts and New Hampshire. The commonwealth of Massachusetts requires a driver's license. I told their local officer in Worcester that I had an Illinois driver's license, showing it to him, and he informed me that "altho residents of many states are permitted to operate Massachusetts registered cars under their home state licenses, Illinois is not on the list of approved states." Consequently, I was subjected to a rigorous test not only to check my eyesight but also to ascertain my familiarity with driving and with traffic signals. This test was really thoro.

If Massachusetts will not accept our drivers' licenses perhaps it shows that Massachusetts does not feel that we are strict enough in our test. Perhaps we can make the test in this state more exacting and thus eliminate some of the dangers on the road. At any rate, it would seem wise to explore the advantages which can accrue from proper tests in obtaining drivers' licenses before the money is spent for building expensive accidentproof streets, such as elevated highways, etc. I throw out this suggestion for discussion.

RONALD P. BOARDMAN.

### A PARTISAN SUPREME COURT.

Warsaw, N. Y., Jan. 9.—The President appoints a fifth member of his party to the Supreme court.

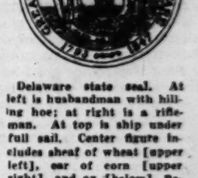
Is it not an American custom to appoint some members from the opposite political party? How about an editorial giving this record, as to how many Democrats have been appointed to the Supreme court by Republican Presidents.

L. C. JOHNSON.

## How Our States Got Their Names

### 7. DELAWARE.

Delaware was named for the river, which was named after Delaware bay. The bay was given its name by an English sea captain in honor of Thomas West, Lord De La Warr, Virginia's first governor. Delaware is one of the 13 original states.



Delaware state seal. At left is husbandman with hilling hoe; at right is a rifleman. At top is ship under full sail. Center figure includes sheaf of wheat [upper left], ear of corn [upper right], and ox [below]. Beneath figure is scroll inscribed "Liberty and Independence." The dates are those of the ordering of the third [1793] and fourth [1847] great seals of the state.

It has been nicknamed the Diamond, Blue Hen, and Blue Hen's Chickens state, as well as New Sweden and Uncle Sam's Pocket Handkerchief. The Diamond state is supposed to convey the meaning that the state, while small, is important. It was called New Sweden because, in 1638, Peter Minuit, a Swede, built a fort on the site of what is now Wilmington, and the Swedes ruled the territory for many years. The Blue Hen nickname is said to have started when a Delaware regiment in the revolutionary war took with it two fighting cocks whose mother was a blue hen. The cocks were so courageous that the soldiers referred to themselves as "sons of the blue hen," and regiments from Delaware became known as "Blue Hen's Chickens." Delaware apparently is called the "pocket handkerchief" because of its size.

The state motto is "Liberty and Independence" and the state song "Our Delaware." The state flower is the peach blossom.

# CONNIE BENNETT SCORES TRIUMPH IN W-G-N DRAMA

## Lucy Monroe to Sing on Soecial Program Tonight.

*(Picture on back page.)*

Constance Bennett, tiny, blonde, and casual, stood before the W-G-N microphone yesterday afternoon, a sheaf of script in her hand, and executed a breath-taking performance of a play she had rehearsed only once—Noel Coward's fantasy, "Shadow Play."

Lucy Monroe.

Thus Miss Bennett, a well known motion picture star, who is appearing in Chicago in her first performance on the legitimate stage, opened W-G-N's gala parade of special programs for 1940, and opened it with a finished flourish.

W-G-N recently closed its special holiday program of concerts, in which were presented such headliners as Grace Moore, Jan Kiepura, Marta Eggert, and Allan Jones. Lucy Monroe, young lyric soprano of radio, opera, and the concert stage, will be presented tonight in another outstanding program.

**Leading Man in Broadcast.**

Miss Bennett was supported in yesterday's presentation by Richard Ainley, a British actor, and a cast of W-G-N players. Ainley is her leading man in Coward's comedy "Easy Virtue," in the Selwyn theater. Yesterday marked his first radio appearance in America.

The performance of "Shadow Play," taken from Coward's cycle of one act plays, "Tonight at 8:30," was a work of art in that in its original form its musical setting and dance interludes were an integral part of it. The setting was revived yesterday in a subtle, supercraftsman manner by the W-G-N orchestra under the direction of Harold Stokes.

The play deals with a divorce which threatens Victoria Gayforth [Miss Bennett] and her husband, Simon [Mr. Ainley]. Simon is interested in another woman, and Victoria feigns interest in another man. He asks for a divorce—"an amicable divorce, with everything below-board"—and she takes an overdose of sleeping powder, which brings on a delirium.

**Performance Greeted with Praise.**

In this delirium she relives their whole romance, in whirling, fantastic nightmare, with the refrain sounding again and again: "Nobody can live without loving somebody; nobody can love without leaving some one."

Victoria's part is one requiring every nuance of emotion, and Miss Bennett's execution of it drew words of praise from Blair Walliser, director.

Later, in a brief radio interview, Miss Bennett said she had selected this particular vehicle because "I adore anything by Noel Coward." She said she found acting for the stage or radio more difficult than for the motion pictures, but added: "It's a little harder, but much more stimulating."

**Miss Monroe Guest Soloist.**

Tonight's program featuring Miss Monroe will be broadcast from 9:30 to 10:15 p. m. Miss Monroe will be guest soloist on the W-G-N Pageant of Melody. Henry Weber will direct the program.

Miss Monroe, a descendant of President Monroe, appeared with the Chicago City Opera last season, has appeared often with the St. Louis Municipal opera and made her Metropolitan opera debut in 1937. She has appeared frequently on the radio.

Tonight she will sing the waltz song from Gounod's "Romeo and Juliet," and a duet with Attilio Baggiore from "Carmen." She then will join Baggiore and the octet in "Wanting You," from Romberg's "New Moon." The program will be given before 600 guests in the main studio of W-G-N, and will be broadcast coast to coast.

### *Wells Street Car Derailed When Hit by Automobile*

A Wells street surface lines car was derailed last night when it was struck by an automobile at Wells and Erie streets. Ten passengers on the street car were jolted. The two occupants of the automobile, William Burda, 27 years old, 2801 South Springfield avenue, a butcher, and Edward Kunesh, 31, of 2358 South St. Louis avenue, a sheet metal worker, were injured slightly.

## *INQUEST TODAY IN EVANSTON'S 1ST 1940 AUTO DEATH*

A coroner's jury will open an inquest today into Evanston's first automobile fatality of 1940. Isaac Connor, 51 years old, colored, 1027 Emerson street, Evanston, died yesterday in the suburban Community hospital of injuries incurred Saturday night when he was struck by a car at Green Bay road and Emerson street. The driver was Dr. A. L. Stockebrand, 504 Lee street, Evanston.

Albin Scholling, 45, a laborer, of 3528 Fremont street, was killed when he was struck by an automobile at Clark street and Newport avenue. The driver was Lyman Buckingham of 1135 Lunt avenue.

A man believed to be Frederick C. Myers, 26, of 230 East Superior street, was killed when he was struck by a car at 60th street and South Park avenue. Willard Meyers, 29, a factory worker, 76 East 68th street, was driving the car.

Ronald Rose, 20, of 3928 North Pulaski road, died in the Belmont hospital of injuries incurred Monday when the automobile in which he was riding crashed into a street car at Irving Park road and St. Louis avenue. His brother, Gene, 18, and Donald Presti, 21, of 3912 North Troy street, driver of the car, were injured. Rose was laborer.

Up to 4 p. m. yesterday 39 persons had been killed by automobiles in Cook county since Jan. 1. Of these 28 were killed in Chicago, where 819 were injured in the same period.

## *TORNADOES HIT TWO ALABAMA AREAS; SIX DIE*

Montgomery, Ala., Jan. 14 (AP).—Tornadoes struck at two widely separated sections of Alabama today, leaving at least six persons dead and many injured, and causing untold property damage.

Three Negroes were killed in the Mount Meigs section, 16 miles east of Montgomery, and at least three others were killed at Beatrice and Riley's Crossing in Monroe county, about 80 miles southwest.

H. M. Brock, a Red Cross representative in Monroe county, said that in addition to the three Negroes killed there, six or eight were injured seriously and that he saw 15 demolished houses along the eight mile path of the storm, which struck about 3 a. m.

Nine or more were injured in the Mount Meigs storm, which struck two hours later. A preliminary survey by Red Cross officials revealed at least 10 houses were demolished and many others damaged at Mount Meigs.

**WOMAN WOUNDS SELF WITH GUN.**

Mrs. Sally Osberg, 44 years old, 5016 Berteau avenue, was taked to the Walther Memorial hospital yesterday after she shot and seriously wounded herself while visiting in the home of friends at 1831 North Spaulding avenue. Her husband, Gustav, a sheet metal worker, said Mrs. Osberg was suffering from a nervous disorder.

## *REVEAL ARMY'S WORK ON SECRET 70 TON BOMBER*

Washington, D. C., Jan. 14 (AP).—The army airplane plans which recently were stolen, but recovered by G-men, were for a secret new bomber which will be the world's largest, it was learned tonight.

The plane itself, a craft of more than 70 tons believed capable of a round trip nonstop Atlantic flight, is nearing completion at the Santa Monica, Cal., plant of the Douglas Aircraft company. It will be given its first tests next summer.

The theft and recovery of plans for an army plane was revealed last week in testimony of J. Edgar Hoover, chief of the federal bureau of investigation, before a congressional committee.

Hoover did not identify the plane, but authoritative sources said it was this huge experimental bomber, on which air corps and commercial engineers have been working for 18 months. At least one foreign government was said to be interested in obtaining the stolen designs.

**200 Foot Wingspread.**

Details of the experimental craft are guarded, but aviation men understand it has a wing spread of more than 200 feet and is equipped with new model high powered motors which promise a range of 6,000 or possibly 7,000 miles.

Its reported weight of more than 70 tons compares with 41½ tons for the Atlantic Clipper, which can carry 45 passengers. Its wingspread compares with 138 feet for the Douglas DC-4, huge air liner first tried out last summer and capable of carrying 42 passengers and a crew of five.

Any army plane now in service would be dwarfed by the new ship. The air corps' largest regular service craft weighs 17 tons, altho it has a single 32 ton plane, the B-15, in service on an experimental basis.

**More Operatives Sought.**

Hoover's disclosure of the stolen plans was in support of the administration's request for emergency defense funds, which included provision for extra FBI operatives. He gave the theft of plane plans as one instance of the lack of plant protection where military material is being produced.

"The procedure under which those plans were given out each day was indicative of the lack of a proper protection program in that factory," said Hoover. "In the morning the draftsmen would obtain plans from the foreman. No inquiry was made as to their issuance and no record was kept of the plans given out. There were no checks as to who had the plans or where they were.

"We have taken steps to have that sort of thing corrected."

**WOMAN, 91, DIES AFTER FALL.**

Mrs. Elisabeth Rathburn, 91 years old, 5213 Green street, died yesterday in her home of injuries suffered there in a fall Jan. 5.

## *TIME BOMB PILL USED TO COMBAT ALLERGIC PAINS*

### *Delayed Action Aid Is Told at Forum.*

People who spend the best part of a potential good night's sleep worrying because they know they're going to be awakened later anyway by asthma, hay fever, hives, or some other affliction were told yesterday how they can enjoy their pet maladies and sleep at the same time. It's simple. All they have to do is take a time bomb pill before retiring.

The pills aren't really bombs. They merely are coated with a substance guaranteed to last 7½ hours.

**Inventor Tells How.**

The time pill was described before the midwest forum on allergy last night in the Palmer House by Dr. Ethan Allen Brown of Tufts Medical school, Boston, Mass. He invented it.

"Persons with various afflictions," he said, "are in the habit of awakening at approximately the same time each night with a violent attack. In some cases they can treat themselves, but more often a doctor must be called.

"Even after medication to lessen the distress a patient often is unable to get back to sleep because of lingering nervous tension. It would be useless to dose the patient just before retiring, since the effect of the medication would be used immediately by the body."

**How to Circumvent the Hives.**

Say you expect to retire at 10 p. m. and that you anticipate a visit from the hives at 3:30 a. m. All right. Under Dr. Brown's system you take a time bomb pill at 7:30 p. m., two and a half hours before going to bed. Its coating is tough enough to resist the digestive juices for 7½ hours, and before you ordinarily would have awakened. The pill contains ingredients which counteract the particular ailment.

Physicians have used such delayed action pills, usually covered with a substance called keratin, for many years, but Dr. Brown said he believed that physicians dealing with various types of allergy had not yet waked up to their possibilities.

### *Last of 91 Bodies Taken from Blast-Rocked Mine*

Bartley, W. Va., Jan. 14 (AP).—With recovery of the last body, officials of the Pond Creek Pocahontas Coal company tonight fixed at 91 the loss of lives in the explosion that shattered the Bartley No. 1 mine last Wednesday. The death list had been fixed at 92, but it was disclosed today that one man on the list has been working with rescue crews for several days. He explained he had been too busy to look at the list that carried his name.

**BOY, 10, DIES AFTER ICE MISHAP.**

Edwin Fiebig Jr., 10 years old, of 4740 Parker avenue, died yesterday in Walther Memorial hospital of blood poisoning which developed after he tore the ligaments of his foot in a fall to the ice Jan. 5 while playing crack the whip on skates with playmates in Kelvyn park.

*(Write Name of Orchestra Leader Here.)*

★ ★ **THE RULES** ★ ★

**WHO CAN ENTER?** This offer is open free to men, women, boys and girls everywhere—except employes of the Chicago Tribune and members of their families. No person may submit more than one entry.

**WHAT TO DO?** Each week day a puzzle picture representing the name of a popular orchestra leader will be printed in the Daily Tribune until 42 have appeared. Solve the puzzle pictures and write the names in the space provided, or on a facsimile. Hold all answers until you have the complete set of 42. **Do not send them in separately.** It is not necessary to solve ALL correctly to win. Prizes will be paid for entries ranking highest.

**WHERE TO SEND?** Mail your entry by First Class Mail to "Rhythm Kings" Chicago Tribune, Post Office Box 1539, Chicago, Illinois. A ballot will be printed with Puzzle Picture No. 42. Each contestant must vote for the orchestra he or she likes best and state the reason for such choice in 25 words or less. Contestants may use the printed ballot or a facsimile. Ballots will be considered only if two or more persons submit equally correct solutions to the puzzle pictures; in which event, judgment will be based on sincerity and originality. Entries must be in by midnight February 24, 1940.

**JUDGMENT!** Entries will be judged by a committee appointed by the Chicago Tribune. Entrants agree that the judges' decisions will be final. 430 cash awards totaling $5,000 will be paid to the persons who send in the nearest correctly solved, complete sets of puzzle pictures. Elaborate entries will receive no more consideration than simple ones. In case of ties duplicate awards will be paid.

# Rachmaninoff's Concert Draws Overflow House

BY EDWARD BARRY.

Because Sergei Rachmaninoff was playing the piano at the Auditorium yesterday in the Northwestern university series, enough people came downtown thru the snow to fill every seat in the house and to overflow into the orchestra pit. They stayed around after the recital to clap and to cheer and to force Mr. Rachmaninoff to play his C-sharp minor prelude.

He played it, too. He seemed to grumble a little, but the ghost of a smile that lit his face indicated that he was accepting his fate philosophically. Dynasties may fall [and have fallen], but the little piece which Mr. Rachmaninoff unthinkingly tossed off half a century ago will follow him like a shadow thru life.

Before the prelude signaled the end of the afternoon [it is like "Home, Sweet Home" in this respect] he had added a Chopin mazurka, "Die Walküre's" magic fire music, and the most familiar of the Liszt "Liebesträume" to a printed program made up of Bach, Beethoven, Schubert, Chopin, Liszt, and Rachmaninoff.

The two great glories of Mr. Rachmaninoff's playing—his superb command of tone and his wonderfully expressive rubato—were movingly in evidence thru much of the recital.

Some of the best displays of the piano's tone came in the last Beethoven sonata [where the theme of the slow movement had a solemn, dark gold quality admirably suited to the music's character], in the second subject of the Schubert A-flat impromptu [where the brave Rachmaninoff ring was softened to fit the intense lyricism of the piece], and in the Liszt D-flat étude [in which full colors and half lights combined to give a modern audience a good idea of the splendor and complexity of sound which was Liszt's peculiar genius as a pianist and as a composer for the piano].

The Rachmaninoff rubato—which is nothing artificial but merely a by-product of his determination to sing his melodies in an unhurried, perfectly natural way—gave the worn out "Liebestraum" a fresh, exciting new life and made the Chopin mazurka seem as wayward and folklike and outdoorsy as ever the composer could have desired.

## SO. AMERICAN FOLK SONGS

BY CECIL SMITH.

Elsie Houston, Brazilian-Portuguese soprano, last night presented to the members of the Arts club as piquant and exotic a song program as they, or any one else in Chicago, have heard in many a long moon. Drawing her program chiefly from the Indian folk lore and voodoo magic of South America, Miss Houston showed her audience clearly that the adjective "exotic" need not be confused with "erotic" [as it is in theatrical trade parlance], and that the way of South American native singers has precious little in common with "The South American Way."

Miss Houston's natural vocal resources are not impressive, and furthermore they were inhibited by an illness that has laid her low for three weeks. In her case, however, this is not an important defect, for her appeal is at the opposite pole from that of a Flagstad or a Tibbett. Even when she is in the bloom of health, her art is one of miniature.

Still her projection is amazing, for she has the gift of achieving climaxes by understatement. Her voice takes on weird, quietly emotional colors that seem to come from somewhere beyond the equator. Evidently she has mastered the varied styles of folk singing in South America with exceptional completeness. At least she employs arresting devices of slurring, of singing in the cracks between pitches of the diatonic scale, and of primitive incantation that seem uniquely to apply to her special repertoire.

At the close of the concert she had all the lights turned out, except for candles to illuminate her face, and sang chilling, unearthly magic songs with drum accompaniment. In the rest of the program she was admirably accompanied by Pablo Miguel.

For purposes of complete record, the fact should be noted that Miss Houston began her concert with a multi-lingual group of songs, in which such familiar names as Satie, Stravinsky, and De Falla figured. While there were good, it was in the inimitable South American music that she reached her real stride.

Last Friday morning you might have seen an exceptionally tall man in a fedora hat and dark overcoat who was walking along Monroe street near Michigan with a companion, pause a moment near the entrance to the University club, reach up and pluck a 50 cent piece from an interstice in the building façade. The two walked to a parking lot, the 50 cents was turned over to the attendant and the two drove off. The tall man was Hugh Troy, New York mural painter and author, in Chicago visiting his Cornell university roommate and longtime friend, Nathaniel A. Owings [another classmate was Franchot Tone], and the 50 cent piece was one he had deposited there exactly 10 years ago.

Secreting money in the rustications of buildings is an old habit of Hugh Troy's. When he is flush he goes about New York depositing small sums in likely spots where he can pluck them out in small emergencies. Because of his height and arm reach the coins are reasonably safe, and Mr. Troy finds getting at them handier than getting checks cashed. He says he has something like $100 scattered over the façade of St. Thomas' in New York.

"But I lost some once when a building was torn down while I was away on a trip," he said.

Artist Troy, who did murals in the Savoy Plaza and is now doing some in a restaurant Nat Owings is building in New York for a Chicago restaurateur, came to Chicago for the Architects' ball. He did the murals in the Swift building at A Century of Progress Exposition.

## *Red Cross Chairman Names Supervisor of New Food Service*

The appointment of Miss Mary Marguerite Rooney, 1106 Lake Shore drive, as supervisor of the new foods and nutrition service of the Chicago chapter of the American Red Cross was announced yesterday by the chapter chairman, James B. Forgan. Miss Rooney was graduated from the Kansas State college and holds a master's degree in nutrition from the University of Chicago. She has served as chief dietitian in two hospitals.

With the combating of malnutrition and the improvement of general health conditions as its objective, the service will offer public courses on adequate diets at moderate costs, the judicious spending of food dollars, and proper methods of food preparation. Miss Rooney will have as an advisory committee Dr. Lydia Roberts of the University of Chicago, Dr. Marietta Eichelberger of the Red Cross, and Miss Frances Swain of the board of education.

The Gray Lady hospital and recreation service will open a class in home hygiene and care of the sick tomorrow at chapter headquarters, 616 South Michigan avenue.

# Use Newspaper as Invitation to Railroad Ball

BY JUDITH CASS.

EVERY one who might expect to be invited to a dinner-dance the Emerson house board is giving on Jan. 27 had better go thru her mail carefully this morning. It would be a pity to throw away unread the clever newspaper invitation the board members conceived.

Their newspaper is regulation size and carries a front page cartoon by Joe Parrish of The Tribune's editorial staff. "Working on the Railroad Ball" is the headline. "Dinner-Dance at Union Station Cafeteria," "Proceeds Will Benefit Worthy Cause," "Three Bands Will Swing for the Dancers at Party," and "Breaking Away from Formulas" are some of the heads on the front page stories. The remaining five pages are devoted to advertising, with a generous sprinkling of pictures of board members, among them Mrs. Solomon B. Smith; her sister, Mrs. William M. Collins Jr.; Miss Nancy Bastien, Miss Mary Alice Bacon, Mrs. John R. Hurley, and Mrs. Morrison Waud.

***Surprising Privacy for Railway Station.***

Mr. Parrish's cartoon shows a friendly engine steaming ahead with a child on each arm, neatly tying up the railroad party idea with the 28 years Emerson house has cared for the needs of neighborhood children and parents.

One of the stories describes the setting of the party, which will be a more private affair than might be imagined when it is remembered that it is to be held in so large and busy a place as a railroad station. The cafeteria, which is composed of a series of rooms with gayly painted murals, is cozily tucked away in an obscure location, but easy to find by inquiring of a red cap.

Tickets, including dinner, dancing, and some entertaining surprises, are $7.50 a couple or $4 single. Reservations may be made by tearing off and mailing coupons on the back page.

***Hinsdale Group to Give "Gaieties of 1890" Saturday.***

The Hinsdale Junior Infant Welfare has gone out of its way to plan something different in the way of benefit for next Saturday night. A light green poster announces "The Magnificent, Glamorous, Daring Extravaganza, 'Gaieties of 1890,' a Mammoth Spectacle Never Before Seen in These Parts."

Scenes from a real old-fashioned melodrama, "The Ocean of Life, or Every Inch a Sailor," give one a clew to the especial attraction which will be presented by a cast composed of Mrs. James Y. Craig, Mrs. Charles Averill, Mrs. Elliott McIntire, Herbert Bruckner, Osborne Kaull, Robert Hasbrook, Joseph Fredrickson, Herbert Montgomery, E. Brown Gray, Nathanial Willis, and Marshall Keig.

Among the versatile variety artists who will contribute to the evening's fun are Mrs. William Faurot, who will enact a lecture on the proper way to ride a bicycle; Mrs. Edward P. Brooks, who will sing; Mrs. Delmar Kroehler and Irving Clendenin, who will do the cakewalk, and a cancan and an Amazon chorus.

The party is to be held at 8:30 o'clock at the Eden ballroom, Cermak and Mannheim roads, near La Grange.

Among those who have planned dinner parties before the affair are Mrs. Faurot, Mrs. Palmer Boothby, Mrs. James Hannah, and Mrs. Kroehler.

# 'The Return of Dr. X' Is Your Dish if You Like Chilling Melodrama

By Mae Tinée.

***Good Morning!***

Brief, pithy, excitingly permeated with an atmosphere of the eerie, and FUNNY!—is the State-Lake's current movie.

It's melodrama built around the not new theme of the return to life, thru scientific means, of a man who has been pronounced dead. . . .

Marshall Quesne had been electrocuted—for, cause the film shall show you. . . . Dr. Francis Flegg, blood specialist, claims his body, for he has concocted synthetic blood and knows a way to send it coursing thru a corpse, thus starting life anew. The catch is, this blood doesn't renew itself and a body can be kept living only by constant replenishment of the blood stream. . . . Type 1—the hardest variety to obtain—is what the living dead man must have. . . .

If you think that Boris Karloff and Bela Lugosi are the only males who can make you go "EEK!" prepare to change your minds, for nothing grislier ever stepped out of a coffin than Humphrey Bogart as "Dr. X." As he pursues his Type 1 victims you want your mamma and you want to go home. . . .

John Litel, usually such a nice, commonplace man in the movies, runs intriguingly contrary to form as Dr. Flegg, wearing a satanic goatee the while and having a look about the eyes that makes you look for a near exit, even as do nice Reporter Wayne Morris and his friend young Doc Rhodes [Dennis Morgan]. . . . Other players comport themselves as suggested by the scenario.

Unusually good direction, pat dialog, and MOST refreshing comedy breaks help to make "The Return of Dr. X" a melodrama you'll remember.

[DON'T TAKE THE CHILDREN. . . .!]

***See you tomorrow.***

# The Girl in the Shadows

**By Roy Vickers**

[Copyright: 1940: By News Syndicate Co., Inc.]

**SYNOPSIS.**

On the eve of her marriage, Cynthia Brentiford, fashion artist, is sentenced to 18 months in prison under the name of Clara Brown. A casual date with Rory Clarke has made her, unknowingly, an accomplice—in robbery and murder. Unaware of the disaster, her fiancé, Michael Alloway, is on his way from Malta for the wedding. At Honeybyker, Cynthia's childhood playmate, Bessie Stockley, is a prison wardress. Bessie managed to take Cynthia's place and let Cynthia slip out in the guise of a wardress on a two weeks' leave. Cynthia marries Michael with his mother and sister Marion present. After a stolen fortnight of happiness, Cynthia persuades Michael to go back to Malta alone, pretending she has to have an operation and will join him later. Rory Clarke blackmails her. Back in prison, Cynthia discovers she is going to have a child.

**INSTALMENT VII.**

**THE ROPE LADDER.**

"Now listen to me," the lady governor said with more severity than she felt. "We're not really concerned with what you did or did not do before you were brought here. But in this case it's a matter of the expense. Your baby will be born in this prison."

"O, no!" The words broke from Cynthia without thought.

"You'll have to get used to that idea, I'm afraid," said the lady governor, rising. "The cost—I can't tell you the exact amount, but it will be under ten pounds in your case. Can you provide that?"

"Easily—and thank you very much, madam, for letting me off the questioning." Bessie would bring the ten pounds from the bank for her. Cynthia was clear headed enough now to give the correct answer. "If I'm allowed to write to my solicitor, he'll arrange for the money to be sent here."

The lady governor left her. She would ask Bessie to get the ten pounds and go to the solicitor and ask him to forward the money.

Cynthia lay back and actually dozed. The sublime tranquility of the expectant mother was strong upon her. Of course her baby could not be born in prison! It was too absurd. Bessie would arrange it. Bessie would get the ten pounds just to keep the authorities quiet and lull suspicion. And Bessie would arrange her escape.

Now she came to think of it, Bessie's original scheme, tho kind, had been a silly one. There was no need for Bessie to remain in the cell. Bessie could get another uniform and then help her to pass out of the prison with one of the departing reliefs. It would be an hour or more before the authorities would discover that a convict was missing. And by that time she would be in the heart of London.

In due course her dinner was brought by the now friendly orderly.

"Not much the matter with you, dear, by the looks of it. How did you manage to get a day off?"

"Influence, I expect," smiled Cynthia.

"Well, mind you're not sick so's you'll miss the concert on Saturday."

The next morning, after a visit from the doctor, Cynthia was told to get up and resume her duties in the laundry room. Here a new face was in charge, and for the first time Cynthia received criticism of her work.

"Can't you manage to write better than that?" the supervisor demanded. "The 'u's' and the 'n's' all look the same. There'll be some mistakes made before long."

"I'll try, miss," said Cynthia, and the officer passed on. A colleague grinned.

"It's only showing off, and it's called 'The Walters.'"

"The" was the recognized prison slang for "Miss" or "Mister," just as every convict was to every other convict "one of the girls," even tho she were a white headed matron.

"Pity they've taken The Andrews," continued the other in the mumbling half-whisper of the prison. "She could get things done without making a fuss."

"Who else has gone?" asked Cynthia with sudden dread.

"Ask me another. Something like a dozen was drafted to Aylesbury all of a sudden like. Oo, there was The Western—she was a good riddance. Let's see, and The Harris—and The Stockley——"

"The Stockley!" echoed Cynthia aghast.

"Ah! And if they'd thought to ask me I'd have said she could stay. She was a bit of all right, The Stockley was, and I don't care who hears me say it. I say, you don't half look dickey, dearie."

"I'm all right," faltered Cynthia. So Bessie had gone! At first she could not realize the extent of her disaster. She applied herself diligently to the laundry list, refusing thought.

That evening in her cubicle she faced the facts.

"My baby shall not be born in prison," she said thru gritted teeth.

It was intuition that spoke. An intuition so strong that it gave her the illusion she could read the future and see herself with her new-born baby in civilized surroundings. But there remained the problem of harnessing the intuition to the intelligence—the problem of forming a practical plan.

Convicts had escaped before now. But they were always men convicts. They made files out of odd pieces of metal, or they scaled walls with cunningly woven ladders. Or they had a gang working outside the prison walls to do all the work for them. A gang with money and cars—and the rest of it.

Had any one ever heard of a woman convict breaking prison? Without any gang? A woman with artist's hands that could neither wield a file nor scale a rope—supposing that she had a rope.

Intelligence had already begun to suspect that the feat would be definitely impossible. By midnight, a little feverish, Cynthia was picturing a dozen ways in which a really resourceful woman could break away.

By the next morning all the overnight plans had to be dismissed as definitely silly. But she could not stop planning. She made the discovery that it would be easy to slip into the outer courtyard at 4 o'clock and hide right under the wall, on the other side of which was freedom. But she would inevitably be missed at 6 o'clock at the latest. And unless she had found some means of tackling the wall in that time she would merely be in trouble with the authorities for nothing.

"Suppose I had a rope ladder! I could get astride the wall, drop it down the other side—but I haven't got a rope ladder and I might just as well suppose I had a free pardon, which would be more convenient for everybody. Even if I had a rope ladder I couldn't get very far in prison clothes without a car."

And then, by what seemed at first to be pure chance, the rope ladder was suddenly provided.

Some six days later, at 3 o'clock in the afternoon, a wardress entered the checking room and told Cynthia to go to the lady governor's office.

"Your solicitor will be here in a few minutes and you will be allowed to see him privately," announced the lady governor.

"Thank you, madam," said Cynthia, concealing her surprise.

"His letter says that he wishes to discuss with you some question regarding your property in the Cotswolds."

"O!" Cynthia had no property in the Cotswolds or anywhere else, but she had a flat in Cotswold Mansions. And that, somehow, was the key to the mystery.

"You will remember to mention the matter we were discussing the other day—the matter of expenses," said the lady governor. "You can leave it to him to make the arrangements with us, as you are not allowed to make them yourself."

"Thank you, madam." Property in the Cotswolds! The dry-as-dust solicitor who had arranged her defense would not send her a queer message like that.

A wardress led her along a corridor to the consultation room. One of the doors was open and from the other side she could hear the prison chaplain's voice.

## WINNIE WINKLE, THE BREADWINNER: Suffusion in Confusion

# Dramatics Are 'Open Sesame' to Loveliness

BY ANTOINETTE DONNELLY.

[Copyright: 1940: News Syndicate Co., Inc.]

"Proper dramatic training is an open sesame that swings wide the door of beauty to every woman, regardless of her face or figure defects, for it enables any woman to create an illusion of beauty," says Erwin Piscator, director of the Dramatic Workshop of the New School for Social Research. Mr. Piscator believes that beauty, the heritage of every woman, can be revealed only when she has learned to handle her body and voice properly.

His reason for saying this with such assurance is that in training neophytes for the stage he has seen how large a portion of beauty is just an illusion in the eyes of the beholder. For that reason, if for no other, he contends, dramatic training is ideal for teaching you how to meet people naturally and to talk with them with poise and grace. It will do more toward making you remembered as attractive than the most perfect Grecian nose.

"Too many women," Mr. Piscator continues, "stumble awkwardly into a room with hands flying in every direction, furs perched precariously on sloping shoulders and needing constant rearrangement. They're so preoccupied with themselves that when they must greet people they're completely flustered.

"One of the best ways to overcome self-consciousness is to learn thru dramatics the elementary principles of posture. To make a perfect stage entrance is to concentrate on your audience instead of on yourself. A thoro grounding in the diction and inflection pointers of dramatics would give your voice glamor creating vibrancy.

"A man's interest fades entirely," our authority says, "when a lovely woman fidgets with the hem of her dress, her hair and hands, or speaks in a dull, unimaginative way. She's like an unanimated doll, without beauty and charm."

## ★ THRU THE LOOKING GLASS ★

Constance Bennett believes that every woman's skin needs first, exquisite cleansing; second, lubrication; third, stimulation [but gentle!], and fourth, good makeup! Without the last the first three go to waste, at least as far as glamor is concerned, and without the first three the last is lost.

It's pretty obvious, on close inspection, that Miss Bennett practices what she preaches. Her skin is beautiful, fine textured, lineless, and radiant. She's the type whose skin requires care. She's extremely thin, extremely nervous, and a driver. Most women of her temperament have skin that is too dry, with a tendency to wrinkle early. But Miss Bennett's routine of special, never failing care has saved her complexion from the state in which most underweight, jittery women so early find theirs.

Miss Bennett can't gain weight, she says, no matter how hard she tries. She likes to design her own clothes and it's our personal idea that she cleverly chooses clothes that make her look slim rather than thin. She has enviable grace—a quality most thin women lack. We thought, watching her in "Easy Virtue," that hers was one of the slitheriest, smoothest walks we'd ever seen on the stage.

Miss Bennett is only the second person we have ever seen with the "three necklaces of beauty"—the three sharply defined lines, one at the base of her neck, one midway up the column, and the third below the chin—which are a legendary mark of great beauty. But is she pleased? She is not. She hates 'em.

Make the most of today's opportunities where personal expansion and self-development are possible, especially where women are concerned, or if you are a woman. But go easy where superiors are in the frame; watch occupational angles.

**Your Year Ahead.**

Your year ahead, from this your birthday, brings both tests and gain in domestic life and holdings—gain from April if deserved. Creative year; possibly romantic. Care of health. Danger: Feb. 1-12; June 10-30; Nov. 4-16.

**Tomorrow.**

Hold important decisions and avoid pessimism—use practical optimism.

Do you want an individual interpretation for your own personal date? Every important period is indicated for you, according to the laws of astrology. Send 10 cents to Wynn, Tribune Astrologer, 286 Fifth Avenue, New York City. Write plainly your name, date of birth, and address.

**Here's Amazing Proved HYGIENIC PROTECTION**

Thousands upon thousands of women have now learned to use a sensational, scientific discovery for hygienic purposes. This boon to womankind is not a poison, yet actually kills germs at contact. It is called Zonite, and its action is amazing when used for feminine hygiene. It instantly kills germs and bacteria on contact, yet it is proved safe—will not harm delicate tissues. And Zonite deodorizes—assures daintiness. Helps keep one fresh, clean and pure. So successful has Zonite been that over 20,000,000 bottles have already been used. Get Zonite from your druggist today. It's surprisingly easy and economical to use. Ideal for feminine hygiene. Follow the simple directions and enjoy proved hygienic protection that you may never have known before.

[Continued from page 13.]

of entertainment at its first benefit, a Globe Trotters' ball, on Feb. 2 at the Drake hotel. A new dance, the Globe Trotters' Trot, will be introduced, and so will some new fashions.

Any one planning a winter vacation to Sun Valley, Mexico, Cuba, Hawaii, or Jamaica will know what clothes to take with her. Five day and night time costumes suitable for each resort, as well as native costumes of each, will be modeled. In addition there will be a Mexican, an American, and a Sun Valley bar. Hot weather rum drinks will be served at the Mexican oasis; cold weather drinks will be the specialty of the Sun Valley one, and the American bar will serve—of all things—champagne!

The executive board of the society is so pleased with the work its newly formed woman's board has been doing that the young women have been invited to luncheon with the senior board on Thursday at the University club. Miss Vivian Creigh, Mrs. C. Bradford Carpenter, Mrs. Gilbert Rogers, Miss Carlotta Lagorio, and Mrs. Henry Kohring were elected to the woman's board last week, bringing the membership to more than 30. Harlow B. Voorhees is president of the executive board.

### *Junior Denis Sullivans to Observe Anniversary.*

Mr. and Mrs. Denis E. Sullivan Jr. have cards out for cocktails from 5 until 8 o'clock next Saturday at their home, 1430 Lake Shore drive, to celebrate their sixth wedding anniversary. The former Betty Offield and Mr. Sullivan were married on Jan. 17, 1934, but a Saturday afternoon is a better time for a large cocktail party than a Wednesday, usually nurses' day out.

The American Friends of China will have the opportunity of seeing the first documentary colored motion pictures of China at war this afternoon. Rey Scott will present the films at a meeting of the group at 4 o'clock at the Casino. Tea will be poured by Mrs. George T. Langhorne, Mrs. John Paul Welling, Mrs. William B. Hale, and Mrs. Paul B. Magnuson.

Chauncey McCormick, president of the Illinois Children's Home and Aid society, will give the address at the society's 56th annual meeting at 12:15 o'clock today at the Palmer House. The meeting will be adjourned at 2 o'clock. The Rev. Robert B. Stewart, minister of the First Presbyterian church of Wheaton, will give the invocation before luncheon. The treasurer, Stanley L. Younce; the general director, Mabbett K. Reckord, and the nominating committee chairman, Adlai E. Stevenson, will give reports immediately after luncheon and before Mr. McCormick's talk.

Charles H. Schweppe, president of the Chicago Hospital council is giving the fourth anniversary dinner of the council at 6:30 o'clock tonight in the Crystal ballroom of the Blackstone hotel. Dr. S. S. Goldwater, commissioner of the department of hospitals of the city of New York, will speak on "Do American Cities Need Both Voluntary and Tax Supported Hospitals?"

### *Woman's Symphony Group Gives Reception Today.*

Mrs. James G. Shakman, Mrs. Ernest J. Kruetgen, and Mrs. Hugo Dalmar have invited the Woman's Symphony associates to a reception for Alexander Kelberine, pianist, and Izler Solomon, conductor, this afternoon at the Woman's Athletic club. The hours of the party are from 3 until 5 o'clock. Mr. Kelberine will play with the orchestra tomorrow night at Orchestra hall.

Mrs. Walter Jarratt will open her home at 229 Lake Shore drive for an open meeting of the American Opera society at 3 o'clock this afternoon. "The Light from St. Agnes," a one act opera by Frank Harling, will be given.

Benjamin Britten, young British composer-pianist, will make his American debut with the Illinois Symphony orchestra tonight at the Blackstone theater. Lewis Bernays, the British consul general, and Mrs. Bernays, have reserved several boxes for the concert and will have the entire staff of the consulate as guests. Albert Goldberg will be the conductor.

Members of the Woman's Athletic club are looking forward to a musical morning on Thursday. Vera Gillette and Vincent Micari will give a two piano concert at the club at 11:30 o'clock.

### *Seeing Eye President to Be Luncheon Guest.*

The Chicago committee of the Seeing Eye has issued invitations to a luncheon for Mrs. Harrison Eustis on Jan. 25 at the Racquet club. The luncheon will open the 1940 membership enrollment. Mrs. Eustis is president of the Seeing Eye, which has headquarters in Morristown, N. J.

More than 250 women in the metropolitan area who will be active in the enrollment are starting their group meetings today. Mrs. Loyal Davis will open her home at 199 Lake Shore drive at 10:30 o'clock for one meeting, and two other groups will meet at the home of Miss Frances E. Whedon, 3 Banks street, this afternoon.

The woman's board of the Chicago Home for Convalescent Women and Children will hold its first meeting of 1940 at 11:30 o'clock this morning at the Woman's Athletic club. Mrs. J. Fred Butler and Mrs. Arthur W. Cutten will be hostesses at luncheon following.

Members of the Service club will hold their annual meeting at a luncheon today at the Arts club.

# Useful Pattern for Lingerie

WOMAN'S AND MISS' LINGERIE.

One must have so much lingerie in a well-stocked wardrobe that it's a kindness to the budget to sew some of it oneself. This versatile pattern creates everything in the way of underthings, and may utilize the most inexpensive of washable silks and lingerie cottons. With this design you can, too, make use of the remnant sales, and get really excellent materials for the brassiere, panties, petticoat, and all-in-one undergarment. They all may be tailored or lace trimmed, as you choose, and pastels and white are the best and daintiest color choices.

Style No. 3132 is designed for sizes 14 and 16, and 36, 38, 40 and 42 inches bust measurement. Size 36 requires ⅝ yard of 39 inch material for brassiere, with 1½ yards of lace; 1⅞ yards for petticoat, with 1¾ yards of lace; 1½ yards for combination, with 3 yards of lace; 1 yard for panties, with 2 yards of lace.

Address orders for Clotilde patterns to Chicago Tribune, P. O. Box 537, Grand Central annex, NEW YORK CITY, including 10 cents in stamps or coin (coin preferred—wrap it carefully) for each pattern ordered. IMPORTANT! Be sure to state clearly the number of the pattern and the size desired, and write your name and address plainly.

For 15 cents buy the winter Chicago Tribune book of Clotilde Fashions, on sale at the Tribune Public Service offices, 1 South Dearborn street and Tribune Tower; 10 cents if ordered with a pattern. Address mail orders to the New York address above.

# According to CULBERTSON

[Copyright: 1940: By Ely Culbertson.]

A partnership that holds almost every honor trick cannot help being swept along on an irresistible current toward a slam. This is particularly true when one of the partners has a strong five card suit and can tell from the bidding that his partner has general strength. Unfortunately it does not follow that the slam contract will be a laydown. Shrewd play may be necessary to bring it home.

South, dealer.
Both sides vulnerable.

SOUTH

The bidding:

| South | West | North | East |
|---|---|---|---|
| 1 no trump | Pass | 3 clubs | Pass |
| 3 diamonds | Pass | 4 clubs | Pass |
| 4 no trump | Pass | 6 clubs | Pass |
| Pass | Pass | | |

Certainly neither partner could be criticized for overbidding. The only high honors they lacked were the diamond ace and the heart queen. Yet North was not overly confident when he saw the dummy.

East opened the eight of hearts, wisely conserving his diamond honors because of South's diamond bid. Dummy's ace won and the adverse trumps were drawn in three leads, ending in North's hand. Now the singleton diamond was led up to dummy. East made the only play that could give declarer trouble—he ducked!

Declarer, before playing from dummy, studied the situation carefully. Naturally he did not know that East held the diamond ace and had ducked with it. From declarer's point of view it appeared more probable that that card was in West's hand. If it were and West smothered one of dummy's high diamond honors, the contract would be in parlous state, inasmuch as declarer would almost certainly have to lose a heart trick as well. The pressing need was to find a place upon which to discard not one but two hearts. Hence, as the best hope of creating such a discarding opportunity, declarer at this point properly played dummy's diamond 10. As a matter of fact, his hope was to drive out the ace, but, amusingly enough, his sound play had a different, altho equally satisfactory result—the 10 spot held! Now only a little care was required to insure the contract. The diamond king was led and passed, declarer discarding a heart. East won with the ace, but now the diamond queen was established and declarer was safe against any attack.

The moral is that a good play often may work out to a different advantage than that intended.

# Here's Litany for Mothers and Fathers

By GLADYS HUNTINGTON BEVANS
[Copyright: 1940: News Syndicate Co., Inc.]

The new figures 1940 have appeared for two weeks above these articles, and only now do I realize that I have skipped what has been a custom of this column at the turn of each year. Ever since our "Litany for Mothers and Fathers" was first written and specially printed it has been repeated at some time between Christmas and New Year's day until this season. Altho many of my older readers now have copies of it, there are some of those new in following this department who may be helped by a summing up of those aims that are closest to the hearts of all parents—but aims which are seldom gathered in one place. For those I am repeating today our Mothers' and Fathers' Litany:

To respect my children and in return
To be worthy of their respect—
*May Love and Understanding help me.*

To praise much and blame little,
To emphasize their successes
And minimize their failures—
*May Love and Understanding teach me.*

To make no promises to my children
That I cannot keep—
*May Love and Understanding help me.*

To have unbounded faith in my children,
To be loyal to them both at home and abroad—
*May Love and Understanding lead me.*

To allow them the dignity of their own personalities,
Not trying to make them over to my own desire—
*May Love and Understanding help me.*

To care well for my children's bodies,
But not at the expense of their minds and spirit—
*May Love and Understanding help me.*

To be cheerful and ready to laugh
Because children love laughter as they love sunshine—
*May Love and Understanding help me.*

To have infinite patience with my children
And to make allowances for them,
Because they have so much to learn
And I myself am not so very wise—
*May Love and Understanding help me.*

To protect my children from my own nerves,
Ill temper, personal prejudice, pessimism, and fears—
*May Love and Understanding lead me.*

To help them to choose
The life work they are best fitted for
Instead of gratifying thru them
My personal ambition—
*May Love and Understanding lead me.*

To reserve time and fresh energy for my children
So that I can be their close and interested friend—
*May Love and Understanding help me.*

To fit my children to meet life and people
Bravely, honestly, and independently—
*May Love and Understanding help me.*

To give my children freedom, but
To teach them how to use that freedom
So they will not confuse liberty with license—
*May Love and Understanding guide me.*

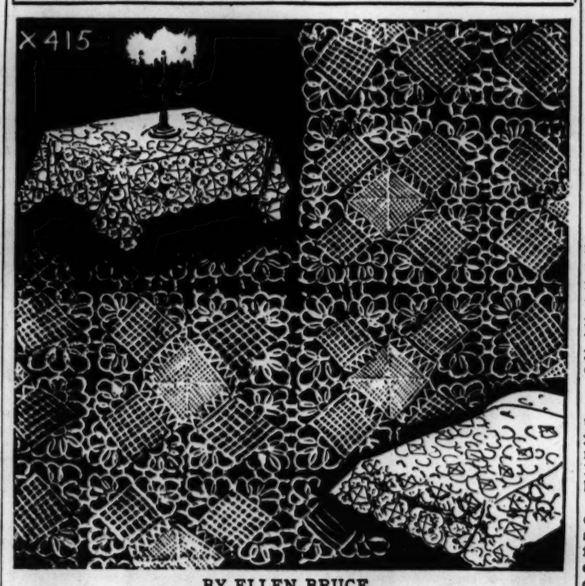
To show my warm love for my children
As well as conscientiously care for them—
*May Love and Understanding lead me.*

To manage them with intelligence and affection,
And not by punishment, condemnation,
Fear, fault finding, and nagging—
*May Love and Understanding help me.*

To guide my children instead of driving them,
To direct their energy instead of repressing it,
To try to understand my children
Instead of sitting in judgment on them,
And thru all misdemeanors both trivial and serious
To love them steadfastly—
*May Love and Understanding help me.*

This Litany, specially printed so it can be kept, is helpful to parents, teachers, and nurses. With your name and address, inclose postage only for it. Address Mrs. Gladys Bevans, Chicago Tribune, Chicago.

# *Empire Period Tablecloth*



BY ELLEN BRUCE.

This formal empire period tablecloth crocheted of ecru mercerized crochet cotton is a handsome and unusual looking piece. The medallions are of good size and it does not take long to create enough to complete a whole cloth. This same design may be repeated in a buffet cloth or used, in another type of material, for a bedspread.

For instructions in crocheting the Empire design for the tablecloth, No. X-415, send 10 cents in stamps or coin to the Needlework Bureau, Chicago Tribune, 220 Fifth avenue, New York City.

# Looking at Hollywood

By Ed Sullivan

[Continued from page 13.]

ter and put flesh and blood in it. Other actors play themselves, over and over again, but that really is not ACTING, in the full meaning of the art. Some writers now are asserting that Donat should be set aside in favor of Jimmy Stewart, because Stewart is American. I don't think that any such asinine observation needs an answer from me, because talent never has been decided by geography. Stewart would be the first to deride such provincialism."

Mary Rogers and Eddie Grainger at Le Maze's. . . . June Lang out stepping with McKinley Bryant. . . . Since his Diana Lewis wed William Powell, Tommy Neal is stepping nightly with Margaret Roach. She's the attractive blonde daughter of Hal Roach. . . . Bill Stevenson [Patricia Ziegfeld's hubby] will not get the Arthur Murray franchise for a dance school in Hollywood. Incidentally, the stork is penciled in for an early landing at the Stevensons', and the arrival will make Billie Burke a very delighted grandmother.

Brewer George Trommer has a bad attack of Lois Andrews. Don't be surprised if they get hitched in Florida. . . . Kay Francis with Andy Lawler. Incidentally, on her birthday last week Kay received flowers from her old crew at the Warner studio, a tribute that few players receive in this hard boiled town. . . . Virginia Garner can't decide between Dick Purcell and Eddie Norris. . . . Lucille Fairbanks, Doug's stunning niece, and Owen Crump have reached the poetry stage.

Chester Morris and Pauline Bryson a combination. . . . Bing Crosby takes a lot of kidding on his race horses, but Saturday his Don Mike won a $10,000 stake at Santa Anita in a common gallop. . . . Bert Lahr must be cleaning up on Broadway. He is in the Cole Porter-Buddy De Sylva show on a percentage and salary arrangement. The show has grossed as much as $34,000 in a single week. . . . One of Jimmy Roosevelt's first productions will be the life of Sigmund Romberg. . . . Cecil B. De Mille is anxious to land Simone Simon for his next picture. The little Frenchie would be grand in the rôle. . . . Leo McCarey, Gene Fowler, and Joe E. Brown, auto crash victims, all have progressed into the advanced convalescent stage. . . . I like Irv Hoffman's crack in Hollywood Reporter about "Gone with the Wind" and "Abe Lincoln in Illinois." Cracked Hoffman: "Dave Selznick and Max Gordon are undoing in one month what the north has spent 70 years in achieving—making the south forget."

# *The Sewing Set Can Find Lots of Expert Help*

BY RHEA SEEGER.

One of the busiest places in town is a first aid service to amateur and professional dressmakers. Here is the glorified version of the old fashioned button box. More than 175 different styles and sizes can be ordered. You furnish the material to match or contrast and in a few hours the finished results are ready for your needle and thread. Covered buckles in 200 different styles and shapes and sizes will keep you busy deciding just what you want and the same speedy service comes with the buckles.

If button holes give you the jitters, your problem is solved while you order—either machine or hand made, plain, eyelet, bound or tailored. Bring in the dress, jacket, skirt or blouse, and your worries are over.

Plaiting and hemstitching jobs come in by the mile and go out smoothly executed. Old fashioned finishing such as pinking is another easy to get service. So are the most complicated shirrings, braidings, ruchings, and pipings in any and every imaginable design. You can order three or two large tucks or have material tucked from selvage to selvage, and this means every kind of material from chiffon to wool.

Here you can order sunburst plaits or plaiting by the inch, foot, or yard in flat or accordion formation from narrow ruffles to entire skirt lengths. You can get foolproof diagrams on how to cut the material and prepare it for the plaiters. You can get fringe in any color or color combination, braid for entire jackets or just a panel or collar and cuffs.

Tailored suits that require arrow heads embroidered on pockets and hand eyelets can be finished. Sequins of any color can be worked as you order in any sort of material.

## Numerology

By Evelyn Holmes

Jan. 15, 1940.

A social day in general and in particular for those born on this date or any of the six dates [6th, 15th, 24th, 30th]. Those born on any of these dates are friendly, affectionate, romantic, and home loving. The year 1940 ought to prove a very happy one for those born on today's date. They will make more social contacts and have more opportunities to express themselves thru their talents, abilities, hobbies, and personality. They should beware of scattering their fire as this is a five year universally and they will have a tendency to be easily distracted by outside events.

Sandwiches and canned soup make easy-to-get and satisfying busy day lunches. It takes only a minute or two to heat a can of soup. Meanwhile we can be making sandwiches of whatever ingredients are at hand.

Most of these quickly made sandwiches are appropriate for a packed lunch, if there's a lunch carrier in the family. Then enough for everybody may be made the night before or early in the morning.

**Corned Beef and Cheese Sandwich Spread.**

[Enough for six sandwiches.]

¼ cup sharp yellow cheese
2 tablespoons mayonnaise
¼ pound canned corned beef
¼ cup chopped pickles
2 teaspoons grated onion or minced chives
Paprika and a sprinkling of curry powder

Chop cheese fine and mix with mayonnaise. Add shredded meat and other ingredients, with a little salt, if needed. A tablespoonful or more of minced parsley may be added.

LEFTOVER FISH SANDWICHES.

Flake cooked fish and mix with tartar sauce and chopped hard cooked egg. Add a little salt, if necessary, and a few drops of lemon juice. Cooked peas or asparagus and chopped celery may be added. Flaked canned fish may be used in this way.

HOT DEVILED HAM AND CHEESE SANDWICHES.

Toast bread on one side. Spread other side with deviled ham and top with thin slices of cheese. Toast under broiler until cheese has melted.

BAKED BEAN SANDWICHES.

Mash baked beans, canned or home cooked, and add to a cup of the beans, measured before mashing: 1 tablespoon catsup or chili sauce, 2 tablespoons chopped celery, 1 tablespoon chopped pickle, 1 teaspoon minced onion, salt and pepper as needed. Use cold as a sandwich spread or toast bread on one side, spread the other side with the bean mixture, lay strips of bacon over the top and broil.

CREAM CHEESE-OLIVE SANDWICHES.

Mix cream cheese until soft and add sliced stuffed olives. Dates, cut fine, or dates and chopped nuts may be added. Put sandwiches together with lettuce and mayonnaise.

Dozens of other sandwiches are to be found in "The New Sandwich Maker," a booklet which sells for 5 cents in stamps, by mail. It's only 3 cents if you pick it up at one of the Tribune public service offices, 1 South Dearborn street and Tribune Tower.

Girls' junior—Ann Parker, Waters playground.

BY WILFRID SMITH.
*(Picture on back page.)*

Chunky George Shimek of Cedar Rapids, Ia., with one-half mile to skate in the Men's Senior Silver Skates two mile Derby, loosed a burst of speed yesterday afternoon that carried him to victory in the climactic race of the 23d meet sponsored by The Chicago Tribune Charities, Inc.

A member of the United States Olympic team and winner in the national 10,000 meter Olympic trials in Oconomowoc, Wis., last winter, Shimek sprinted over the line two yards ahead of Lowell Miller of Elgin, Ill., who skates for the Catholic Youth organization. Miller was in second place from the start thru the 12 laps of the Derby.

**He Passes Baacke.**

Shimek was content to skate in eighth position for seven laps. Midway in the next circuit of the track the Iowan moved up on the outside to take the lead from Tom Baacke of the Tilden Skating club. Baacke won the gold medal for leading the field the greatest number of laps.

Leo Freisinger of the C. Y. O., former Silver Skates champion in other age classes, North American champion, and United States Olympic 500 meter candidate in 1936, finished sixth yesterday. When the 220 pound Shimek went out to take the lead, Freisinger was spun around in the pack and thrown off stride as he attempted to follow. He had been in third place but he didn't have the closing drive to recover and follow Shimek. Baacke fell back to seventh.

**Well Bunched at Finish.**

George Spalten of the Northwest S. C., was fourth, about a yard behind Tony Neberz of the C. Y. O. Fifth place and the bronze medal went to Mike Andruch of the George F. Barrett A. C. Except for Shimek's two yard margin, the other trophy winners crossed the line in a blanket finish.

The Catholic Youth Organization won the team championship with 470 points. This not only gave it first leg on the Walter Eckersall trophy now in competition, but determined possession of the first trophy placed in competition in 1931.

Last year the Northwest S. C. and the C. Y. O. tied for the team title. Each previously had won twice. It was agreed that the team scoring the more points this year would gain possession of the trophy.

Northwest was second yesterday with 270 points and the Elgin Skating association third with 90 points.

*Winners' Reward*

Pete Miller, coach of the C. Y. O. team, accepts the Walter Eckersall trophy from Gen. John Clinnin, referee of the Silver Skates' Derbies, following the C. Y. O.'s team victory in yesterday's meet.

## *Terry Stops in Chicago—as a Minor Leaguer*

Bill Terry, manager of the New York Giants and head of the National league club's farm system, was in town yesterday only long enough to attend the winter meeting of the Three Eye league in the Morrison hotel. Terry was here in the interest of the Clinton, Ia., team, operated by the Giants.

Terry and Clarence Rowland, Cub scout, exchanged words—but only about the weather, according to Rowland. The Giants' manager didn't care for the snow and wind, so left early last night for his home in Memphis.

Tom Fairweather was reëlected president of the Three Eye league for three years. Billy Webb, new head of the White Sox farm system, was welcomed into the councils of the league. He is vice president of the Waterloo, Ia., club, a White Sox subsidiary.

A working agreement between the Sox and Waterloo, which had affiliations with Cincinnati a year ago, was approved.

League officials set May 5 as the opening of the season and the closing date as Sept. 8, a week later than last year in each instance.

Madison, Wis., was officially recognized as a new member, replacing Bloomington, Ill. Milwaukee of the American Association, franchise owner, announced some time ago that arrangements had been completed to move the team from Bloomington to Madison.

### *Carnegie Tech to Name Football Coach This Week*

Pittsburgh, Pa., Jan. 14 (AP).—Clarence Overend, director of athletics at Carnegie Tech, tonight said a successor to William F. Kern will be named late this week. Kern, who resigned last week as Tech football coach, yesterday was named head coach by West Virginia university.

## BLACKHAWKS END RANGER STRING AT 19 STRAIGHT, 2-1

### Allen, Dahlstrom Score for Chicago.

BY EDWARD BURNS.

It took the Blackhawks to show the hockey world the New York Rangers, with all their fresh world's record business, aren't unbeatable. Most of the 15,884 who braved the storm to reach the Stadium last night will tell you the Hawks' 2 to 1 victory over the Rangers was the greatest hockey game they ever saw.

The Rangers, unbeaten since Nov. 19, Saturday night whipped the Toronto Maple Leafs 4 to 1, their 19th straight game without defeat, a major league hockey record. Last night they were out to fatten that great string, also a string of 10 straight victories. And did those Rangers battle to carry on!

**Finally Beat Goodman.**

The Hawks, playing as they rarely have played except in Stanley cup competition, had a 1 to 0 lead at the end of the first period, and this edge held up thru a terrific second session. After 7:11 of the final period the Chicagoans had a 2 to 0 lead. Goalie Paul Goodman was performing miracles for what would have been his third shutout in his brief Hawk career. But in 16:54 Alf Pike picked up a lucky bounce and lofted the Rangers' only counter into an open cage.

The first Hawk goal was the result of a skilful foray by George Allen, Joe Cooper and Bill Carse, with the former scoring and the other two getting assists. The payoff goal was scored in 7:11 of the final period and happened so fast that scarcely any one, including the Rangers, could realize what had happened.

**Old Double Play Technique.**

Murray Patrick was put off for banging Mush March into the end boards. In the resultant faceoff at the side of the New York cage Joffre Desilets rammed the puck to Cully Dahlstrom, who relayed it into the goal. From faceoff to net took about one second.

There wasn't a dull moment in the entire game, and when the boys were not barraging one goalie or the other they were fighting. For long spans in the second period the penalty box was overflowing, but, strangely enough, this congestion led to no scoring, tho tremendous hockey was percipitated.

The storm caused many cancellations and the big turnout fell short of the season attendance record. Seating arrangements had been made for a new hockey attendance record, an expectancy supported by advance ticket sales before the storm caused several thousand cancellations from suburban sectors. The storm also caused the first four minutes to be played with only one official, Lines-

## *In the Wake of the News*

BY ARCH WARD.
[Chicago Tribune Press Service.]

NEW YORK, Jan. 14.—New York newspapers gave considerable space to the University of Chicago's withdrawal from intercollegiate football. . . . But you had to hunt thru the back pages to find accounts of President Robert Hutchins' explanation for his school's action. . . . The journal with the largest circulation in the United States gave it no mention at all. . . . It is apparent the editors recognize Dr. Hutchins as an enterprising young educator who is trying to lead the march, but they observe, too, that it is a one man parade. . . . The series of interviews with presidents of other midwestern universities, recently published in THE CHICAGO TRIBUNE, was convincing evidence that Dr. Hutchins' fellow educators have little sympathy with his experiment. . . . Most of them have had far more experience in directing great scholastic centers than has Chicago's executive chief. . . . In the first place, there is nothing new about the Maroons' policy. . . . It has been tried before and abandoned. . . . There's a school down in Arkansas called Commonwealth college which never has had a football team. . . . It was founded by and is operated for communists. . . . The country at large has no great concern whether the University of Chicago plays intercollegiate football or not. . . . It has an interest, however, in the motives for dropping the game as advanced by the school's president. . . .

Robert M. Hutchins.

Dr. Hutchins is quoted in one of the New York papers that carried a piece about his appearance before the student body last Friday as saying that football is a major handicap to education. . . . It was interesting to note that no evidence was presented to support his conclusion. . . . If his statement is true, then, no doubt, we can expect scholastic improvement on the Midway any day now. . . . Hutchins' comment does not coincide with the findings of Clarence Dykstra of Wisconsin, Edward C. Elliott of Purdue, Bishop John F. O'Hara of Notre Dame, Eugene A. Gilmore of Iowa, and other university leaders whose opinions have been printed in this department. . . . Hutchins stressed the importance of victory in intercollegiate football. . . . He told the undergraduates that "if you win, you must keep on winning." . . . We like the doctor's spirit, but it is obvious he hasn't read Big Ten gridiron history. . . . Michigan had championship teams in the early '30s and then went into the worst nosedive it had experienced in years. . . . Never did its president suggest that football be eliminated with the understanding that basketball, track, swimming, and other sports in which the Wolverines had a better chance be continued. . . . Michigan, like all great fighters, climbed off the floor and battled its way back to the top. . . . So have Iowa, Minnesota, and Northwestern. . . . There are some sound lessons in the record books of Big Ten football, in case you are interested in that type of literature. . . . It is shocking to find that Chicago, of all places, overemphasizes victory. . . .

Dr. Hutchins also is quoted [we hope New York papers are reliable] that "football has done much to disseminate and confirm the popular misconception that a university is either a kindergarten or a country club." . . . The doctor has taken seriously the Siwash story, which most people consider an amusing caricature of football. . . . He further stated that "the advantages of football are not unique to that game, so it is not necessary to a healthy and satisfactory undergraduate life." . . . Maybe the doctor has something there, but shouldn't a fellow have an opportunity to play the game of his choice under conditions similar to those of associates who prefer other competitive sports? . . . It is possible, even probable, that life would go on if the Golden Gloves tournament were abandoned, but fortunately for Chicago and America there are young men with enough virility to enjoy contests involving strong physical contact. . . . Football has many of the attributes of boxing. . . . It is no sport for the fainthearted. . . . It takes courage to tackle an opponent who is bearing down at you with terrific speed and possibly much greater weight. . . . It's courage of a different type than is required in tennis, swimming, golf and other sports which the Maroons hope to maintain. . . .

Dr. Hutchins also made a point that many of the universities on Chicago's football schedules are much larger than they were 15 years ago and that 50 per cent of football players in the Big Ten are students of physical education. . . . President Raymond Waters of the University of Cincinnati, whose findings are accepted as authoritative by schools thruout the nation, gave the following full time enrollment figures in the December, 1939, issue of the magazine School and Society:

| | Total. | Men. |
|---|---|---|
| Chicago | 6,011 | 1,693 |
| Northwestern | 6,075 | 1,460 |
| Indiana | 6,271 | 1,429 |
| Iowa | 6,260 | 1,944 |

Northwestern, Iowa, and Indiana have tried repeatedly to schedule football games with Chicago, but have been more or less consistently rejected so the Maroons could play instead Ohio State, whose enrollment is 13,231; Illinois with 13,510; Michigan with 12,098, and Harvard, which numbers 8,209, all men. . . . The news account of Dr. Hutchins' talk winds up

## PACKERS KICK 3 GOALS, PASS 92 YARDS, WIN, 16-7

### Whip Pro All-Star Team Before 18,000.

Los Angeles, Cal., Jan. 14 (AP).—Three field goals and a 92 yard touchdown pass gave the Green Bay Packers a 16 to 7 triumph over the National Football league All-Stars before 18,000 in Gilmore stadium today.

The world's champion Packers, who play the college all-stars in the CHICAGO TRIBUNE'S game next August, scored on a 45 yard field goal by Clark Hinkle in the first period, added one by Ernie Smith in the second, and in one electrifying play in the closing seconds of the half advanced into a 13 point lead on the long pass. E. Smith added the extra point.

**Isbell to Hutson.**

Cecil Isbell, Green Bay back, stood one yard back of the goal line and fired away. The ball traveled 61 yards before Don Hutson, veteran end, gathered it in and went on to score.

One minute before, the All-Stars had gone 62 yards on a pass from Frank Filchock, of Washington, to Bill Smith of the Cardinals. Isbell prevented a touchdown by bouncing the flying Smith out of bounds on Green Bay's 12 yard line. The Packers held fast for three downs. On the fourth, Ed Jankowski of Green Bay intercepted Filchock's pass on the 1 yard line and returned to the 8. On first down Isbell dropped back and let fly with his touchdown throw.

**O'Brien Averts Shutout.**

Davey O'Brien of Philadelphia gave the All-Stars their touchdown in the third quarter. He returned a Packer punt 28 yards to Green Bay's 17 yard line. Johnny Drake of Cleveland battered the powerful Packer line for six yards in two tries, O'Brien added two, and Drake crashed to the 6 for first down. Two plays later O'Brien flipped a pass over the line to Joe Carter, also of Philadelphia, for the touchdown. Ward Cuff of New York converted. Lineups:

*Tigers' Loss Their Gain*

Roy Cullenbine. Benny McCoy.

Two members of the Tigers who were made free agents yesterday.

## *Dykes to Bid for McCoy—So Will MacPhail*

Benny McCoy, 23 year old Detroit infielder, one of the 92 members of the Tigers or their farm club affiliates declared free agents yesterday by Kenesaw M. Landis, baseball commissioner, may wear a White Sox uniform next season.

In a telephone conversation from his Philadelphia home last night, Manager Jimmy Dykes told Harry Grabiner, Sox secretary, that he would contact McCoy in an effort to secure his services. At his home, Grand Rapids, Mich., McCoy said his preference would be the White Sox, adding that he had an admiration for Dykes and his methods of handling ball players.

There may be a wild scramble, however, for McCoy. Larry MacPhail, general manager of the Brooklyn Dodgers, wired the chunky little infielder that he would top any offer he received. McCoy also has played the outfield.

The White Sox expressed no interest in Paul [Dizzy] Trout, pitcher, or Roy Cullenbine, outfielder, also declared free agents. Warren Giles, manager of the Cincinnati Reds, said his club might make overtures for the pair. At his home in Detroit, Trout said he was approached last night by officials of the Washington Senators and St. Louis Cardinals.

Grabiner said the Sox would do some investigating among the list of 87 minor leaguers who won their freedom in Landis' decision.

### *Frank Moore Appointed Dartmouth End Coach*

Hanover, N. H., Jan. 14 (AP).—The Dartmouth college athletic council tonight announced the appointment of Frank E. Moore, Louisiana State university graduate and former Oklahoma end coach, as end coach of the Dartmouth eleven. Moore will succeed Eddie Hirshberg, Pitt graduate, who has resigned to become an assistant to Bill Kern, recently named head coach at West Virginia university.

## M'COY, 4 OTHER TIGERS LET GO; CUBS ARE FINED

### Ruling Ruins Detroit Farm System.

The intricate baseball operations of the Detroit Tigers, embracing player transactions with 15 minor league clubs, yesterday led to 92 players being made free agents, the fining of two major league clubs, and an order granting 15 players approximately $50,000.

These sweeping decisions were announced by Kenesaw M. Landis, baseball commissioner, and were the result of a nine months investigation by his office that not only involved the baseball clubs in the Tigers' system but also presidents of minor leagues as accessories to illegal transfer of player contracts.

The minor league presidents and club officials drew a stern warning from the commissioner, who announced that all guilty parties in future cases of this kind would draw suspensions.

**Tiger Farms Wrecked.**

The wholesale freeing of talent, in effect, wrecked the Tigers' farm system. In Detroit the baseball value of the 92 players was estimated at $500,000. Wish Egan, veteran Detroit scout, said it would take the club several years to rebuild its minor league system.

Five of the 92 players declared free agents were on the Detroit roster proper. They are Benny McCoy, second baseman; Roy Cullenbine, outfielder; Paul [Dizzy] Trout, pitcher, all members of the Tigers last year, and Lloyd Dietz and Steve Rachunok, rookie pitchers.

Commissioner Landis' action blocked the tentative trade made last December by Detroit sending McCoy and Pitcher George [Slick] Coffman to the Athletics for Outfielder Wally Moses. The decision rendered yesterday had been anticipated by baseball leaders and led to the fining of the Chicago Cubs and St. Louis Browns for tampering with McCoy and Cullenbine before they were made free agents.

**Cubs Fined $1,000.**

The Cubs were assessed $1,000 because of the commissioner's finding that McCoy and Cullenbine were approached by Clarence Rowland, Chicago scout. The baseball office charged that Fred Haney, manager of the Browns, made similar overtures to McCoy. The Browns were fined $500.

All players declared free agents will be allowed to sell their services to the highest bidder after 15 days when the ruling becomes effective. The Tigers' most important loss was McCoy, whose value in the open market has been placed close to $40,000. Trout, who won nine games and lost 10 for Detroit last year, is a promising young right hander. Cullenbine, whose home is in Detroit, batted only .240 for the Tigers last year in 75 games.

In his order, Commissioner Landis prohibited the Cubs from dealing for McCoy and Cullenbine and ruled that the Browns could not negotiate for McCoy's purchase until three years have elapsed.

**Engineered by Zeller.**

In the six page bulletin, Commissioner Landis said that these far-flung operations were engineered by Jack Zeller, general manager of the Tigers. Also involved in the irregular transactions were J. Alvin Gardner, president of the Texas league; Milton Price, president of the West Texas-New Mexico league; J. Walter Morris, president of the East Texas league; Waldo Shank, owner of the Toledo club of the American association, and Cecil Coombs, former business manager of the Fort Worth club of the Texas league.

Landis pointed out that after he gave more than 100 members of the St. Louis Cardinals' farm system their release on March 22, 1938, he believed this move would eliminate such practices. He added:

"It now appears that the only adequate penalty for such misconduct is

# MURRAY, WACKER BOX TONIGHT IN MARIGOLD RING

## Heavyweights to Clash in Eight Rounder.

Ed [Tipperary] Murray, rangy Cleveland heavyweight, and Henry Wacker, rugged Chicago fighter, will be opponents in an eight round bout tonight in Marigold Gardens, Broadway and Grace street. Wacker has knocked out his last two opponents, but Murray is one up on his rival, having stopped his last three foes.

With the exception of his knockout of Tom Kenneally in White City last Dec. 15, Murray's record, however, is not as impressive as Wacker's.

Marion Mosley, local heavyweight, will try for his seventh straight triumph in a five round semi-final against Bob Ray of Decatur. In two additional contests of five rounds Johnny Balmer, Peoria junior welterweight, is paired with George Kontopolis, and Bobby Ryan, west side welterweight, with Ralph Guajardo. Ryan and Guajardo fought to a draw decision in a previous fight a week ago. A four round event involves Orlando Trotter, south side heavyweight, and Johnny Williams, newcomer from Springfield, Ill.

Promoter Bill Rand will appear before the Illinois Athletic commission today with an application to present a 10 round nontitle bout between Tony Zale, rated No. 5 middleweight contender by the National Boxing association, and Champion Al Hostak in Chicago Stadium Jan. 30 or 31. Zale contracted a cold after a workout in Trafton's gymnasium last Tuesday, which precluded the possibility of holding the contest on the original date, next Friday. Chairman Joe Triner of the commission said the board's decision will depend on the findings of an X-ray examination to which Zale will submitted in Gary yesterday.

One hundred six boxers will seek eight amateur championships in the annual tournament in the Illinois Athletic club tomorrow, Wednesday, and Jan. 24.

Altho four 1939 I. A. C. champions have returned for additional honors only one, Hiner Thomas, Catholic Youth organization middleweight, will be defending his title. The others are competing in heavier divisions this year. They are Frank Bausone, C. Y. O. featherweight, winner of the bantamweight championship; Homer Williams, Savoy Athletic club lightweight, victor in the featherweight division, and Harry Sparrow, C. Y. O. welterweight, winner of the lightweight championship.

Other 1939 champions are Al Noto, flyweight; Jack Carter, welterweight; Altus Allen, light heavyweight, and William Snell, heavyweight. The latter three now are boxing professionally. Thomas, 1938 C. Y. O. title holder, will receive his strongest competition from Isaiah Wells, 1939 C. Y. O. champion, who was a last minute entry.

# C.Y.O. Fives Carry Games Into Overtime

Close games featured the weekly play in the Catholic Youth Organization Basketball league yesterday afternoon. Three contests went into overtime and in several others only one and two points separated the teams.

The overtime games found St. Valentine's lights whipping St. Mary, 22 to 21; Sacred Heart [70] lightweights defeating Our Lady of Peace, 32 to 30, and St. Simon's heavies winning over St. Raphael, 33 to 26. Scores:

ineligibility of the officials engaged therein; but, as such action was not taken in the prior case [against St. Louis in 1938], nor notice given that it would be taken in a subsequent case, such penalties will not be imposed in the present case.

"However, notice is hereby given all clubs, club officials, and employés that the evils of common control of player dealings of two clubs in the same league, and perversion of working agreements into arrangements for the wholesale covering up of players must cease; and that all club officials and employés found to be involved in any such misconduct after this date will be placed on the ineligible list, maximum fines will be imposed on each club concerned, and all players mishandled therein will be declared free agents."

### Accused of Collusion.

The league presidents and club officials were accused of collusion in the coverup deals by allowing illegal deals to be cleared thru their office, the bulletin pointed out. It further declared that false certificates of club relationships and connections were officially filed by all the 16 clubs concerned and that players were transferred without filing proper agreements or under fake agreements.

In firing a broadside at league officials, Landis said: "Ineligibility also appears to be the only adequate penalty for improper conduct of league presidents knowingly coöperating in rules violations and player coverups, or negligently failing to investigate or report to the commissioner or to the president of the National association [Judge W. G. Bramham, chief of the minor leagues], facts and circumstances coming to their knowledge which indicate probable existence and illegal arrangements between clubs. Accordingly, notice hereby is given all league presidents and officials that in any such cases arising after this date they will be placed on the ineligible list."

### Controled Clubs in One League.

The investigation revealed that the Tigers controled the player dealings of two clubs in the same leagues—Beaumont and Fort Worth in the Texas league, and Alexandria, La., and Abbeville, La., in the class D Evangeline league. Players were shuttled back and forth under fake agreements according to the commissioner's finding.

Minor league clubs hit hardest are Toledo, which lost 10 players; Beaumont, which lost the same number, and Fort Worth, which had nine stricken off its list.

The cash ordered to be paid the minor league players not declared free agents range from $1,000 to $7,500. The sums will be paid by the Tigers or the club which acted for Detroit in making such deals. The total amount these clubs will pay is $47,250. Checks must be sent to the players within fifteen days.

### List of Players Freed.

The players, club affiliation and the amounts they will receive are: John Lindsay Brown, Portland, $1,500; Irving Jack Burns, Toronto, $7,500; Frank Reiber, Toronto, $5,000; George Archie, Seattle, $3,000; Chester Morgan, Louisville, $5,000; Ed Coleman, Portland, $3,000; Irving Bartling, Wilkes-Barre, $2,500; John Zapor, Durham, N. C., $1,000; Emile De Jonghe, Toronto, $4,750; William Ehrensberger, Meridian, Miss., $6,000; Clyde Smoll, Knoxville, $2,500; Ray Fritz, $1,500; Don French, $2,500, and Joseph T. Hare, $1,500. The latest club connection of the last three players were not known by Landis' office.

In addition to the Cubs and Browns, the Cleveland Indians were hit by the commissioner's ruling and will pay Outfielder Walter T. Carson $2,000.

The 87 minor league players freed:

DETROIT—Benjamin McCoy, Roy Cullenbine, Paul Trout, Lloyd A. Dietz, Steve Rachunok.

EVANSVILLE—Roy House [consideration received by Beaumont for player's transfer to Evansville to be refunded].

# Boston Whips Canadiens, 4-2, Before 10,000

Boston, Mass., Jan. 14 (AP).—A third period barrage that produced three goals, two of them by Red Hamill, enabled Boston to gain a 4 to 2 victory over the Montreal Canadiens tonight before 10,000 in a National Hockey league game.

Boston scored first when Bill Cowley beat Goalie Claude Bourque 15 seconds before the opening period ended. Louis Trudell tied the score in the second period with Bill Summerhill's assistance. The latter, a hustling rookie, provided the final Canadien goal in the last minute of play.

Hamill's goals came before and after Woody Dumart upheld his perfect penalty shot record by blasting a puck thru Bourque. Lineups:

## AMERICANS WIN, 1-0

New York, Jan. 14 (AP).—Nels Stewart scored a second period goal tonight to give the New York Americans a 1 to 0 victory over the Detroit Red Wings and return the Wings to a last place tie with the Americans.

More than 8,000 braved a rainstorm to watch an unexciting game in which the defenses had the upper hand thruout. Stewart got his goal from his favorite position, at the crease of Tiny Thompson's cage. He drove home the rebound of Al Murray's 30 foot shot. Lineups:

## PAUL WHEELER BEATS CHAMP IN DUELING MEET

Paul Wheeler of the Lake Shore Athletic club yesterday won the Chicago duelling sword meet in Bartlett gymnasium, sponsored by the Amateur Fencers League of America, winning a fence-off with Loyal Tingley of the University of Chicago, national champion. Arthur Todd of the Edgewater Fencers club was third.

Karl Hanisch, representing the Michigan division of the league, took the saber meet title, winning five events. Donald McDonald of the University of Chicago, winning three events, was second. Charles Corbett, also of Chicago, was third.

A field of 30 competed in the two meets.

## MICHIGAN MAY MEET MICHIGAN STATE ON NOV. 2

Lansing, Mich., Jan. 14 [Special].—Possibilities of shifting the date for next year's Michigan-Michigan State game are being discussed by Spartan athletic officials. The Wolverines have been left with an open date on Nov. 2 by the dropping of Chicago.

For the last 11 years Michigan State has been the opening opponent for the Wolverines and Coach Charles Bachman has repeatedly urged a later date for this game.

## ESCANABA TEAM WINS ICE MEET; CHICAGO FOURTH

Escanaba, Mich., Jan. 14 (AP).—Racing thru blinding snow, Escanaba won the team championship today in the annual Bay De Noc open speed skating tournament.

Escanaba collected 695 points, compared to 520 for Oconomowoc, Wis., and 255 for Madison, Wis. Chicago finished fourth with 180.

Meet records fell in five events. Chester Seroka of Oconomowoc won the men's individual title with 130 points, trailed by Bob Heckenback of Chicago with 120. Madeline Horn of Oconomowoc, competing unattached, led women entries with 120. Betty Burr of Madison was second with 110.

## Hutchison, Hackbarth Tie in P. G. A. Senior Tourney

Sarasota, Fla., Jan. 14 (AP).—Otto Hackbarth, Cincinnati professional, shot a par 70 today to tie Jock Hutchison of Chicago at 146 for the annual National P. G. A. seniors' golf championship. They will play off the tie in an 18 hole round tomorow. Hutchison shot a 75 today.

# BLACKHAWKS END RANGER STRING AT 19 STRAIGHT, 2-1

## Allen, Dahlstrom Score for Chicago.

[Continued from first sport page.]

man Donnie MacFadyen. Mickey Ion, delayed by the ice and snow, got to work in the fifth minute, however.

### Hawks Earn Lead.

The Hawks more than earned the 1 to 0 lead they enjoyed at the end of the first period. Before Allen counted, in 14:22 of the opening session, the Hawks forced the play with exceedingly rapid and intelligent skating, which is not to say the Rangers did any slouching.

In the first five minutes the Hawks had Goalie Kerr either doing the Highland fling or sliding on the seat of his pants a half dozen times. They bore down almost as hard the rest of the way till they took the lead on the Allen goal.

The first score of the game was calmly registered through a perfect passing exploit. Cooper picked up the puck in the Hawk defense zone and Allen and Carse promptly lined up with the big Joe. The trio zig zagged the rubber thru the Ranger defenders without much spreading to the wings. When Allen got to a point 10 feet from the cage he cut loose with a shot which featured accuracy more than dynamite. It beat the able Mr. Kerr very prettily, indeed. Cooper and Carse were awarded assists, of course.

### Plenty of Excitement.

Tho there was no scoring in the second period the span was one of the most exciting in the history of Stadium ice, not only because of three A-1 fights but because of the relentless way the Rangers put on the heat, only to be repulsed by a truly valorous defense.

Up to the eighth minute of the second period the Hawks hadn't suffered a penalty and the Rangers had been socked for one minor only. At this juncture Clint Smith had the puck off the points of Goodman's skates, but lost balance just as he appeared certain of making a cinch goal.

In the excitement that ensued Des Smith was put off for holding, the first Hawk penalty. Smith scarcely had got seated in the coop when Bryan Hextall took a swing at Johnny Gottselig and missed. Gottselig then floored Hextall with a right to the button. After rolling about on the ice for a spell, the pair were sent to join D. Smith, assessed with major penalties.

### The Calaboose Is Jammed.

Just as D. Smith escaped Phil Watson and Cooper engaged in spirited fisticuffs which soon precipitated a battle royal. So many gents were fighting that Referee Ion settled for major penalties to Watson and Cooper, giving the calaboose a population of four serving majors.

So, excepting goalies, it was three against three. The Rangers star line, the Colville brothers and Alex Shibicky, put on a slow motion ring around rosie demonstration which was a marvelous exhibition of deliberate maneuvering, but not marvelous enough to show up the three Hawk supporters of Goodman—Earl Seibert, March, and Doug Bentley.

Then came the scoring by each team in the third period. The game ended with Goalie Kerr on the bench as the Rangers put six forwards on in a frenzied attempt to tie the score.

# MINNESOTA FIVE COLLIDES WITH PURDUE TONIGHT

## Gophers Will Learn if They Really Are Good.

### College Basketball

YESTERDAY'S RESULTS.
De Sales, 47; St. Mary's [Mich.], 34.
St. Francis [Loretto, Pa.], 34; Catholic U., 31.

GAMES TONIGHT.
Indiana at Wisconsin.
Illinois at Michigan.
Minnesota at Purdue.
Northwestern at Ohio State.
Iowa at Chicago.
Loyola and Duquesne in Coliseum.
De Paul and Detroit in Coliseum.
Marquette at Michigan State.
New Mexico A. & M. at Bradley.

Minnesota, victorious over Indiana Saturday, tonight faces the other Hoosier entry in the embryonic Big Ten race, the Boilermakers of Purdue. Minnesota meets Purdue in Lafayette, Ind., which is a decided advantage for the Boilermakers. Until the Gophers have attempted to cope with Purdue's fast breaking, tireless youngsters, they can have no idea what's ahead.

Tonight's contest is Purdue's only game with Minnesota and it appears that only the single game with Michigan and the home and home series with Indiana will have a greater bearing on the championship race.

Iowa and Chicago, each defeated three times in the Big Ten, play for last place tonight in the Maroons' fieldhouse. The city's best basketball will be offered in the Coliseum. Tonight's double header pairings match Loyola against Duquesne and the University of Detroit against De Paul.

**Ramblers Lack Height.**

Loyola's well coached, hard playing quintet may break its run of close defeats tonight. Lack of height and adequate replacements have proved blighting handicaps. In the De Paul-Detroit game, however, Chicago fans will see one of the major contests of the year.

Marquette broke Detroit's string of victories Saturday night, 44 to 41, which in itself is evidence that the Titans are worthy opponents for De Paul. The Blue Demons probably are in more danger because of Detroit's loss to Marquette than if the Titans had won.

De Paul's height and the fact that in every game some one player comes thru with a series of goals when needed, has kept the Blue Demons on top. Lou Possner is the best of the sharpshooters, but Capt. Stan Szukala, Ed Norris, and Ed Sachs have on occasion equaled or surpassed Possner. Elmer Gainer is consistent under the back board and invaluable on defense.

**Gophers Play Their Best Game.**

Minnesota's conquest of Indiana, 46 to 44, particularly after Northwestern had whipped the Gophers a week ago, 46 to 38, clearly indicates the uncertainties of basketball. Minnesota played its best game of the season and ran up a first half lead of 29 to 16. Indiana's rally sent the Hoosiers ahead, but in the last 25 seconds Minnesota tied the score and then Willie Warhol shot the winning goal as the gun sounded.

Minnesota must employ the same kind of marksmanship tonight in Lafayette, for Purdue has scored 138 points in its games with Northwestern, Ohio State, and Wisconsin. Purdue's two scores of 49 points top the Big Ten for a single game. Don Bianken led the Boilermakers' attack against Wisconsin, scoring seven field goals in the first half after which he retired.

**Michigan Shares Lead.**

Michigan shares the conference lead with Purdue, having beaten Ohio State, Wisconsin, and Iowa. The Wolverines' margin of victory over Ohio State and Wisconsin—comparable opponents on Purdue's schedule—was not as impressive as the Boilermaker record. Tonight Michigan conceivably may lose to Illinois, altho the Illini were beaten by the Buckeyes Saturday, 37 to 31, and have won only one game. Illinois defeated Chicago a week ago, 34 to 33.

Illinois potentially is strong enough to upset any conference quintet but Bill Hapac's illness prevented his competition in the opener at Indiana and Saturday night he had little support against Ohio State. Indiana stops off at Wisconsin this evening on the way home from Minnesota and the Badgers, whose only victory was over Chicago, presumably are in for a rough session.

Sharing the tie for third place with Minnesota and Indiana is Northwestern. The Wildcats had no difficulty whipping Chicago Saturday night, 44 to 28, and dispelling the idea that the Maroons' zone defense was unusually effective. Rather, it would seem that Chicago's previous opponents were not up to Northwestern's standard.

**Wildcats Meet Ohio.**

Tonight the Wildcats play Ohio State for whom the Buckeyes have proved something of a jinx in recent seasons. Last year Ohio State won two games from Northwestern, the first by five points and the second, in Columbus, by four points.

Marquette completes its eastern trip by playing Michigan State tonight.

# DEMARET WINS OAKLAND OPEN; HEAFNER SLIPS

Oakland, Cal., Jan. 14 (AP).—Jimmy Demaret of Houston, Tex., today won a thrilling stretch drive battle with Clayton Heafner of Linville, N. C., to take the fourth annual $5,000 Oakland open golf tournament with a 72 hole total of 281, one over par.

Heafner, who entered the final round with a two stroke lead on Demaret and Ky Laffoon of Chicago, finished in a three way tie for second place with Horton Smith of Oak Park, Ill., and Ben Hogan of White Plains N. Y., one stroke behind the winner.

While Heafner faltered on the last nine to card a 73, Hogan scored 69 and Demaret and Smith carded par 70s.

**Dick Metz Is Fifth.**

Dick Metz of Chicago, whose finishing 68 was second best of the day, landed in fifth place at 283. A stroke behind Metz was Paul Runyan of White Plains, N. Y. Bruce Colbart of Haddonfield, N. J., and Jimmy Hines of Great Neck, N. Y., shared seventh with Laffoon.

The windup was tinged with drama, some comedy, and the unusual picture of Heafner emulating Tarzan in a tree climbing stunt. If Heafner's ball hadn't lodged in the branches of a tree on the 12th hole the story of the victory might have been different.

Most of the thrills were crammed into the final nine holes. Demaret and Heafner each made the turn in 34, one under par for the Sequoyah course.

**Misses "Gimme" Putt.**

They halved the 10th and 11th in pars. The 12th provided the setting for an amazing turn in affairs. Heafner's ball stayed up in a tree. He started up after it. The ball fell out. Heafner popped it over the green. Then he missed a four inch putt to take a 5 on the 147 yard hole. The ball was so near the cup he merely swiped at it with his putter—and missed the opening. Demaret scored a par 3.

They parred the 13th and Heafner went one stroke ahead with a par 3 on the 14th.

**Takes Lead at 15th.**

After pars on the 15th, Demaret gained two shots and the lead on the next hole. He took a par 5 and Heafner posted a 7 after hitting one ball into the lake. The last two were halved in pars.

Lawson Little of Bretton Woods, N. H., who won the Los Angeles open last week, rounded up a high 288 while Ralph Guldahl finished outside the 15 money winners with a 293.

# *Iowan Wins Men's Silver Skates Title*

[Continued from first sport page.]

won the girls' senior one mile championship. Miss Swierkos won by a yard from Bessie Laga of the Northwest club. It was a slow race with no one of the leading candidates wishing to make pace. Sid Steffen broke in front on the fifth and next to last lap and then she was passed by Miss Laga on the bell lap.

On the final turn into the last lap Miss Swierkos, whose sister, Helen, won the senior race in 1938, went to the fore and held the pace to the finish. Miss Steffen was third. The time for the race was 4:19.2.

The championships were contested over the fastest track in more than a decade despite Saturday night's rain. That the temperature never was higher than 38 degrees helped, for had the precipitation been snow the task of the officials of the Chicago park district would have been almost impossible.

**Snow Helps, Too.**

At 8 o'clock yesterday morning the ice measured 9 inches in various sections of the lagoon. Moreover, it was smooth and except for the shoreline it was only covered with occasional puddles. The six lap course was surveyed to keep away from the shore where holes were cut to drain the surface. After the start of the snow before the championships it was easier to keep the track clear.

The preliminaries, semi-finals, and title Derbies were run off in a bit more than two hours. Yesterday, in the shorter events, 113 races were run off in the same time.

Junior Haenisch of the Northwest Skating club took the Boys' Intermediate championship. He stayed back for four of the six laps while Marvin Thomson, his teammate, was in second place and Douglas Lourman set the pace.

Haenish sprinted to take the lead with two laps to go. Thomson fell back to next to last, but on the final lap he came on to make a photo finish of the result. Thomson is a former winner in a lower age division, and his father, George Thomson, won Silver Skates in 1920.

**Ann Parker Wins.**

Bunny Lawler, C. Y. O., led the Girl's Intermediate Derby until the last turn on the last lap. She was followed closely by Shirley Klaris, a teammate, and Miss Klaris, 25 yards ahead of Peggy Barber, Kenosha, Wis., won when Miss Lawler fell. Bunny finished fourth despite her fall. Margaret Daly of Elgin, Ill., was third.

Ann Parker of Waters playground, won the Girls' Junior Derby for girls under 16 years of age. She took the quarter mile final by 20 yards from Mary Allen of the Northwest S. C. Julie Beich, unattached, was third.

The finish in the Boys' Junior Derby was one of the closest of the afternoon. Chuck Edwards of the Northwest club, and Donald Fahrenbach of the C. Y. O., breasted the line practically on even terms. After deliberation Edwards received the Silver Skates.

# *Petersen Puts Up $8,800 for 23d Classic*

BY C. H. BEUKEMA.

A list of 25 prizes totaling $8,800 was announced yesterday by Louis P. Petersen for his 23d annual singles bowling classic, to be held in Hochstadter's Archer-35th Recreation Jan. 26, 27, and 28. The total is believed to be one of the greatest ever offered in a major bowling competition.

Many of the nation's leading bowlers, among them a number of Chicagoans, are among the 352 entered in the competition which requires eight games across 16 alleys.

Top prize for the second time in the classic's 22 year history, is $3,000. Second prize is $2,000, and third prize $1,000. The remainder of the regular prizes are as follows:

Fourth, $500; fifth, $250; sixth, $200; seventh, $150; eighth, $140; ninth, $130; 10th, $125; 11th thru 15th, $120 each.

The Dan Hayes Boiler Repair team rolled into third place in the handicap division of the Chicago city bowling tournament by hitting a 3,006 total on the Western Recreation alleys yesterday. In the day's only other change Bo's Wonder Bar went into a tie for fifth with 2,985.

Two Koenig teams took places among the top 10 in major division competition, the five from the North End Traveling league going into a tie for third place with Budweiser at 2,861 and the quintet from the Classic league going into ninth place with 2,784. The leaders:

MAJOR DIVISION.
Curtiss Jolly Jacks, 2,948; White Pine Corner, 2,892; Budweiser, 2,861; Koenig Brau [North End], 2,861; None Better Ice Cream, 2,849; Southwest Recreation, 2,844; Ruppert Beer, 2,796; Birk's Trophy Beer, 2,793; Koenig Brau [Classic], 2,784; Birk Bros. Brewing, 2,750.

HANDICAP DIVISION.
Royal Blues [Niles Center], 3,054; Shipping [Wilson-Bennett], 3,034; Dan Hayes Boiler Repair, 3,006; Bensinger-Wabash, 2,999; No. 19 [Crane Chicago Works], 2,985; Bo's Wonder Bar, 2,985; Barth Barber Shop, 2,983; Lauterbach Coal Company, 2,982; Cleanliness Pays, 2,979; Andy's Tavern, 2,974.

The leading Schlitz won five out of six games in the doubleheader bowled by the Sunday division of the Classic league last night, taking two games from the Monarchs in the Southwest Recreation and three from the Michelobs in the Madison-Kedzie Arcade.

In winning four games while the Monarchs were dropping three, the Power House Candies tied the Monarchs for third place. Fred Rankin bowled 670 for high individual series, and Joe Pucinnelli's 268 was high game. Scores:

with the assertion there is no such thing as legitimate subsidization. . . . Again, it is apparent that the doctor hasn't gone into the subject thoroly. . . . There IS such a thing as legitimate aid for athletes, as well as for nonathletes. . . . The University of Chicago thru the years has given legitimate aid in the form of scholarships and jobs, the same as other Big Ten schools. . . . Certainly Dr. Hutchins doesn't want the public to believe that all these years his school has been cheating. . . . Or does he? . . . That subject might make another good series.

# CLARKE SCHOOL'S CLASS OF 1915 SINGS OLD SONGS

## 50 Attend First Reunion in 25 Years.

BY MARCIA WINN.

Maybe it was because once, 25 years ago this June, they all sang Mendelssohn's "Still, Still with Thee." Maybe the other song they sang then, "In the Harbor We've Been Sheltered," made them nostalgic for a return of that harbor. Maybe they were all just curious.

Whatever the motive or the cause, 50 members of the June, 1915, graduating class of the old Clarke Elementary school defied ice and snow last night to see the schoolmates they had not seen or heard of for a quarter century. They held a reunion, their first since that June day when some one gave a monolog, "Who's Afraid?"—some one else recited "Nobility," and the girls of the class did a poppy dance.

**A Joyous Affair.**

The reunion, which grew out of the casual luncheon meeting of three of the boys—now all bordering on 40—was at the home of Charles Jacobs, 646 Sheridan road. It was a strangely joyous affair, for at it the 25 years of the past dropped away like a cloud from the sun and, in the words of Mrs. Ida Ginsberg of 1855 South Harding avenue [who had to be reminded she had served as class secretary], "I'm 14 again." They all were.

If one, looking at another, noticed his head was as bare and polished as a ping pong ball, he didn't visibly cringe, or feel his own head. He just said, "Why, Harry! I'd know you anywhere!" or "Charley! It's you!" or "Remember?" Then they would start, words tumbling over each other, on a stream of reminiscences.

**An Exception Is Noted.**

Only one exception was noted. A tall, slim, dignified man entered. A group of men and women studied him carefully, their eyes puzzled. He told them his name. "But," exclaimed a woman, "you—you were the class fat boy!" Soon he was surrounded by admirers, many of whom were just growing into the rotundity he had abandoned.

One man said he recognized 75 per cent of his classmates at first glance. Another placed it at 55 per cent, and a third estimated his recognitions at 50 per cent, adding, "I placed very few of the girls, but I knew all the boys."

**Sam Still Drives a Plow.**

The women, on the other hand, recognized each other, but had difficulty with the men. They all said [to each other], "But, my dear, you haven't changed a bit!" then quickly settled down to ask how many children each had.

Somebody was supposed to bring the class prophecy, but nobody did. A class pin showed up, however, flaunting the class motto, "We will work." Somebody else brought the 1915 commencement program. Sam Salk of 7712 Phillips avenue, who is 39 [the average age], rotund and merry, took one look at it and went prancing about from new old friend to new old friend. For on that program, he discovered, he recited, "Driving the Plow." "And I'm still driving it!" he said gleefully. "Still driving it!"

# COMMUNITY FUND NEAR GOAL; GIFTS REACH $3,549,505

Contributions to the Community Fund, on behalf of 178 private charities, yesterday reached $3,549,505, leaving but $61,495 to be raised toward the goal of $3,611,000. An average contribution of $1.59 has been received from 687,816 persons. The employé subscription groups with the highest averages have been engineers', $5.90; attorneys' employés, $5.62, and accountants' employés, $5.41. Mark A. Brown, industrial chairman, announced that $302.24 had been received from the Catholic Youth Organization employés, each of whom contributed a full day's pay.

### *Family Appeals for Help for Victim of Rabbit Fever*

Members of the family of Adolph Wundsan, 50 years old, appealed last night for aid for him in combating tularemia [rabbit fever]. He had been ill for three weeks in his home at 832 Buckingham place. His family asked any one who has recovered from the disease within the last year and a half to communicate with them at Bittersweet 2857. Dr. Boris Berkman, attending physician, requires a small amount of blood for a serum which he believes would improve Wundsan's condition.

### *High School Boy Shoots Prowler Fleeing His Home*

An unidentified prowler, who tried to break into the home of Stanley Wollenberg, 3336 North Central Park avenue, last night, was shot and driven away by Wollenberg's son, Leonard, 16 years old, a freshman at the Carl Schurz High school. The man had broken the front door lock, and was leaving the place after realizing he had been heard, when the boy fired out the window at him. He clutched his shoulder, and ran. Blood stains were found in front of the building.

**BLONDE AIDS IN ROBBERY.**

A young man, accompanied by a blonde woman, robbed Lewis Ogrens, 3941 Van Buren street of $8 and his taxicab at 21st place and Washtenaw avenue last night.

# *MEXICO STARTS SEARCH FOR NAZI SECRET AGENTS*

MEXICO CITY, Jan. 14 (AP).—Reliable sources asserted today President Lazaro Cardenas had ordered secret police to investigate reports that Nazi agents had established headquarters in Mexico City from which to conduct sabotage operations in the United States.

President Cardenas.

No arrests have been made, but government sources asserted Mexican secret police had ferreted out evidence that German agents had been crossing the Mexican-American frontier at frequent intervals in recent weeks.

They said airplane factories and other plants producing war materials in the United States were believed to be the center of interest.

**WOMAN DIES AFTER FIRE IN HOME.**

Mrs. Mary Mack, 38 years old, 530 Diversey parkway, died yesterday in the Columbus Memorial hospital of burns suffered Dec. 28 when the davenport on which she was sleeping caught fire, apparently from a cigaret.

# RED CROSS LEADERS REJECT N. Y. FAIR BID FOR VISIT BY QUINTS

[Chicago Tribune Press Service.]

TORONTO, Ont., Jan. 14.—The executive board of the Canadian Red Cross society today said it will recommend that the Red Cross refuse to sponsor a visit by the Dionne quints to the New York's World Fair. This seemed to make it definite that the quints will remain in Canada.

"That is good news to me," Judge J. A. Valin said at North Bay, Ont., "I never was in favor of the girls making the trip." With Oliva Dionne, the quints' father, he is their co-guardian.

J. G. Holmes, vice president of the fair, is said to have brought to Toronto an offer of a $100,000 guarantee for the quints. In addition, the Red Cross is reported to have been promised an estimated $500,000 "take" to sponsor the trip.

### *8 Persons Injured When Fire Engine and Auto Crash*

Jersey City, N. J., Jan. 14 [Special].—Seven firemen and a detective were injured early today when a fire engine collided with an automobile and then crashed into a pillar of a trolley car trestle. The firemen were on their way to a fire. The fire was in a parked automobile.

# MRS. LYNCH DIES AT 101; OLDEST EVANSTON NATIVE

## Born in Log Cabin on North Shore Farm.

Mrs. Ellen Lynch, 101 years old, who was known as the oldest Evanstonian, died yesterday in her home at 1604 Juneway terrace. She was born in a log cabin on the farm which covered the area between Juneway terrace, the north end of Calvary cemetery, and the lake.

Mrs. Ellen Lynch.

Later her parents, John and Margaret O'Leary, who came here from Ireland in 1836, built a new home at 1209 Chicago avenue, Evanston. O'Leary was a subcontractor on the Illinois and Michigan canal and bought the farm when his work on the canal was completed.

Mrs. Lynch's closest relatives are two nieces. Miss Rose Brienen, one of them, lives in the rebuilt homestead on Chicago avenue. Miss Brienen's sister, Mrs. A. J. Changelon, also lives in Evanston. Mrs. Lynch moved from the Evanston homestead to her home on Juneway terrace about three years ago.

The funeral will be held tomorrow, at 9 a. m., from the funeral home at 1555 Maple avenue in Evanston to St. Mary's church in the suburb.

# *CASSIDY STUDIES COMPLAINT ON 2% SLUSH LEVY*

Attorney General John E. Cassidy yesterday was studying a report issued Thursday by the Union League club of Chicago condemning the practice of forcing campaign contributions from civil service employés. The report urges Cassidy, who was appointed by Gov. Horner, to take steps to halt the practice.

Investigation on Saturday disclosed that the 2 per cent receipts from state employés' salaries are continuing to fill the Horner campaign chest, despite a reported order from the governor to his department heads not to molest civil service workers.

The Union League club report threatened to prosecute violators of the civil service law with private attorneys if public officials fail to act. Yesterday eight state's attorneys in whose districts state institutions are located said they had not received any formal complaints about the 2 per cent collections.

# *CAROLINE LOUISE ELLIOTT, 81, DIES; NOTED LIBRARIAN*

Miss Caroline Louise Elliott, retired reference librarian of the Chicago Public library, died last night in her home at 3353 Warren boulevard after an illness of two weeks. She would have been 82 years old today.

Miss Elliott retired in 1937 after 56 years of service with the library, most of that time as reference chief. Her wealth of knowledge encompassed more than 1,600,000 books. An educator once included her in his list of Chicago's 10 outstanding women.

Born in Quincy, Ill., Miss Elliott came to Chicago in 1873 and joined the library staff in 1881. Funeral services will be held at Miss Elliott's home at 10:30 a. m. Wednesday. Burial will be in Niles, Mich. Her nearest relatives are nieces and nephews.

### *Inquest Is Planned Today in Death of Manteno Nurse*

A coroner's inquest will be conducted today in the death of Miss Evelyn Gilkison, 29 years old, a nurse at the Manteno State hospital, who died yesterday in the Woodlawn hospital from what the Burnside police and hospital physicians said was mercury poisoning. Police said Miss Gilkison became ill in an apartment at 8238 Drexel avenue on Christmas day, a few hours after she had arrived in Chicago from Manteno to visit friends. Police said her home was in Nilwood, Macoupin county.

# 25 VETERAN WORKERS TO BE SPECIAL GUESTS AT Y.M.C.A. MEETING

Twenty-five men and women who have served the Young Men's Christian association a total of 738 years will be special guests Thursday at the 82d annual meeting of the Chicago Y. M. C. A. in the Stevens hotel. More than 1,200 members and friends are expected to attend.

J. B. Linendoll.

The 25 veterans have served as employés. The dean of them, in point of age, is Judson B. Linendoll, 73 years old, of 346 West 65th street, who is in his 41st year of service. He began as an elevator operator in July, 1899, a post he still holds.

The dean, in point of service, is W. J. Parker, who is completing his 43d year. He joined the staff in June, 1897, as a student secretary. He became general secretary of the Chicago Y. M. C. A. in 1923 and retired a year ago to become executive secretary of the board of trustees.

# *WILLIAM MAJOR DIES; VETERAN NEWSPAPER MAN*

William W. Major, veteran Chicago newspaper man, died yesterday in the Edward Hines Jr. hospital after an illness of several years. He was 53 years old.

Mr. Major was born in Shelbyville, Ind., and began his newspaper career there in 1909 as a reporter. Later he came to Chicago, working on the Daily News, the Evening American, and the Journal, as city editor of the latter two, leaving Chicago to serve as lieutenant of infantry in the world war. He was gassed and wounded at Chateau Thierry.

After the war he published his own newspaper in Warren, O., returning to Chicago as city editor of the Journal in 1928. The next year, when the Chicago Daily Times was founded, he became its city editor, a post he held until illness forced his retirement in 1935.

Surviving are his widow, Adella; two sisters, Ethel of 4900 Blackstone avenue, and Mrs. Mildred Kirk of Shelbyville, and a brother, Arthur, of Denver, Colo. Funeral services will be held Wednesday morning at the First Presbyterian church in Shelbyville.

# *J. J. O'ROURKE, 85, FORMER HARVEY OFFICIAL, IS DEAD*

Jeremiah J. O'Rourke, 85 years old, native Chicagoan who had lived most of his life in Harvey, died yesterday in Minneapolis, Minn. He went to Minneapolis a few months ago to visit a daughter, Mrs. John Pauly.

Mr. O'Rourke was born at 22d street and Wentworth avenue. His parents had come to Chicago in 1843. He was postmaster of Harvey for two terms under the Cleveland administration and again for two terms under Wilson. He was elected Thornton township assessor for 27 consecutive years and in 1910 he went to the legislature for three terms.

He is survived by three daughters, Mrs. Pauly, Mrs. W. R. Hans of Birmingham, Mich., and Mrs. Frank Vance of Chicago, and one son, John, a deputy sheriff in Cleveland, O. The body will be brought to Chicago for burial.

# *MAYOR ASKS CITY TO JOIN RAINBOW VETS' FESTIVITIES*

Mayor Kelly issued a proclamation yesterday urging all Chicagoans to aid veterans of the world war 42d division, known as the Rainbow division, in celebrating Rainbow day Wednesday, Jan. 24. Simultaneous celebrations will be held by veterans of the division in 24 states and in the Philippine Islands. A major part of the division was recruited from Illinois and surrounding states. More than 500 veterans and their friends are expected to take part in the celebration in Hotel Sherman, Eskil I. Bjork, Illinois chapter president, announced.

# *N. W. WILLIAMS, OWNER OF LOOP PROPERTIES, DIES*

Nathan Wilbur Williams, wealthy owner of loop real estate, died yesterday in Augustana hospital. He was born in Evanston 72 years ago and spent a large part of his life there, but recently his home was at 201 East Delaware place.

He was the heir to a fortune left by his father, John Marshall Williams, who gave Fountain square to Evanston. It was known originally as Williams square. Mr. Williams and his sisters presented the Williams addition to Evanston hospital as a memorial to their mother, Elizabeth. Mr. Williams was the owner of the Williams building, 205 West Monroe street, and other loop property.

He was a charter member of the Onwentsia and Glenview Golf clubs, a member of the Illinois Athletic club and Edgewater Golf club, and a life member of the Art institute. His widow, Ouida; a daughter, Mrs. Elizabeth Sikes; two sons, Mason and Bronson Williams, all of New York, and two sisters survive. Funeral services will be held tomorrow at 2 p. m. in the chapel of Graceland cemetery.

# WILSON PACKING EARNINGS RISE IN FISCAL YEAR

## Expects Operations to Improve.

Operations of Wilson & Co., ranking third among Chicago's "big four" meat packing companies, improved substantially in the fiscal year ended Oct. 28, 1939, the annual report of Edward F. Wilson, president, disclosed yesterday.

Edward F. Wilson.

The year's net earnings were $3,201,638, equal to 62 cents a share on common stock, after allowing for one year's dividends on the preferred shares. Accumulations of $9.75 shown against the preferred stock at the close of the fiscal period were reduced by a $2.25 dividend paid on Dec. 22.

Earnings in the preceding year were $19,940, or 6 cents a share on the $6 preferred stock.

**Sales Volume Compared.**

Wilson reported the year's income represented 1.17 per cent of the company's sales of $273,000,000, which compared with $275,000,000 in the preceding year. The decline was due entirely to reduced selling prices, as there was an increase in tonnage volume of sales, he said.

Wilson asserted this year's anticipated increase in hog processing, which the federal government has estimated at 20 per cent, will enable the packers to increase their employment and reduce unit operating costs.

Last year's gain of 14 per cent in hog processing, augmented by the general expansion of business activity and the resulting increase in public purchasing power, accounted for the company's improved results, he said.

Wilson reported there was a public misconception of the European war's effect on packers' profits. There has been little or no effect, he said. Warring nations have not only failed to purchase more meat from United States packers, but have reduced their buying. However, packers have benefited thru the virtual suspension of imports from Europe, which had reached substantial proportions.

**Meat Prices Lower.**

Altho meat prices advanced after the beginning of the war last September, they quickly declined, Wilson said, and at the close of the company's 1939 accounting period were lower than they were a year earlier.

"The success of our 1939 sales promotion drive was based upon the intelligent use of newspaper and point-of-purchase advertising," Wilson said. "In 1940 we will follow the same proved formula, but on broader lines."

He disclosed that the company's foreign operations resulted in net profits of $943,634 for the year, after United States income taxes and other charges.

# MONOPOLY PROBERS SWITCH TO CARTELS; COPPER FIRST STUDY

Washington, D. C., Jan. 14 (AP).—The monopoly investigating committee tomorrow will begin a study of cartels, with officials of the copper industry as first witnesses.

Cartel is the French word for monopoly. Officials said that as used by the committee it means agreements between business men to fix prices and allocate markets.

The committee said that witnesses would be asked to explain "the workings of cartel types of organizations in industry, their aims, their successes in stabilizing domestic price and production, and their economic significance."

## *Rail Tests Use of Asphalt for Roadbed Construction*

Tests to determine the practicability of using asphalt roadbed construction are being carried out by the New York Central railroad in cooperation with the Association of American Railroads, J. J. Pelley, association president, announced yesterday. Over a stretch of track 600 feet long near Bryan, O., regular crushed rock ballast has been mixed with asphalt, and on the surface resembles a normal asphalt pavement.

# CHICAGO CORP. ASSET VALUES RISE LATE IN '39

## But Show Decrease from Year Ago.

The Chicago corporation, the largest investing company in the middle west, reported yesterday to stockholders that the asset values of its shares were higher at the end of 1939 than six months earlier. Net assets were lower than at the end of the preceding year.

Richard Wagner.

Richard Wagner, president, said that net assets on Dec. 31 amounted to $31,770,665, equal to $58.85 a share on the convertible preference stock and $1.28 a share on the common stock. At midyear the company's assets totaled $28,665,143, or $52.18 per share of preferred and 20 cents per share of common.

**Values Higher a Year Ago.**

A year earlier net assets were valued at $34,045,254. The per share values at the end of 1938 were $60.19 on preferred and $1.57 on common.

Extensive shifts were made in investments in the last six months of 1939, the report disclosed. Large purchases included 3,000 shares of American Airlines, Inc.; 1,000 shares of Douglas Aircraft; 3,500 of General Motors; 5,000 of Timken-Detroit Axle; 20,000 of Pacific American Fisheries; 3,500 of Colgate-Palmolive-Peet; 3,500 of Parkersburg Rig and Reel; 5,000 of Pennsylvania Railroad; 5,000 of Republic Steel; and 3,000 of Pacific Gas and Electric.

Sales made in the last half of the year included 2,200 shares of Sperry corporation, 1,600 of Chrysler, 2,000 of B. F. Goodrich, 5,000 of Mathieson Alkali Works, 2,000 of General Foods, 3,000 of Kennecott Copper, 5,000 of Lehigh Coal and Navigation, and 4,000 of Libbey-Owens-Ford Glass.

Net income from interest and dividends for the year ended Dec. 31 was $960,974, compared with $795,862 in the preceding year.

# *FCC Asks Larger Staff, More Cash to Patrol the Ether Waves*

[Chicago Tribune Press Service.]

Washington, D. C., Jan. 14.—In its annual report to congress the Federal Communications commission today asked for increased personnel and travel appropriations for field investigations. It mentioned its new responsibility in patroling the ether waves in connection with the preservation of neutrality.

The commission reported that at the close of the 1939 fiscal year it had 421 employés in Washington and 193 in the field, or a total of 614.

"A serious handicap to the commission in its efforts to obtain adequate and reliable hearing records has been its inability to hold hearings in the field due to lack of personnel and travel appropriations," said the report.

**Cites Activities of Year.**

The report cited the following activities of the 1939 fiscal year:

1. Inquiry into chain broadcasting policies and practices. The report, when issued, will be the basis for possible new regulations and recommendations to congress.

2. Inquiry into the status of television, finding it had barely emerged from the technical research stage.

3. Reports on the special investigation of the telephone industry, recommending stricter regulation.

4. Completion of survey of radio requirements for safety of shipping on the Great Lakes and inland waters.

5. Received 7,500 applications for broadcasting stations.

6. Held 550 regular meetings and presided at 143 hearings. Issued 480 final orders and designated 490 applications for formal hearing. In addition, 467 formal motions were acted upon by the commission.

7. Received and studied nearly 17,000 communications tariff schedules and made approximately 16,500 ship radio inspections.

**Will Examine Sun Spots.**

The commission said that thru its engineering department it is launching the most comprehensive study of sunspot effect on communications yet undertaken.

On its new duties as neutrality guardian the FCC report said:

"The FCC has, since the outbreak of the European war, undertaken new and exacting burdens in connection with the preservation of neutrality and the important relationship of all forms of communications to the national defense. Its policing of the ether waves must now take cognizance of the rôle assigned to radio in a national emergency."

**COMMON HAS PREFERENCE.**

**I am told that the common stock of the Green Bay and Western railroad has prefereuce as to dividends before some of the debentures. This seems unusual. Will you please describe the provisions of the debentures and common stock relating to interest and dividends?—S. L.**

Answer: The Green Bay and Western railroad company operates a line from Green Bay to East Winona, Wis., which with two short branches, covers 232 miles. Principal commodities carried are soft coal, industrial goods, newsprint, and petroleum products.

Outstanding funded debt is composed of $600,000 of Class A and $7,000,000 Class B noncumulative income debentures naturing only when the road is sold or reorganized. There are 25,000 shares of $100 par common stock.

The Class A debentures have prior claim to 2½ per cent interest, and then the common stock is entitled to $2.50 a share. After these payments, both the Class A debentures and the common stock share ratably until each receives an additional 2½ per cent. The Class B is entitled to any remaining surplus earnings. If interest or dividend is unpaid, it does not accumulate as an arrearage.

**BRAZIL'S DEBT.**

**What is the current status of service payments on the Brazil dollar bonds?—J. L.**

Answer: Debt service on the $169,000,000 external dollar debt of the United States of Brazil was discontinued in November, 1937, under a moratorium which contemplated readjustment of the debt. The dollar debt is composed of four issues and a funding loan. Interest payments were defaulted in 1931 and 1932.

In March, 1939, the Brazilian foreign minister, Oswaldo Aranha, said that his government planned to resume payment of interest and amortization of the dollar loans in July, but that resumption would depend on an increase in Brazilian exports and holdings of American dollars.

The Brazilian government in July announced that $1,000,000 had been deposited in New York as a step toward resumption of debt payments. No payments were made and it was indicated that the foreign bondholders' protective council would enter negotiations on behalf of Americans holding Brazilian bonds.

The outbreak of the war in Europe last September, however, apparently disrupted the negotiations and it was indicated that serious consideration of renewing debt service would not occur until the international situation is less unsettled.

## *Seek Uniform Assessment Date to End Tax Evasion*

The National Association of Assessing Officers reported yesterday the existence of a trend among states to make Jan. 1 a uniform tax assessment date. Some states have made this change partly in an effort to prevent tax evasion thru the movement of property across state boundaries, the report said.

# *CLOTHIERS MEET TODAY; REPORT BUSINESS GAINS*

Members of the National Association of Retail Clothiers and Furnishers will meet today at the Hotel La Salle for their 26th annual convention. It closes Wednesday.

Advance guards of the clothing merchants brought reports of a marked improvement in business last year despite the war, rising prices, labor troubles, and unseasonable weather.

Tomorrow Gerald D. Grosner of Washington, D. C., will stage a style show, predicting the fashions for spring and summer. In the morning a board of experts will attempt to answer all questions on store management at a question symposium for merchants.

# *PREDICT ACTIVE USE OF STEEL IN FIRST QUARTER*

Continued active steel consumption for the next two to three months was forecast yesterday by the magazine Steel. But the trend later, the publication said in its weekly review, will depend on how rapidly buyers reenter the market after absorbing previous commitments.

Heavy shipments and a lag in new buying last week, however, forced the nation's rate of production off only half a point to 86 per cent of theoretical ingot capacity.

# EUROPEANS BUY LARGE AMOUNT OF WORLD GRAIN

## Deals Have Little Effect on Prices.

Great Britain and other European countries last week purchased more than 100 million bushels of cash wheat, corn, oats, and rye in what Chicago grain authorities said were the largest transactions ever made in the grain trade in such a short period.

Because the transactions represented intergovernment operations for the most part, the large sales had little or no effect on the futures markets, according to brokers. Little if any of the wheat sold abroad had been hedged by the sale of futures, it was said. Most of the grain was obtained in Canada, Australia, and Danubian countries.

**Britain Is Large Buyer.**

The United Kingdom's purchases were estimated at as much as 90 million bushels and were made, it was understood, to assure prompt shipments when vessels were available. All English steamers are to be commandeered on Feb. 1, which will simplify the problem of allocating shipments.

Because other foodstuffs are being rationed in principal European countries the consumption of bread is expected to increase. There is no prospect for an increase in German consumption, however, according to grain traders.

Altho grain authorities assert Europe seems assured of its ability to build up adequate supplies of wheat, they say too much emphasis is being placed on this grain, and stocks of corn and other feeding grains have been permitted to lag.

**England Buys American Corn.**

This was reflected during the last week in estimated sales of more than 2 million bushels of American corn. The United Kingdom recently bought about 9 million bushels of barley from Iraq so that farmers who cooperated with the British government effort to raise more hogs would be able to obtain adequate supplies for feed. The price of American barley is said to be well above the levels of other countries.

Wheat and corn futures on the Chicago Board of Trade declined last week to the lowest levels since mid-December and showed only minor recoveries from the low points.

**Week's Range of Prices.**

The range of grain prices last week follows:

| | High. | Low. | Jan. 13. | Close. Jan. 6. |
|---|---|---|---|---|
| **Wheat.** | | | | |
| May | $1.03¼ | $ .97⅞ | $ .98¼ | $1.03⅝ |

# REPORT GOVERNMENT AGENCIES MAY RETURN BILLION TO TREASURY

Washington, D. C., Jan. 14 (AP).—The government's 40 far-flung independent corporations and agencies may return as much as a billion dollars to the treasury the next fiscal year, it was learned from usually reliable sources today. These agencies were asked collectively by the President in his recent budget message to fork over $700,000,000, but it was learned that presidential advisers considered this a minimum rather than a fixed sum.

Roosevelt's budget proposed expenditures of $2,876,000,000 larger than estimated receipts from current taxes. He figured on getting $700,000,000 from the independent corporations and asked $460,000,000 of additional defense taxes to bring the net deficit for the fiscal year beginning July 1 down to $1,716,000,000.

Without saying whether the individual allotments might exceed $700,000,000, Budget Director Harold D. Smith said that each agency's contribution would be worked out entirely on the basis of what it can spare in idle or unnecessary capital.

## *Today's Features*

**ON W-G-N.**
**[Central Standard Time.]**

Lucy Monroe, young American lyric soprano of opera, concert, and radio, will be the guest star on the Pageant of Melody, on W-G-N and the coast to coast Mutual network at 9:30 tonight. Also featured will be W-G-N's operatic tenor, Attilio Baggiore, and the concert orchestra and chorus, under the baton of Henry Weber.

Miss Monroe will sing "Waltz Song," from Gounod's "Romeo and Juliet," and with Baggiore a duet from "Carmen." Then she will join Baggiore and the orchestra and vocal octet in "Wanting You," from Romberg's "New Moon."

Mr. Weber will play the piano in an arrangement of "Farewell," composed by Adolf Hoffmann of the W-G-N musical department, with the vocal accompaniment of the octet. This broadcast is one of W-G-N's parade of concerts to continue thruout 1940 to stimulate interest in the Chicago City opera.

What Would You Do, a new interview show, presented by Bill Burghart from the National Trailways' bus depot, is scheduled on W-G-N at 10:45 a. m. The program will be offered each Monday, Wednesday, and Friday, and will feature interviews with passengers arriving, departing, and en route from various parts of the country.

War news and human interest stories taken from the latest cabled reports of The Chicago Tribune's foreign correspondents—will be presented by Guy Savage on the Foreign News broadcast over W-G-N and Mutual at 9:15 p. m.

## *Urges Competitive Bidding for Utility's Large Loan*

Dayton, O., Jan. 14 (AP).—City Commissioner Harry J. Munger asked the state utilities commission today to order competitive bidding on a proposed $25,000,000 refunding bond issue of the Dayton Power and Light company. Munger said in a telegram to the commission that present plans called for Morgan Stanley & Co. of New York to handle the issue "without competition" and said substantial savings could be effected on the open market.

## HELP WANTED—MEN.

### Salesmen.

MEN

Here, briefly, are the high spots of a thrilling new sales program that will create fortunes for those who are seeking a lifetime connection and one that pays exceptionally well for those who actually want work.

1.—An electrical product with a national staple demand and a big repeat business, yet one that has all the appeal of a novelty.

2.—Can produce $25 a day net commission on sales.

3.—Pays steadily. No lean seasons.

4.—Big commission to be made in smallest town or largest city.

5.—Absolutely no experience needed to be successful.

6.—All necessary equipment ready to turn over without any investment on your part.

This is TRUTH—not fiction; FACT—not theory. It is business with a great profit to our dealers and to the best of our knowledge, it is the BIGGEST MONEY-MAKING OPPORTUNITY in America. Any man with ordinary intelligence and a strong desire to SUCCEED is bound to make BIG MONEY. If you are a wide-awake and aggressive, go-getter, with plenty of energy and enthusiasm, apply at 11 o'clock sharp Monday morning—no other time. 2400 W. Madison-street, Room 306.

### REMOVE ALL DOUBT FROM 1940.

Changes in our personnel at the close of business of 1939 leave openings for live men. Our requirements are that you are not under 23, have ambition, and want to get so that you will never need to change jobs. We want men who expect to be paid enough to live well and at the same time enjoy some luxuries. If you are that type of individual we will offer you a permanent position that will certainly eliminate all doubt about your future. Percentage. Electric unit.

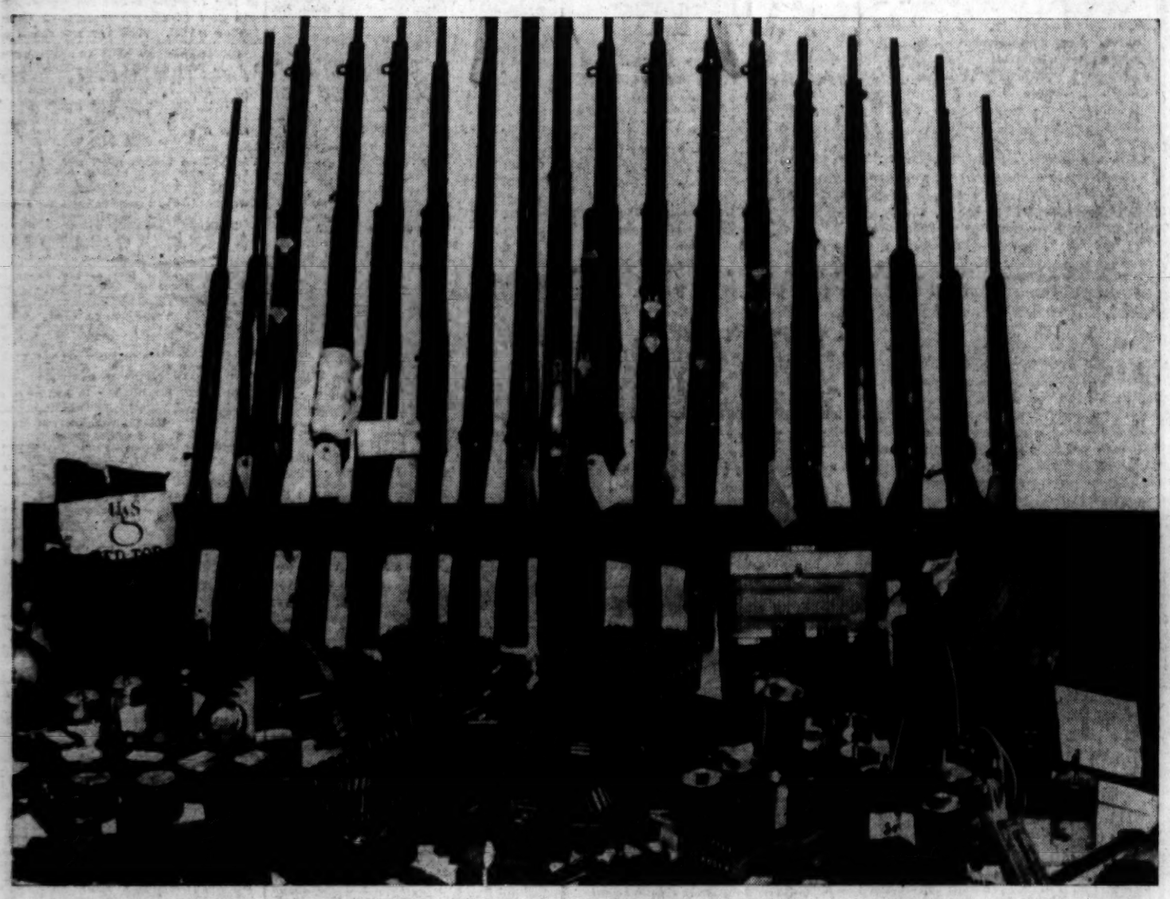
# Belgium and Netherlands Increase Border Guard—Seize 18 in New York in Fantastic Plot to Set Up Dictator



This picture of what he called a "small arsenal" was released in New York yesterday by J. Edgar Hoover, Federal Bureau of Investigation head, who said guns were to have been used by "Christian Front" members to overthrow the government.
[Associated Press Wirephoto.]
(Story on page 1.)

Scenes like the one above were being enacted on a large scale by Belgian reservists yesterday as that country ordered virtually complete mobilization because of German troop movements. Picture shows soldiers leaving barracks in Brussels for duty.

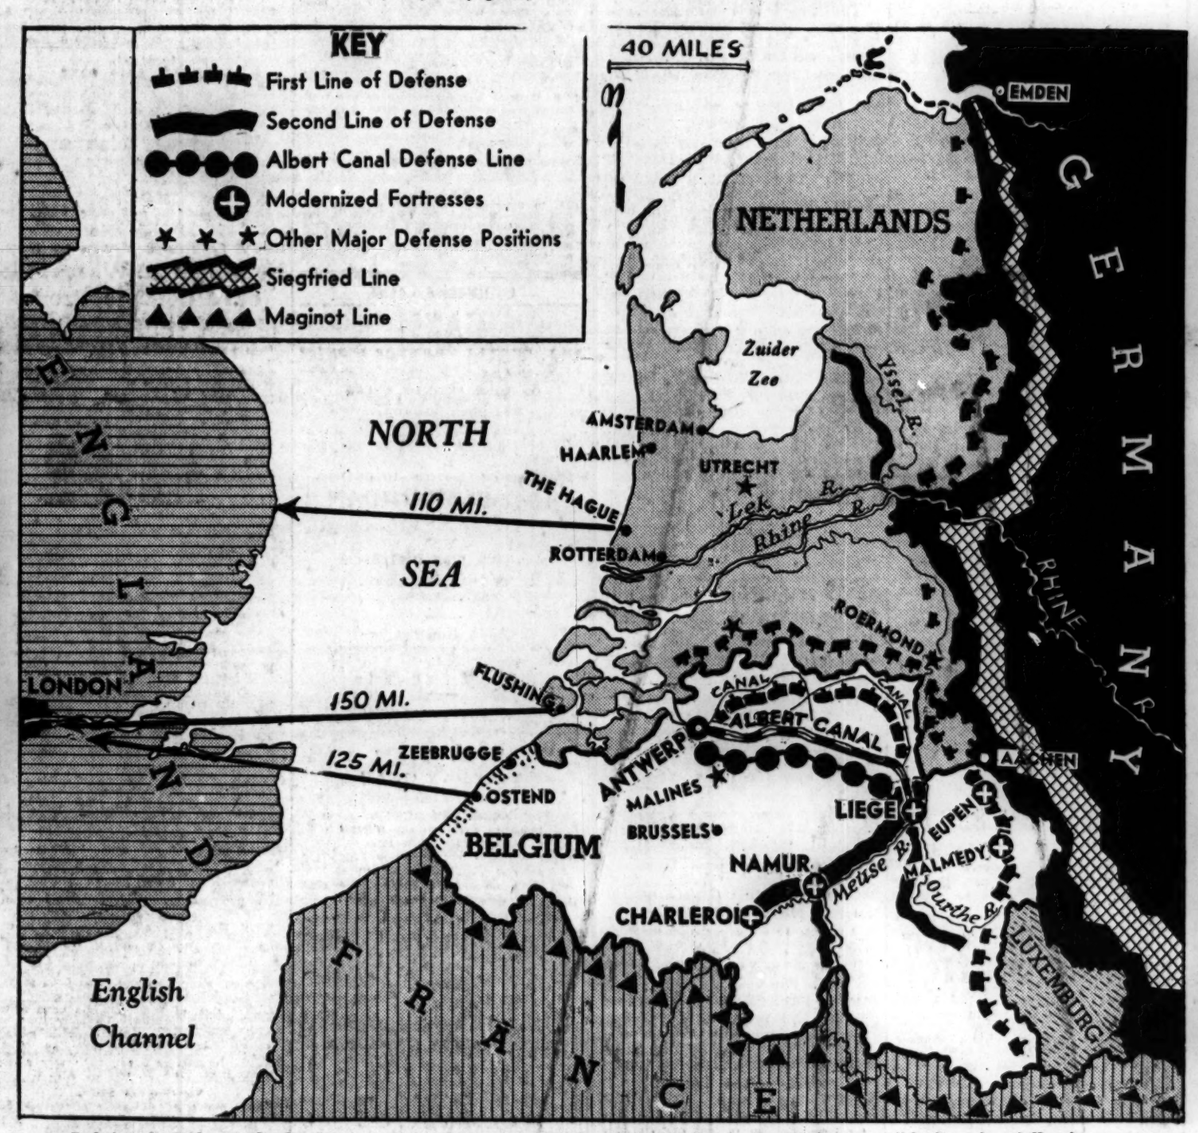
(Story on page 1.)

Gov. Henry Horner arriving yesterday to confer with Mayor Kelly on 1940 Democratic slate.
[TRIBUNE Photo.]
(Story on page 8.)



Belgium and the Netherlands yesterday took steps to make their borders safer against possible invasion following reports of German troop concentrations nearby. Distances to England from Holland and Belgium show how mileage would be cut for German bombing planes if Germany could obtain bases in either of those countries.
(Story on page 1.)

Constance Bennett, screen and stage star, as she took role in "Shadow Play" broadcast yesterday by W-G-N.

(Story on page 8.)

Contestants in the fourth heat of the boys' intermediate Derby of the Chicago Tribune's Silver Skates tournament get off to a fast start on the lagoon in Garfield park yesterday afternoon as a large crowd looks on despite the snowy, blowy weather. The winner of the intermediate Derby for boys was Junior Haenisch of the Northwest Skating club.
